Protesting America Katharine H. S. Moon, 2013 When the U S Korea military alliance began to deteriorate in the 2000s many commentators blamed anti Americanism and nationalism especially among younger South Koreans Challenging these assumptions this book argues that Korean activism around U S relations owes more to transformations in domestic politics including the decentralization of government the diversification and politics of civil society organizations and the transnationalization of social movements **Ethnic Nationalism in Korea** Gi-Wook Shin, 2006 This book explains the roots politics and legacy of Korean ethnic nationalism which is based on the sense of a shared bloodline and ancestry Belief in a racially distinct and ethnically homogeneous nation is widely shared on both sides of the Korean peninsula although some scholars believe it is a myth with little historical basis Finding both positions problematic and treating identity formation as a social and historical construct that has crucial behavioral consequences this book examines how such a blood based notion

has become a dominant source of Korean identity overriding other forms of identity in the modern era It also looks at how the politics of national identity have played out in various contexts in Korea semicolonialism civil war authoritarian politics democratization territorial division and globalization

Democratization and Social Movements in South Korea

Sun-Chul Kim, 2016-01-29 South Korea provides an intellectual challenge in the fields of social movements and democracy in that intense mobilization and the strong influence of social movements have accompanied steady democratization for more than two decades despite major theories having predicted otherwise This book examines how social movements in previously authoritarian contexts evolve after democratic transition using South Korea as a case study It explores how democratic change influences the form of social movements and how social movements affect the pace and direction of democracy in turn It explains how South Korean social movements were able to attain strong political influence by focusing on four causal factors the configuration of major political actors during the transition period the relational dynamics among social movement groups the relationship between social movements and institutionalized political actors and the impact of transnational forces in the post transition period Unlike previous scholarship the book takes a historical actor centered and process oriented approach that closely follows the interactions among contending actors through event sequences rather than being driven by abstract theoretical frameworks In doing so it analyses uses a broad range of evidence including police records untapped activist documents presidential memoirs newspaper accounts and original data sets Shedding light on the complex political reality that gave rise to a contentious civil society in South Korea after democratization this book also illuminates the institutional conditions that can help promote domestic peace and stability Therefore it will be of great use to students and scholars of Korean Studies Korean politics and social movements as well as policy makers
