## **Contemporary Strategy Theories And Policies:**

Contemporary Strategy: Theories and concepts ,1987      Contemporary Strategy John Baylis,Ken Booth,John Garnett,Phil Williams,2021-01-26 This book first published in 1975 is a comprehensive examination of specialised strategic studies and deals with the theoretical and policy aspects of the topic It argues that military power is an intrinsic part of the international system with strategy being the means by which military power may be used to achieve political objectives Hence given the destructiveness of modern weapons it is the prime aim of the strategic doctrines of the major powers not to wage war but to use their military potential to further their interests by less catastrophic means However outside the Cold War superpower confrontation strategy exhibits many of its traditional aspects This book analyses both types of strategy variations      **Contemporary Strategy** ,1980      **Contemporary Strategy** ,1986      Contemporary Strategy ,1976

**Contemporary Strategy** ,1975      *Contemporary Strategy* ,1975      Contemporary Strategy ,1987      *Contemporary Strategic Studies* Ozoemenam Mbachu,Momoh Lawani Yesufu,2007      Defence Policy of Nigeria: Capability and Context Charles Quarker Dokubo,Celestine Oyom Bassey,2011-01-20 This Reader provides a structurally coherent explanation and review of the magnified role conception and organizational task expansion for the Nigerian military establishment in foreign policy It argues essentially that one of the most problematic and intractable areas of public policy in Nigeria since the Civil War concerns the development of a professional defence establishment adequate to meet the challenges arising from the altered parameters of iour security environment The correction of this condition is the primary motivation of the Armed Forces modernization and augmentation program that touches upon all elements of Nigeria s military power This Reader is at once a review and a critique of the major facets of this modernization and augmentation process of the Nigerian armed forces within the operative context of the changing dimension of threat perception and the strategic parameters that have guided Nigerian military planning since the Civil War in 1970      **Pakistan's Nuclear Policy** Zafar Khan,2014-07-17 In May 1998 in reaction to India s nuclear weapons tests Pakistan tested six nuclear weapons Following this the country opted for a policy of minimum deterrence and within a year Pakistan had altered its policy stance by adding the modifier of minimum credible deterrence This book looks at how this seemingly innocuous shift seriously impacted on Pakistan s nuclear policy direction and whether the concept of minimum has lost its significance in the South Asian region s changed changing strategic environment After providing a brief historical background exploring why and how Pakistan carried out the nuclear development program the book questions why Pakistan could not sustain the minimum deterrence that it had conceptualized in the immediate aftermath of the 1998 test It examines the conceptual theoretical framework of the essentials of minimum deterrence in order to question whether Pakistan s nuclear policy remained consistent with this as well as to discover the rudimentary factors that are responsible for the inconsistencies with regard to minimum deterrence conceived in this study The book goes on to look at the policy options that Pakistan had after acquiring the nuclear capability and what the rationale

was for selecting minimum deterrence The book not only highlights Pakistan deterrent force building but also analyzes closely Pakistan s doctrinal posture of first use option Furthermore it examines the policy towards arms control and disarmament and discusses whether these individual policy orientations are consistent with the minimum deterrence Conceptually providing a deeper understanding of Pakistan s post 1998 nuclear policy this book critically examines whether the minimum deterrence conceived could be sustained both at the theoretical and operational levels It will be a useful contribution in the field of Nuclear Policy Security Studies Asian Politics Proliferation Non Proliferation Studies and Peace Studies This book will be of interest to policy makers scholars and students of nuclear policy nuclear proliferation and arms control related research      **Classical Theories of International Relations** Ian Clark,Iver B. Neumann,2016-07-27

Drawing on a tripartite taxonomy first suggested by the so called English School of International Relations of a Hobbesian tradition of power politics a Grotian tradition of concern with the rules that govern relations between states and a Kantian tradition of thinking which transcends the existence of the states system this book discusses the thinking of central political theorists about the modern states system Thinkers covered are Hobbes Grotius Kant Vitoria Rousseau Smith Burke Hegel Gentz and Vattel      *Strategy and Ethnocentrism (Routledge Revivals)* Ken Booth,2014-06-27 Ken Booth s study first published in 1979 investigates the way in which cultural distortions have affected the theory and execution of strategy Its aim is to illustrate the importance of ethnocentrism in all areas of the subject to follow through its implications and to suggest approaches to the different problems it poses Insights are offered into the character of a number of important issues in Cold War international politics including the superpower arms race d tente the Middle Eastern crisis the Soviet arms build up and the SALT talks In light of the cost of modern warfare it is all the more important to avoid strategic failures in the future Strategy and Ethnocentrism aims to alert students of military and strategic studies to some ways of minimising the risks of failure in an age when war is increasingly characterised by racial cultural and religious conflict      **National**

**Security Structures, Policy Formulation, and Strategy** ,1980      Strategy in the Contemporary World John Baylis,James J. Wirtz,Colin S. Western Europe and at the Soviet Union and it analyses the role of the United States in European security The thawing of the Cold War has brought new concerns over the nature of European security to the fore and uncovered major differences in the approaches of individual states to changed circumstances      *British Defence Policy in a Changing World* John

Baylis,2024-11-01 First published in 1977 British Defence Policy in a Changing World provides an analysis of the changes which have taken place in Britain s security policies since the Second World War Domestic political economic and social factors are discussed as well as the range of international circumstances which have influenced policy The approach is essentially a thematic one isolating several key issues and examining them in detail The authors use their skills to study a comprehensive range of affairs relating to Britain s security policy since 1945 The book may be divided into four main sections The first looks at the relationship between foreign policy and defence policy in general and more specifically at the three circles of British policy East of Suez the special relationship and Europe The second section looks at the place of nuclear weapons in defence policy The third section is concerned with defence economics national priorities and the recurring dilemmas of decision making while the final section concentrates on issues of civil military relations and discuss public attitudes towards defence in terms of their political implications This is a must read for scholars and researchers of international politics British politics defence and strategic studies      *The Evolution of International Security Studies* Barry

might we act This book sets out to answer these fundamental philosophical questions in a radical and original theory of security for our times Arguing that the concept of security in world politics has long been imprisoned by conservative thinking Ken Booth explores security as a precious instrumental value which gives individuals and groups the opportunity to pursue the invention of humanity rather than live determined and diminished lives Booth suggests that human society globally is facing a set of converging historical crises He looks to critical social theory and radical international theory to develop a comprehensive framework for understanding the historical challenges facing global business as usual and for planning to reconstruct a more cosmopolitan future Theory of World Security is a challenge both to well established ways of thinking about security and alternative approaches within critical security studies
