In Search of an American Catholicism Jay P. Dolan, 2003 For more than two hundred years American Catholics have struggled to reconcile their national and religious values In this incisive and accessible account distinguished Catholic historian Jay P Dolan explores the way American Catholicism has taken its distinctive shape and follows how Catholics have met the challenges they have faced as New World followers of an Old World religion Dolan argues that the ideals of democracy and American culture in general have deeply shaped Catholicism in the United States as far back as 1789 when the nation s first bishop was elected by the clergy and the pope accepted their choice Dolan looks at the tension

between democratic values and Catholic doctrine from the conservative reaction after the fall of Napoleon to the impact of the Second Vatican Council Furthermore he explores grassroots devotional life the struggle against nativism the impact and collision of different immigrant groups and the disputed issue of gender Today Dolan writes the tensions remain as we see signs of a resurgent traditionalism in the church in response to the liberalizing trend launched by John XXIII and also a resistance to the conservatism of John Paul II In this lucid account the unfinished story of Catholicism in America emerges clearly and compellingly illuminating the inner life of the church and of the nation In this lucid account the unfinished story of Catholicism in America emerges clearly and compellingly illuminating the inner life of the church and of the nation *A People Adrift* Peter Steinfels,2004-09 In this national bestseller the most influential layman in the United States reports that the Roman Catholic Church in America must either profoundly reform or lapse into permanent irrelevance

Locating US Theological Education In a Global Context Hendrik R. Pieterse,2019-06-21 CONTRIBUTORS E Byron Anderson K K Yeo Margaret Eletta Guider OSF Lester Edwin J Ruiz Brent

Waters Namsoon Kang Luis R Rivera and David Esterline Theological education in the United States finds itself in untested circumstances today Rapid social change is creating an increasing multicultural multiracial and multireligious context for leadership formation At the same time international enrollment cross border educational initiatives student and faculty exchanges and more are connecting US theological schools with a global community of Christian teaching and learning How do US theological institutions locate themselves within this global ecology of theological formation so as to be both responsible participants and creative shapers within it That is how do they discern their proper place and role It is questions like these that the contributors to this volume explore Building on the decades long discussion about the globalization of US theological education this book argues that in engaging such questions US theological institutions have much to gain from a sustained conversation with the burgeoning literature on the internationalization of American higher education This research offers theological institutions a trove of insights and cautionary tales as they seek to discern their rightful place and role in educating leaders in and for a global Christian church

CONTRIBUTORS E Byron Anderson K K Yeo Margaret Eletta Guider OSF Lester Edwin J Ruiz Brent Waters Namsoon Kang Luis R Rivera and David Esterline *Saving Wisdom* Brian W. Hughes, 2011-02-07 Is theology possible within a Christian university Beneath the emphasis of contextual philosophical and ecclesial pluralism what is its academic nature Further who can participate in it Recent debates and discussions by theologians that touch upon these questions seem to run in circles theology is an academic specialty enjoying academic freedom theology must bolster ecclesial identity become more catechetical and serve the church theology must contribute to and shape public policy Though such positions recur they overlook latent but interrelated characteristics embedded within the nature and place of theology within the Christian university that affect them all Upon analysis of four major theologians Friedrich Schleiermacher John Henry Newman Avery Cardinal Dulles S J and Edward Farley I argue that there are two major patterns at work First theology is more a sapientia or wisdom than a traditional academic discipline Second all descriptions of theology in the university possess an inclusive or exclusive soteriological character These patterns pervade diverse topics the relationship of theology to the church authority a theologian's ecclesial and academic commitments the preconditions of faith for theological understanding participation in a religious symbol system theology as wisdom and the difference between religion and theology How one implicitly defines Christian salvation regarding the place of theology in the Christian university opens or closes the practice of theology to those who teach and learn it *Cradles of Conscience* James A. Hodges, James H. O'Donnell, John William Oliver, 2003 Because of its history of westward expansion and its diverse population Ohio is home to many independent institutions of higher education This text comprises essays which relate the circumstances of the foundation of 40 such institutions and the history of each since its inception *American Evangelicalism* Darren Dochuk, Thomas S. Kidd, Kurt W. Peterson, 2014-10-15 No living scholar has shaped the study of American religious history more profoundly than George M Marsden His work spans U S intellectual cultural and religious history from the seventeenth

through the twenty first centuries This collection of essays uses the career of George M Marsden and the remarkable breadth of his scholarship to measure current trends in the historical study of American evangelical Protestantism and to encourage fresh scholarly investigation of this faith tradition as it has developed between the eighteenth century and the present Moving through five sections each centered around one of Marsden s major books and the time period it represents the volume explores different methodologies and approaches to the history of evangelicalism and American religion Besides assessing Marsden s illustrious works on their own terms this collection s contributors isolate several key themes as deserving of fresh rigorous and extensive examination Through their close investigation of these particular themes they expand the range of characters and communities issues and ideas and contingencies that can and should be accounted for in our historical texts Marsden s timeless scholarship thus serves as a launchpad for new directions in our rendering of the American religious past

Theology as an Ecclesial Discipline J Augustine Di Noia,2024-07 The practice of theology depends in part on asking the right questions Not any sorts of questions not idle questions nor questions framed entirely by our own experience or the great issues of our times but good theological questions focus the mind of the inquirer on the endlessly intelligible self revelation of God to which the Sacred Scripture bears witness Our own questions and the great questions of our times have a place as long as they are purged of the ideological outlooks that can suppress or obscure the questions that the sacra pagina itself presses upon us Among the essays gathered in Theology as an Ecclesial Discipline the first set directs the reader s attention precisely to questions that trace the distinctive features of the nature of theology itself What are the principles and scope of the field of theology as practiced by believers in an ecclesial context Are historical critical methods of exegesis compatible with a properly theological interpretation of the Scriptures How can theology have a place in the academy as an intellectual discipline if the Magisterium seems to limit the scope of its inquiries The second part considers a range of questions that preoccupy contemporary Protestant and Catholic theologians Can the names Father Son and Holy Spirit be replaced by more inclusive titles in doctrine and liturgy By placing humanity at the center of theological investigation is Christian humanism distinct from secular humanism How can we be guilty of a sin committed by our first ancestors Can the Christian vision of procreative human sexuality survive the cultural onslaught of the sexual revolution The questions in the third part of this book arise from Catholic dialogue with non Christian religions or with other Christian communities or with conceptions of a cosmos in ecological crisis Is there a future for Catholic theology of religions How can people who do not believe in Christ be saved Is the cosmos a safe environment for human beings or alternatively how can the cosmos be protected from human depredation Can the concept of church stretch far enough to encompass Christian communities that see themselves as strictly local and independent bodies

O'Toole,2010-03-30 Shaken by the ongoing clergy sexual abuse scandal and challenged from within by social and theological division American Catholics are at a crossroads O Toole tells the story of this ancient church from the perspective of ordinary people the lay believers who have kept their faith despite persecution from without and clergy abuse from within
