

CONTEMPORARY STRATEGY II THE NUCLEAR POWERS

SECOND EDITION

REVISED AND ENLARGED

In this thoroughly revised and enlarged two-volume edition of a widely acclaimed work, four experts consider the planning and implementation of military and nonmilitary strategy. Volume I begins with a discussion of the nature and evolution of strategy and the changing role of military force, and goes on to identify and discuss some of the most important concepts in contemporary strategic thought. Volume II describes the characteristics and development of the military policies of the major powers since 1945.

This introductory text, offering both theoretical and practical discussion, assumes no prior knowledge of its subject, but its sophisticated analysis and comprehensive scope will make it of interest to the specialist as well as the novice reader.

FROM REVIEWS OF THE FIRST EDITION:

"A comprehensive introduction to the strategic literature, which displays a keen eye for what is lasting and what is not." — *Foreign Affairs*

"An outstanding review of contemporary strategy... done in a highly workmanlike manner, soundly researched, in clear English, and with a nice sense of history... *Contemporary Strategy* is highly readable and recommended for all levels, undergraduate lower-division through postdoctoral." — *Choice*

Contemporary Strategy Ii The Nuclear Powers

Dr Russell Ong, Russell Ong

Contemporary Strategy II The Nuclear Powers:

Understanding Contemporary Strategy Thomas M. Kane, David J. Lonsdale, 2012-03-12 Understanding Contemporary Strategy provides an accessible and comprehensive introduction to the theory and practice of modern strategy. Covering all the main issues in the field, the book explores the major themes through a combination of classical and modern strategic theory, history, and current practice. The book is split into three main sections: Definition and Context, including discussion of the human, technological, intelligence, ethical, and grand strategic dimensions; Strategy in the Geographic Environments: land, sea, air, and space; Contemporary Strategic Challenges: terrorism, insurgency, and nuclear strategy. Each chapter presents the reader with a succinct summary of the topic but also provides a challenging analysis of current issues, supporting students with pedagogical features such as suggested further reading, boxed case studies, and study questions. This book will be essential reading for upper level students of strategic studies, war studies, military history, and international security.

Routledge Handbook of Diplomacy and Statecraft B.J.C. McKercher, 2012-03-12 Despite post-Cold War arguments about their demise, Great Powers not only continue to thrive, with lesser Powers they form the basis of the constellation of global politics. This topical new Handbook illustrates how and why the new international order has evolved and is still evolving since the end of the Cold War through the application of diplomacy and statecraft. Including cutting-edge contributions from over 40 scholars, the handbook is structured around seven sections: Context of Diplomacy; Great Powers; Middle Powers; Developing Powers; International Organisations and Military Alliances; International Economy; Issues of Conflict and Co-operation. Through analysis of a wide range of case studies, the Handbook assesses the diplomacy and statecraft of individual powers, offering insights into how they function, their individual perception of national interests, and the roles they play in modern statecraft. The contributors also seek to evaluate the organizations and contemporary issues that continue to influence the shaping of the new international order. A comprehensive survey of diplomacy across the world, this work will be essential reading for scholars and professionals alike.

Bulletin of the Atomic Scientists, 1987-03 Makers of Modern Strategy from Machiavelli to the Nuclear Age Peter Paret, Gordon A. Craig, Felix Gilbert, 2010-10-01 Authoritative and convincing. New York Times Book Review. The classic reference on the theory and practice of war. The essays in this volume analyze war, its strategic characteristics, and its political and social functions over the past five centuries. The diversity of its themes and the broad perspectives applied to them make the book a work of general history as much as a history of the theory and practice of war from the Renaissance to the present. *Makers of Modern Strategy from Machiavelli to the Nuclear Age* takes the first part of its title from an earlier collection of essays that became a classic of historical scholarship. Three essays are reprinted from the earlier book, while four others have been extensively revised. The rest, twenty-two essays, are new. The subjects addressed range from major theorists and political and military leaders to impersonal forces. Machiavelli, Clausewitz, and Marx and Engels are discussed, as are Napoleon, Churchill, and Mao. Other essays trace the interaction of theory and

experience over generations the evolution of American strategy for instance or the emergence of revolutionary war in the modern world Still others analyze the strategy of particular conflicts the First and Second World Wars or the relationship between technology policy and war in the nuclear age Whatever its theme each essay places the specifics of military thought and action in their political social and economic environment Together the contributors have produced a book that reinterprets and illuminates war one of the most powerful forces in history and one that cannot be controlled in the future without an understanding of its past

China's Security Interests in the Post-Cold War Era Dr Russell Ong, Russell Ong, 2013-12-19 Concentrates on the economic and political aspects of China's security agenda which have to a certain extent been given less prominence in most security studies on China

Strategy in the Contemporary World John Baylis, James J. Wirtz, Colin S. Gray, 2019 A complete introduction to strategy in the contemporary world which critically explores the enduring present and emerging issues dominating the field of strategy

Modern Military Strategy Elinor C. Sloan, 2016-10-11 This textbook provides a comprehensive introduction to post Cold War military theory for students of strategic studies This second edition has been fully revised and updated including a new chapter on peacekeeping and examines contemporary strategic thought on the conduct of war in the sea land air nuclear space and cyber domains as well as irregular warfare Each chapter identifies contemporary strategic thinkers in a particular area examines strategic thought through the lens of identifiable themes and discusses the ideas of classical strategists to provide historical context Examples of the link between the use of military force and the pursuit of political objectives are presented such as airpower against ISIS and in Libya counterinsurgency in Afghanistan and Iraq counter piracy operations off the coast of Africa and the Stuxnet virus in Iran The chapters identify trends statements and principles that indicate how military power can best be employed to effect political ends while the conclusion paints an overall picture of the relationship between classic and contemporary strategic thinking within each warfare domain This book will be essential reading for students of strategic studies war studies and military history and is highly recommended for students of security studies and international relations in general

Strategy and Ethnic Conflict Laure Paquette, 2002-02-28 Ethnic conflict now presents the thorniest problems for military and civilian strategists of all stripes This book presents a new general theory of strategy encompassing studies of the relationship between values interest and strategy as these relate to ethnic conflicts It focuses on the relationship between values and strategy building a theory on the hypothesis that national values influence national strategy Paquette's research reveals that national values influence national strategy through three mechanisms cognition appreciation and evaluation Each mechanism and indeed the whole value focused approach to strategic thinking is described using a network of interrelated statements Paquette develops a methodology specific to the issues of international security and ethnic considerations She tests this theory extensively for internal consistency before applying it to a single historical case French decision making on national strategy between 1955 and 1970 however because of its generality this same theory

could easily be applied to other cases As with any theory it is possible to vary successively or simultaneously assumptions or conditions and to derive new predictions This process of deriving variations has the potential to help in the training of strategists both military and civilian

China's Foreign Policy since 1949 Kevin Cai,2022-01-24 This book provides a systematic and comprehensive analysis and overview of China's foreign policy since 1949 It starts with constructing an analytical framework for explaining Chinese foreign policy and then on the basis of that outlines and analyzes developments in different areas of foreign policy such as security policy international economic policy and policy toward multilateralism and foreign policy toward different areas of the world such as the United States East Asia Europe and developing countries The book also examines decision making in Chinese foreign policy discusses issues of current concern including maritime disputes Xi Jinping's more assertive approach to foreign policy the One Belt One Road initiative and the trade war with the United States The book concludes with a comparative analysis of the three phases of China's foreign policy since 1949 and provides a brief assessment of how China's foreign policy is likely to develop going forward

Making Makers Michael P. M. Finch,2024-04-05 Making Makers presents a comprehensive history of a seminal work of scholarship which has exerted a persistent attraction for scholars of war and strategy Makers of Modern Strategy It reveals the processes by which scholars conceived and devised the book considering both successful and failed attempts to make and remake the work across the twentieth century and illuminating its impact and legacy It explains how and why these influential volumes took their particular forms unearths the broader intellectual processes that shaped them and reflects on the academic parameters of the study of war in the twentieth century In presenting a complete genesis of the Makers project in the context of intellectual trends and historical contingency this book reflects on a more complex and nuanced appraisal of the development of scholarship on war In so doing it also offers contributions to the intellectual biographies of key figures in the history of war in the twentieth century such as Edward Mead Earle Peter Paret Gordon Craig and Theodore Ropp Making Makers contributes to an intellectual history of military history and contextualises the place of history and historians in strategic and security studies It is not only a history of the book but a history of the networks of scholars involved in its creation their careers and lines of patronage crossing international boundaries from Europe to the USA to Asia and Australia It is an investigation of ideas individuals and groups of work completed and scholarship produced as well as contingency and opportunities missed
