Contentious Europeans Protests And Politics In An Integrating Europe:

Contentious Europeans Douglas R. Imig, Sidney G. Tarrow, 2001 Is the process of European integration shifting the targets of social movements from the national arena to the European Union level Does the EU remain isolated from the reach of national democratic politics Or are social movements responding to the transnational issues posed by the European Union but continuing to do so by treading the traditional pathways of nation specific contentious politics Addressing these key but hitherto unexplored questions this groundbreaking volume explores how European citizens are responding to the growing policymaking power of the EU The contributors argue that the emergence of a supranational realm of European government offers new opportunities and constraints for domestic social actors In this new transnational realm groups such as environmentalists students and trade unionists can not only undertake traditional domestic forms of contentious action but also link together across national borders At the same time the volume cautions against rushing to herald a new era of transnational mobilization as significant barriers remain to launching contentious action in the transnational realm national governments continue to play a primary role in policymaking before the EU and tried and true routines of collective action and institutions attach citizens to their national political systems At the heart of the book is a newly developed theoretical framework which is rigorously tested against the evidence offered by the editors longitudinal and cross national database on contentious political action as well as by a series of sector specific case studies The combination of theory and original research will make this an important reference for scholars as well as a valuable supplement in courses on comparative politics Western Europe and social movements

European Integration and Political Conflict Gary Marks, Marco R. Steenbergen, 2004-02-12 Over the past half century Europe has experienced the most radical reallocation of authority that has ever taken place in peace time yet the ideological conflicts that will emerge from this are only now becoming apparent The editors of this 2004 volume Gary Marks and Marco Steenbergen have brought together a formidable group of scholars of European and comparative politics to investigate patterns of conflict that are arising in the European Union Using diverse sources of data and examining a range of actors including citizens political parties members of the European Parliament social movements and interest groups the authors of this volume conclude that political contestation concerning European integration is indeed rooted in the basic conflicts that have shaped political life in Western Europe for many years This comprehensive volume provides an analysis of political conflict in the European Union

Europeanised Politics? Klaus H. Goetz, Simon Hix, 2012-12-06 This comparative examination of the impact of European integration on the politics and government of EU member states covers the parties the legal system voters and public administration

Economic and Political Change in Asia and Europe Bernadette Andreosso-O'Callaghan, Frédéric Royall, 2012-08-10 Since the 1973 publication of Alain Peyrefitte's prophetic When China Awakens developments in East Asia have outstripped even the wildest predictions China has undergone the fastest industrialization and urbanization process in history yet tensions there are rising

as some realize how far they have been left behind This volume explores the applicability of European economic and social models to our analysis of East Asia's and in particular China's situation Though millions of Chinese and other Asian people have been lifted out of poverty inequality is rising nonetheless and contemporary Europe and Asia are both witnessing collective action against rampant economic neoliberalism in the former and the exclusion of minorities in the latter It is difficult to overstate the relevance of this assessment which seeks answers to some central questions Can events in Europe serve as a model for those in East Asia Are there similarities or differences between the two regions To what extent do political economic or social systems stimulate or inhibit collective action How culturally equivalent are the collective actions of marginalized disadvantaged people in the two locations or are events in Europe symptomatic of specific cultural attributes Comparing and contrasting the research tools and dominant paradigms in the social and economic sciences in East Asia and Europe as this volume does throws out some revealing results The Dark Side of European Integration Alina

Polyakova, 2015-08-01 Across Europe radical right wing parties are winning increasing electoral support The Dark Side of European Integration argues that this rising nationalism and the mobilization of the radical right are the consequences of European economic integration The European economic project has produced a cultural backlash in the form of nationalist radical right ideologies This assessment relies on a detailed analysis of the electoral rise of radical right parties in Western and Eastern Europe Contrary to popular belief economic performance and immigration rates are not the only factors that determine the far right's success There are other political and social factors that explain why in post socialist Eastern European countries such parties had historically been weaker than their potential which they have now started to fulfill increasingly Using in depth interviews with radical right activists in Ukraine Alina Polyakova also explores how radical right mobilization works on the ground through social networks allowing new insights into how social movements and political parties interact *Economic and Political Contention in Comparative Perspective* Maria Kousis, Charles Tilly, 2015-12-03

European and American specialists in economic and political processes move beyond earlier debates to look seriously systematically and innovatively at social change and protest with particular attention to the influence of economic change and variation on contentious politics The essays take up two widely recognized but much contested questions in contentious politics how threats and opportunities faced by potential participants in joint political action affect the likelihood character and consequences of that action and how economic change and variation either constitute significant political threats and opportunities or shape responses to political threats and opportunities Contributors Maria Kousis Charles Tilly Marc Giugni Julie Berclaz Marc Steinberg Jeffery Broadbent Klaus Eder John K Glenn Dieter Rucht Richard Hogan Maryjane Osa Cristina Corduneanu Husi **Democratising the EU from Below?** Ulrike Liebert, Alexander Gattig, 2016-05-23 For the European Union of the 21st century the search for sustainable prosperity and stability includes the challenge of reconciling democratic ideals and practices with the construction of a European constitutional order From the 2001 Laeken Summit to the 2009

Lisbon Treaty and beyond EU leaders have repeatedly set out to bring citizens closer to EU governance by making it more democratic and effective yet several national ratification referendums have shown that publics are divided about whether and why to endorse or veto complex EU reform packages imposed from the top down Despite these limitations people do effectively engage in the making of a European polity By initiating national court proceedings active citizens are promoting fundamental European rights in Member States practices As party members they contribute to shaping mass media communication about and national publics understanding of European political alternatives As civil society activists citizens help build social networks for contesting certain EU reforms or advocating others Last but not least as voters in national and European elections they choose between competing party visions and national parliamentary stances regarding the role of democratic citizenship This original contribution to the debate about democratic citizenship vis vis the challenges of economic globalization and European political integration presents critical explorations of different fields of direct representative participatory and deliberative democratic citizenship practices that affect the transformation of Europe

The European Commission and the Integration of Europe Liesbet Hooghe, 2001 What kind of European Union do top Commission officials want Should the European Union be supranational or intergovernmental Should it promote market liberalism or regulated capitalism Should the Commission be Europe's government or its civil service This 2002 book examines top officials preferences on these questions through analysis of unique data from 137 interviews Understanding the forces that shape human preferences is the subject of intense debate Hooghe demonstrates that the Commission has difficulty shaping its employees preferences in the fluid multi institutional context of the European Union Top officials preferences are better explained by experiences outside rather than inside the Commission political party country and prior work leave deeper imprints than directorate general or cabinet Preferences are also influenced more by internalized values than by self interested career calculation Hooghe's findings are surprising and will challenge a number of common assumptions about the workings and motives of the European Commission

A Responsive Technocracy? Christian Rauh, 2016-10-21 This book challenges the common image of the European Commission as an insulated technocracy immune to political pressures Based on an innovative combination of public opinion protest and media data it first demonstrates that European integration has become increasingly politicised since the 1990s Against this background the Commission is now much more concerned about the public appeal of its policies That however challenges and contradicts the well worn patterns of supranational regulation in Europe Rauh systematically compares 17 legislative drafting processes in consumer policy between 1999 and 2009 Based on first hand insider accounts of involved officials his analysis indicates that the Commission's policy choices indeed become more consumer friendly under higher levels of public awareness While this improves the democratic quality of European decision making the book also reveals an enhanced conflict potential within the Commission and beyond which threatens to undermine the efficiency of legislative decision making in the EU

The Politicization of

Europe Paul Statham, Hans-Jörg Trenz, 2012 This book examines how mass media debates have contributed to the politicization of the European Union The public controversies over the EU's attempted Constitution making and its failure sowed the seeds for a process of politicization that has advanced ever since an increasing visibility for the EU in mass mediated public debates that is combined with a growing public contestation over Europe within national politics The book presents an original systematic study of the emerging field of political discourse carried by the mass media in France Germany and Britain to examine the performance of Europe's public sphere Whilst the EU's increasing politicization can be seen as beneficial to European democracy potentially normalizing the EU level within national politics the same developments can also be a threat to democracy leading to populist and xenophobic responses and a decline in political trust Such discussions are key to understanding the EU's legitimacy and how its democratic politics can work in an era of mediated politics The Politicization of Europe will be of interest to students and scholars of comparative politics media studies communication sociology and European studies

Gendering European Integration Theory Gabriele Abels, Heather MacRae, 2016-05-23 The authors engage a dialogue between European integration theories and gender studies The contributions illustrate where and how gender scholarship has made creative use of integration theories and thus contributes to a vivid theoretical debate The chapters are designed to make gender scholarship more visible to integration theory and in this way stimulates the broader theoretical debates Investigating the whole range of integration theory with a gender lens the authors illustrate if and how gender scholarship has made or can make creative use of integration theories

The Making of a European Public Sphere Ruud Koopmans, Paul Statham, 2010-07-29 This book investigates an important source of the European Union's recent legitimacy problems It shows how European integration is debated in mass media and how this affects democratic inclusiveness Advancing integration implies a shift in power between governments parliaments and civil society Behind debates over Europe's democratic deficit is a deeper concern whether democratic politics can perform effectively under conditions of Europeanization and globalization This study is based on a wealth of unique data from seven European countries combining newspaper content analyses an innovative study of Internet communication structures and hundreds of interviews with leading political and media representatives across Europe It is by far the most far reaching and empirically grounded study on the Europeanization of media discourse and political contention to date and a must read for anyone interested in how European integration changes democratic politics and why European integration has become increasingly contested

Multi-Level Governance and European Integration Liesbet Hooghe, Gary Marks, 2002-05-30 European politics has been reshaped in recent decades by a dual process of centralization and decentralization At the same time that authority in many policy areas has shifted to the supranational level of the European Union so national governments have given subnational regions within countries more say over the lives of their citizens At the forefront of scholars who characterize this dual process as Multi level governance O Liesbet Hooghe and Gary Marks argue that its emergence in the

second half of the twentieth century is a watershed in the political development of Europe Hooghe and Marks explain why multi level governance has taken place and how it shapes conflict in national and European political arenas Drawing on a rich body of original research the book is at the same time written in a clear and accessible style for undergraduates and non experts

European Union Politics Michelle Cini, Nieves Pérez-Solórzano Borragán, 2016 Presentation of the Editor European Union Politics is the most complete current issues led textbook on the European Union Written by an expert team of contributors it fully equips students to understand the European Union and the topical debates and issues which surround it Alongside comprehensive coverage of the history theory institutions and policies of the EU the book features a whole section on contemporary issues and current debates including democracy and legitimacy in the EU public opinion the economic crisis and a brand new chapter on the future of the EU which is written by a leading expert in the subject The accessible and wide ranging nature of this text makes it the ideal starting point for all those wishing to fully understand the workings of this ever evolving subject Helpful learning features throughout the text including key points questions and examples support students learning and the book is fully supported by an extensive Online Resource Centre designed to help students take their learning further

EU Citizens in the European Public Sphere Stefanie Walter, 2016-07-20 Stefanie Walter examines the visibility of European Union citizens in the mass mediated European public sphere and argues that it can help facilitate an exchange between decision makers and ordinary citizens The results show that in comparison to other actor groups such as political parties or civil society organisations the visibility of European Union citizens is not marginal Yet the image of the European Union citizenry that becomes visible via the news media remains nationally entrenched and references to a truly European citizenry are rare The study also uses multilevel regressions to explain the visibility of European Union citizens in the news coverage The empirical analyses are based on a large scale content analysis of TV news and newspaper articles of the 2009 European Parliament election p

Gender Politics in the Expanding European Union Silke Roth, 2008 In May 2004 after bringing their legislation into accordance with EU regulations ten more countries joined the European Union The contributors to this volume assess the impact of this historical development on gender relations in the new and old EU member states Instead of focusing on either western or eastern Europe this book investigates the similarities and differences in diverse parts of Europe Although initially limited gender equality was part of the original framework of the European Union an organization often more open than national governments to feminist demands as this volume illustrates with case studies from eastern and western Europe The enlargement process thus provides some important policy instruments for increasing equality between men and women

Immigration and Politics in the New Europe Gallya Lahav, 2004-04-22 With almost a quarter of the world's migrants Europe has been attempting to regulate migration and harmonize immigration policy at the European level The central dilemma exposed is how liberal democracies can reconcile the need to control the movement of people with the desire to promote open borders free markets and liberal

standards Gallya Lahav's book traces ten years of public opinion and elite attitudes toward immigration cross nationally to show how and why increasing EU integration may not necessarily lead to more open immigration outcomes Empirical evidence reveals that support from both elite and public opinion has led to the adoption of restrictive immigration policies despite the requirements of open borders Unique in bringing together original data on European legislators and national elites longitudinal data on public opinion and institutional and policy analyses this 2004 study provides an important insight into the processes of European integration and globalization more broadly Framing TTIP in the European Public Spheres Alvaro Oleart, 2020-11-24 This book explores the debate and politicisation of the Transatlantic Trade and Investment Partnership TTIP negotiations in the Spanish French and British public spheres It addresses the questions of how and to what extent the national media discourses about TTIP were Europeanised and how this type of Europeanisation contributes to the democratic legitimacy of the EU The author argues that the politicisation of TTIP should be seen as a symptom of the normal politics of a democratic polity as it enlarges the political arena by embedding European issues into national political debates Demands for Another Europe is Possible empower rather than hinder the legitimacy of the EU *The Political History of European Integration* Hagen Schulz-Forberg, Bo Stråth, 2014-06-03 The Maastricht Treaty in 1992 was based on neoliberal ideas of a market driven European economy and democracy and continues to be seen as a step towards a new stage of unification towards a more federal Europe based on market integration The authors demonstrate that European integration as a federal project actually came to an end around 1970 The European Economic Community EEC the precursor of EU was never thought of as a democracy The authors locate a shift in thinking about legitimacy and further integration in the 1980s when the idea of a European democracy was connected with a plan for the internal market the market would pave the way for democracy Since then there has been a growing tension between the official line about a democratic EU and the institutional capacity to carry it through This tension undermined integration The book suggests that instead of democracy through market there are signs of increasing social disintegration political extremism and populism in the wake of economic integration Providing a more realistic historical understanding of European integration this book will be of interest to students and scholars of political science history and European studies *Transnational European Union* Wolfram Kaiser, Peter Starie, 2005-11-16 At the beginning of the twenty first century the European Union is an increasingly dense transnational social and political space More and more non governmental organisations develop transnational links which are usually more intensive within the EU even if they often extend beyond its borders to the wider world This multi disciplinary volume explores the importance of these structures actors and relations for EU and European governance in the context of the theoretical debate about European integration in the social sciences This book delivers theoretical chapters examining and discussing the main conceptual perspectives to studying the transnational EU to provide a current overview empirical case studies of transnationalism in practice on transnational party trade union and police cooperation to transnational

education policy making and transnational consensus building in EMU governance This volume will be of great interest to students in social sciences contemporary history and law
