Sourcebook of Family Theories and Methods Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R.

Schumm, Suzanne K. Steinmetz, 2008-11-19 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i.e. sources from which these orientations and strategies flow. Thus an appropriate way to preface this book is to talk first of its roots its beginnings. In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself. A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future. There were precedents for such a project. The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F. Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production. Understanding Family Process Carlfrid B.

Broderick, 1993-03-09 Systems theory is the basic theoretical model underlying most contemporary family therapy. In this accessible introduction the author traces how systems theory gave rise to family systems theory outlines the basic propositions of family systems and links it both to other family theory literature and to clinical practice. Among the topics covered are relational space family boundaries family stratification and child socialization. Family meanings and such shared realities as family folklore stories myths and memorabilia are discussed. Family rituals are also explored. **Family and the**

State of Theory David J. Cheal, 1991-01-01 Family studies play an increasingly important role in contemporary sociology.

David Cheal provides an up to date and comprehensive survey of modern sociological theories about family life. While recognizing that these theories are both diverse and fragmented he argues that such divisions are a positive and integral aspect of studying contemporary family theory. Cheal takes a broad comparative approach to the theories analysed using empirical examples from North America Europe and Australia and examining how old and new approaches interact with one another. He argues that it is possible to make sense of a contemporary family theory by analysing its divisions as the result of different experiences of modernity. These experiences lie along three axes: first the opposition between social modernism and its anti-modernist critics; second the ideological effects of contradictions within modernity itself; and third the emerging difference between modernist idealism and post-modernist scepticism. Another major theme of the book is the profound impact of feminism on contemporary family studies and how this has been the catalyst for so much rethinking of the subject in recent years. By comparing a wide range of theories in this way and providing a conceptual framework to explain and

encourage theoretical pluralism David Cheal has produced a major new work for students and researchers of family sociology and social theory worldwide

Handbook of Marriage and the Family Marvin B. Sussman, Suzanne K. Steinmetz, Gary W. Peterson, 2013-06-29 To know where we are going as scholars educators and practitioners in the field of marriage and family life we first need to know where we have been A perusal of early texts on marriage and family life provides some thought provoking insights into the accuracy of the saying what goes around comes around It is interesting to note who has been considered to be in a

position to provide information on marriage and family life Included in the eclectic collection of texts we reviewed were ministers whose focus was on spirituality doctors who emphasized medical aspects of child and adult health and public health professionals and home economists concerned with fighting disease who emphasized cleanliness order fighting germs and eliminating rodents and insects There are also philosophers who drew from ancient texts when discussing family life and a count who assembled a group of German intellectual elites to address various topics An insightful essay of this type is by Marta Karlweis 1926 in which she notes There is no other fetish that society holds to so firmly as the conception woman with all its usual associations of infantilism and dependence The child requires protection is a minor and consequently a serf but above all it possesses no spiritual existence Neither doctorates or other distinctions nor the right to vote have as yet been able to dispel this sweet idea of the childishness of woman which man cherishes p

Handbook of Marriage and the Family Suzanne K. Steinmetz, Marvin B. Sussman, 2013-11-11 The lucid straightforward Preface of this Handbook by the two editors and the comprehensive perspectives offered in the Introduction by one of them leave little for a Foreword to add It is therefore limited to two relevant but not intrinsically related points vis a vis research on marriage and the family in the interval since the first Handbook Christensen 1964 appeared namely the impact on this research of the politicization of the New Right and of the Feminist Enlightenment beginning in the mid sixties about the time of the first Handbook In the late 1930s Willard Waller noted Fifty years or more ago about 1890 most people had the greatest respect for the institution called the family and wished to learn nothing whatever about it Everything that concerned the life of men and women and their children was shrouded from the light Today much of that has been changed Gone is the concealment of the way in which life begins gone the irrational sanctity of the home The aura of sentiment which once protected the family from discussion clings to it no more We want to learn as much about it as we can and to understand

it as thoroughly as possible for there is a rising recognition in America that vast numbers of its families are sick from internal frustrations and from external buffeting We are engaged in the process of reconstructing our family institutions through criticism and discussion 1938 pp 3 4 **The Family** ,1980 **Handbook of Family Violence** Alan S. Bellack,Michel Hersen,R.L. Morrison,Vincent B. Van Hasselt,1987-11-30 In the last decade there has been heightened clinical and investigative activity in the area of family violence This of course is partly attributable to recent surveys showing a high incidence of family violence in the United States For example there are indications that nearly 30% of married women in this country are victims of physical abuse by spouses at some point in their marriage Further FBI statistics show that approximately 13% of all homicides are husband wife killings Moreover it has been projected that such figures are likely to increase over the next several years Consistent with these trends funding of family violence research by both federal and private agencies has increased Indeed federal agencies such as the National Institute of Mental Health and the National Institute of Law Enforcement and Criminal Justice have provided considerable support for work in this area In addition family violence particu larly wifebattering child abuse and sexual abuse of children has been the focus of media attention at the national level and has generated intensive interest in both lay and profes sional publications Moreover there have been several recent governmental hearings and investigations regarding the prevalence of these problems
