## **Contested Lives The Abortion Debate In An American Community:**

Contested Lives Faye D. Ginsburg, 1998-09 Based on the struggle over a Fargo North Dakota abortion clinic *Contested Lives* explores one of the central social conflicts of our time Both wide ranging and rich in detail it speaks not simply to the abortion issue but also to the critical role of women s political activism A new introduction addresses the events of the last decade which saw the emergence of Operation Rescue and a shift toward more violent even deadly forms of anti abortion protest Responses to this trend included government legislation a decline in clinics and doctors offering abortion services and also the formation of Common Ground an alliance bringing together activists from both sides to address shared concerns Ginsburg shows that what may have seemed an ephemeral artifact of Midwestern feminism of the 1980s actually foreshadowed unprecedented possibilities for reconciliation in one of the most entrenched conflicts of our times Debates Around Abortion in the Global North Fabienne Portier-Le Cocq, 2022-12-09 By means of a historical legal and scientific approach this book identifies the issues progress and setbacks in the right for women to access abortion in various countries of the Global North The book provides insights on the past present and potential actions and struggles in the future about continuing to have the right to procure an abortion Rites and rituals in order to better understand the practices of Asian countries such as China Japan and Taiwan permeate discussions and debates The volume presents the repercussions of the Covid 19 pandemic on access to abortion healthcare services and abortion and the innovative initiatives and schemes designed and implemented The latter encourages health professionals and decision makers to reflect on the good practices and retain and develop over the long term This edited collection is intended for academics and students across the social sciences and healthcare sector members of the legal profession healthcare professionals activists policy makers and any stakeholders working for and caring about women s reproductive rights and abortion rights *Pro-Life Activists in America* Carol J. C. Maxwell, 2002-08-12 Maxwell offers an oral history of pro life direct activism in America from the late 1970s to the early 1990s Through the stories of leaders and followers men and women Catholics and evangelicals Carol Maxwell explores the complex beliefs and desires that gave rise to this activism sustained and eventually undid it Maxwell s interdisciplinary approach weaves theory from sociology political science anthropology and moral philosophy She pays special attention to several key issues the role of the participants diverse concepts of salvation concerns about social change their unresolved grief their personal experiences of abortion and differences in men s and women s commitment to protest The book offers a unique window into the minds of individual protestors as they shifted from conventional activism to direct action and gives an important account of the direct action movement as its initial commitment to Gandhian non violence was broken by the lethal acts that accompanied its end **The Audience in Everyday Life** S. Elizabeth Bird, 2013-08-21 *The Audience in Everyday Life* argues that a media audience cannot be studied in front of the television alone their interaction with media does not simply end when the set is turned off Instead we must study the daily lives of audiences to find the undercurrents of media

influence in everyday life Bird provides a host of useful tools and methods for scholars and students interested in the ways media is consumed in everyday life *The Social History of Crime and Punishment in America* Wilbur R. Miller, 2012-07-20 Several encyclopedias overview the contemporary system of criminal justice in America but full understanding of current social problems and contemporary strategies to deal with them can come only with clear appreciation of the historical underpinnings of those problems Thus this five volume work surveys the history and philosophy of crime punishment and criminal justice institutions in America from colonial times to the present It covers the whole of the criminal justice system from crimes law enforcement and policing to courts corrections and human services Among other things this encyclopedia explicates philosophical foundations underpinning our system of justice charts changing patterns in criminal activity and subsequent effects on legal responses identifies major periods in the development of our system of criminal justice and explores in the first four volumes supplemented by a fifth volume containing annotated primary documents evolving debates and conflicts on how best to address issues of crime and punishment Its signed entries in the first four volumes supplemented by a fifth volume containing annotated primary documents provide the historical context for students to better understand contemporary criminological debates and the contemporary shape of the U S system of law and justice *The Moral Property of Women* Linda Gordon, 2002-09-15 Now in paperback *The Moral Property of Women* is a thoroughly updated and revised version of the award winning historian Linda Gordon s classic study *Woman s Body Woman s Right* 1976 It is the only book to cover the entire history of the intense controversies about reproductive rights that have raged in the United States for more than 150 years Arguing that reproduction control has always been central to women s status Gordon shows how opposition to it has long been part of the entrenched opposition to gender equality [Acts of Hope](#) James Boyd White, 1994 To which institutions or social practices should we grant authority When should we instead assert our own sense of what is right or good or necessary In this book James Boyd White shows how texts by some of our most important thinkers and writers including Plato Shakespeare Dickinson Mandela and Lincoln answer these questions not in the abstract but in the way they wrestle with the claims of the world and self in particular historical and cultural contexts As they define afresh the institutions or practices for which they claim or resist authority they create authorities of their own in the very modes of thought and expression they employ They imagine their world anew and transform the languages that give it meaning In so doing White maintains these works teach us about how to read and judge claims of authority made by others upon us how to decide to which institutions and practices we should grant authority and how to create authorities of our own through our thoughts and arguments Elegant and accessible this book will appeal to anyone wanting to better understand one of the primary processes of our social and political lives **With God on Our Side** Anna Peterson, 2024-09-23 Religion plays a central role in a variety of social movements including many that are not explicitly faith based This book provides the first systematic analysis of the ways religion contributes to diverse movements for social change It draws on a variety of case

studies from the US and globally to build an argument about religion's distinctive capacity to provide logistical support to inspire and legitimize activist practices to connect different spatial scales and to link big ideas to everyday experiences. The book's analysis rests on three foundational arguments. First and most fundamentally, it is impossible to understand movements for social change without analyzing the multiple ways that religion shapes their ideas, communities, and practices. Second, religion is always in mutually transformative interaction with social and political forces and can never be entirely separated from them. In social movements and in the public sphere, more generally, people interpret politics with values and concepts drawn from religion and understand their activism as spiritually meaningful. This challenges the assumption that religion is a largely a private matter. Third, scholars must treat religion as a relatively independent variable which actively shapes social processes just as it is shaped by them. We cannot make sense of religion's role in social movements without acknowledging that religious institutions and traditions have to some extent a life of their own.

### **Liberty and Sexuality**

David J. Garrow, 2015-07-07 Pulitzer Prize winning author David J. Garrow's stirring and essential history of the politics of abortion and America's battle for the right to choose. In 1973 the Supreme Court handed down its landmark *Roe v. Wade* decision legalizing abortion, and more than forty years later the issue continues to spark controversy and divisiveness. But behind this historic legal case lie the battles women fought to establish their rights to use contraceptives and choose to have an abortion. *Liberty and Sexuality* traces these political and legal struggles in the decades leading up to *Roe v. Wade*, including the momentous 1965 Supreme Court ruling in *Griswold v. Connecticut* that established a constitutional right to privacy. Garrow personalizes the struggles by detailing the vital contributions made by dozens of crusaders who tirelessly paved the way. This expansive and substantial work also addresses the threats to sexual privacy and the legality of abortion that have risen since *Roe v. Wade*. With abortion still a contentious subject on the national political landscape, *Liberty and Sexuality* is not just a historical account of the right to choose but an indispensable read about preserving a freedom that continues to divide America.

### **Reproductive Disruptions**

Marcia C. Inhorn, 2007-10-01 Nominated for the 2007 Book Prize by the Council on Anthropology and Reproduction. AAA. Reproductive disruptions such as infertility, pregnancy loss, adoption, and childhood disability are among the most distressing experiences in people's lives. Based on research by leading medical anthropologists from around the world, this book examines such issues as local practices detrimental to safe pregnancy and birth, conflicting reproductive goals between women and men, miscommunications between pregnant women and their genetic counselors, cultural anxieties over gamete donation and adoption, the contested meanings of abortion, cultural critiques of hormone replacement therapy, and the globalization of new pharmaceutical and assisted reproductive technologies. This breadth, with its explicit move from the local to the global, from the realm of everyday reproductive practice to international programs and policies, illuminates most effectively the workings of power, the tensions between women's and men's reproductive agency, and various cultural and structural inequalities in reproductive health.

**Justice and Power in Sociolegal Studies** Bryant G. Garth, Austin Sarat, 1998 Justice and Power in the Sociolegal Studies asks what interdisciplinary work in the law and society tradition tells us about the relationship of law and justice as well as the way power operates in and through law The fundamental concepts of justice and power provide points of departure for leading scholars to explore the various domains of socio legal research As they note the explicitness of the engagement with issues of power and the relative silence about or indirectness in taking on questions of justice found in most law and society research they ask how engagement with issues of power and silence about justice constituted law and society as a research field caught between a desire to have political impact and at the same time to maintain its scientific respectability

**Religious, Feminist, Activist** Laurel Zwissler, 2018-04-01 In Religious Feminist Activist Laurel Zwissler investigates the political and religious identities of women who understand their social justice activism as religiously motivated Placing these women in historical context as faith based activists for social change this book discusses what their activities reveal about the public significance of religion in the pluralistic context of North America and in our increasingly globalized world Zwissler s ethnographic interviews with feminist Catholics Pagans and United Church Protestants reveal radically different views of religious and political expression and illuminate how individual women and their communities negotiate issues of personal identity spirituality and political responsibility Political activists of faith recount adventurous tales of run ins with police agonizing moments of fear and powerlessness in the face of global inequality touching moments of community support and successful projects that improve the lives of others Religious Feminist Activist combines religion politics and globalization subjects frequently discussed in macro terms with individual personalities and intimate stories to provide a fresh perspective on what it means to be religiously and politically engaged Zwissler also provides an insightful investigation into how religion and politics intersect
