Contemporary Silver Made In Italy:

Contemporary Silver Eva Czernis-Ryl, 2004 Provides a fascinating historical overview of Italian decorative precious metalwork from antiquity to the present day as the entree to over 90 beautiful works from the past three decades from key 20th century silversmithing studios and noted architects and designers **Made in Italy** Annie Brody, Patricia Schultz, 1988

Votive Panels and Popular Piety in Early Modern Italy Fredrika H. Jacobs, 2013-10-07 In the late fifteenth century votive panel paintings or tavolette votive began to accumulate around reliquary shrines and miracle working images throughout Italy Although often dismissed as popular art of little aesthetic consequence more than 1 500 panels from the fifteenth and sixteenth centuries are extant a testimony to their ubiquity and importance in religious practice Humble in both their materiality and style they represent donors in prayer and supplicants petitioning a saint at a dramatic moment of crisis In this book Fredrika H Jacobs traces the origins and development of the use of votive panels in this period She examines the form context and functional value of votive panels and considers how they created meaning for the person who dedicated them as well as how they accrued meaning in relationship to other images and objects within a sacred space activated by practices of cultic culture *The Encyclopædia Britannica* Thomas Spencer Baynes, 1891 **The Contemporary Review**

, 1892 **Becoming a Queen in Early Modern Europe** Katarzyna Kosior, 2019-03-18 Queens of Poland are conspicuously absent from the study of European queenship an absence which together with early modern Poland's marginal place in the historiography results in a picture of European royal culture that can only be lopsided and incomplete Katarzyna Kosior cuts through persistent stereotypes of an East West dichotomy and a culturally isolated early modern Poland to offer a groundbreaking comparative study of royal ceremony in Poland and France The ceremonies of becoming a Jagiellonian or Valois queen analysed in their larger European context illuminate the connections that bound together monarchical Europe These ceremonies are a gateway to a fuller understanding of European royal culture demonstrating that it is impossible to make claims about European queenship without considering eastern Europe **The Encyclopaedia Britannica**, 1894

Fodor's Italy Eugene Fodor, 1999 Ornament T. L. J. Howard, Michael Snodin, Maurice Howard, 1996-01-01 In a wide ranging and richly illustrated book the authors begin by tracing the ways ornament has been used over the last five centuries the rules of decorum and etiquette associated with it and the social moral and spiritual values it has represented They examine how architecture set the agenda for ornament in the Renaissance and how printed images carried a common vocabulary of ornament throughout the Western world They survey the personal side of ornament both in dress and in the domestic interior a private expression of the self and a public statement of social and cultural status They look at ornament in the public domain from the lavish decoration and symbolism of a town pageant to the logos of today's corporate industry and show how the ever evolving role of ornament is to invent and embody the collective spirit of communities at work and at leisure They conclude by discussing how the Western tradition of ornament has responded to and absorbed exotic African

and Asian motifs Moresque motifs of the Near East and such familiar designs as the Paisley and Willow patterns **Host**

Encyclopaedia ,1829 **Cold War American Exhibitions of Italian Art and Design** Antje Gamble,2023-07-13 Enriching the existing scholarship on this important exhibition Italy at Work Her Renaissance in Design Today 1950 53 this book shows the dynamic role art specifically sculpture played in constructing both Italian and American culture after World War II WWII Moving beyond previous studies this book looks to the archival sources and beyond the history of design for a greater understanding of the stakes of the show First the book considers art s role in this exhibition s import prominent mid century sculptors like Giacomo Manzoni Fausto Melotti and Lucio Fontana were included Second it foregrounds the particular role sculpture was able to play in transcending the boundaries of fine art and craft to showcase innovative formalist aesthetics of modernism without falling in the critiques of modernism playing out on the international stage in terms of state funding for art Third the book engages with the larger socio political use of art as a cultural soft power both within the American and Italian contexts Fourth it highlights the important role race and culture of Italians and Italian Americans played in the installation and success of this exhibition Lastly therefore this study connects an investigation of modernist sculpture modern design post war exhibitions sociology and transatlantic politics and economics to highlight the important role sculpture played in post war Italian and American cultural production The book will be of interest to scholars working in art history design history museum studies Italian studies and American studies **Reshore Production Now** William A. Levinson,2023-06-08 This book addresses the vital importance of reshoring US manufacturing capability to ensure economic and military security and then discusses the proven methods that the United States used to gain manufacturing supremacy in the first place The vital takeaway is If the job can be made sufficiently productive the per unit labor cost ceases to be relevant which means a business can pay high wages realize high profits and deliver low prices simultaneously The contest is then not between high wages and cheap labor but between efficiency and inefficiency and when automation is involved machine against machine Readers will be able to put these principles to work very quickly to achieve tangible results The relatively low Federal minimum wage has meanwhile become a major issue but inflation skyrocketed in the second quarter of 2022 when higher wages and higher demand for goods and services were not matched with higher productivity The book addresses the relationship between the money supply and the velocity of money to prices wages and productivity A manufacturing resurgence in the United States will not only increase our standard of living enormously but generate taxable economic activity that will help pay down rather than increase the Federal debt Higher productivity also delivers a greater supply of goods to accompany higher wages and thus works against inflation This can prevent looming recessions and disruptions Choice ,2004 **Economy and Society in Early Modern Europe** Peter Burke,2005-11-03 Within this volume all the contributions are oriented towards Europe in the sixteenth and seventeenth centuries and all are concerned

with long term changes and with the relation between economic growth and social change **Castellani and Italian Archaeological Jewelry** Susan Weber Soros, Stefanie Walker, Bard Graduate Center for Studies in the Decorative Arts, 2004-01-01 During the nineteenth century in Rome three generations of the Castellani family created what they called Italian archaeological jewelry which was inspired by the precious Etruscan Roman Greek and Byzantine antiquities being excavated at the time The Castellani jewelry consisted of finely wrought gold that was often combined with delicate and colorful mosaics carved gemstones or enamel This magnificent book is the first to display and discuss the jewelry and the family behind it International scholars discuss the life and work of the Castellani revealing the wide ranging aspects of the family's artistic and cultural activities They describe the making and marketing of the jewelry the survey collection of all periods of Italian jewelry on display in the Castellani's palatial store and the Castellani's activities in the trade of antiquities as they sponsored excavations and restored dealt and exhibited antiques They also recount the family's involvement in the cultural and political life of their city and country **Patrons and Adversaries** Caroline Castiglione, 2005-02-03 The early modern Roman countryside was a site of contestation between great aristocratic families and an expanding papal political regime Rarely has the role of the inhabitants of this landscape the villagers been considered as part of that power struggle As Caroline Castiglione shows in this compelling revisionist work one Roman aristocratic family the Barberini was not squeezed out of governing by the extension of the papal bureaucracy but rather became increasingly engaged with it during the long eighteenth century Through their participation in the rural commune villagers in an extensive territory belonging to the Barberini became active participants in the governing of the countryside Villagers cultivated and exploited interference from the aristocratic family and the papal government but they also kept urban elites at bay defending their rights through the strategies of adversarial literacy Such literate practices drew on village mastery of local constitutions debates in the village assembly and brilliant use of the legal system of the papacy to thwart the designs of the Barberini Later villagers created and interpreted sources for themselves effectively challenging the elite monopoly on making and interpreting texts A lost world of increasingly savvy villagers irate nobles and exasperated bureaucrats emerges here in an engaging narrative that chronicles how seemingly marginalized villagers challenged the pragmatic control of the Roman countryside using texts and ideas that urban elites had exported to the countryside for other purposes *Harry S. Truman Home* Sarah Olson, 1987 *Ten Centuries of Art* Henry Noel Humphreys, 1852 *Ten centuries of art. Its progress in Europe from the 9th to the 19th century. With a glance at the artistic works of classical antiquity and concluding considerations on the probable influence of the Great Exhibition, etc* Henry Noel Humphreys, 1852
