## **Contested Metropolis Seven Cities At The Beginning Of The 21st Century:**

*Sex and the Revitalized City* Leslie Kern, 2011-01-01 When a recent wave of condominium development overtook Toronto women emerged as powerful consumers and reports claimed that home ownership was offering young single women freedom financial independence and personal security *Sex and the Revitalized City* examines the truth of these claims by exploring the phenomenon from the perspective of women condo owners and planners and developers This fresh perspective on urban revitalization reveals that condo ownership is not freeing women from constraints neoliberal ideologies are remaking women s relationship with the city in the image of fast capital and consumer citizenship Women s emancipation through condominium ownership is a marketing ploy rather than a major shift in gender relations **The State of the World's**

**Cities 2004/2005** ,2004 As towns and cities expand at unprecedented rates sustainable urban development is one of the most pressing challenges facing the international community in the 21st century This publication examines the realities faced by urban populations around the world focusing on the impact of globalisation and the way cities are governed and planned on the make up and density of their population and on their cultures and economies Issues considered include the impact of globalisation on urban culture urban renewal and cultural strategies the concept of metropolitanization socio economic and cultural impacts of international migration urban poverty and homelessness social inequality and exclusion urban governance safety and crime trends contemporary planning strategies and the role of civil society progress towards attainment of the Millennium Development Goals targets for sanitation and housing The report highlights the need for a new culture of planning to establish multicultural and inclusive cities involving civil society as well as public authorities **The Berlin**

**Reader** Matthias Bernt, Britta Grell, Andrej Holm, 2014-04-09 By drawing together widely dispersed yet central writings the Berlin Reader is an essential resource for everyone interested in urban development in one of the most interesting and important metropolises in Europe It provides scholars as well as students journalists and visitors with an overview of the most central discussions on the tremendous changes Berlin experienced since the fall of the wall It covers a wide range of issues including inner city renewal housing and the local economy gentrification and other urban conflicts The book breaks ground in two dimensions first by offering also non German speakers an insight into the very controversial debates after reunification and second by highlighting the ambivalent consequences of Berlin s urban transformation in the past decades

*Urban Megaprojects* Gerardo del Cerro Santamaria, 2013-06-06 This book discusses the economic and political conditions that facilitate megaproject implementation and what are the impacts on urbanity and livability of such costly mode of urban development It includes contributions from sociologists planners geographers and architects making it a truly multidisciplinary project **Whose Urban Renaissance?** Libby Porter, Kate Shaw, 2009-01-13 The desire of governments for a renaissance of their cities is a defining feature of contemporary urban policy From Melbourne and Toronto to Johannesburg and Istanbul government policies are successfully attracting investment and middle class populations to their

inner areas Regeneration or gentrification as it can often become produces winners and losers There is a substantial literature on the causes and unequal effects of gentrification and on the global and local conditions driving processes of dis and re investment But there is little examination of the actual strategies used to achieve urban regeneration what were their intents did they succeed and if not why not and what were the specific consequences Whose Urban Renaissance asks who benefits from these urban transformations The book contains beautifully written and accessible stories from researchers and activists in 21 cities across Europe North and South America Asia South Africa the Middle East and Australia each exploring a specific case of urban regeneration Some chapters focus on government or market strategies driving the regeneration process and look closely at the effects Others look at the local contingencies that influence the way these strategies work Still others look at instances of opposition and struggle and at policy interventions that were used in some places to ameliorate the inequities of gentrification Working from these stories the editors develop a comparative analysis of regeneration strategies with nuanced assessments of local constraints and counteracting policy responses The concluding chapters provide a critical comparison of existing strategies and open new directions for more equitable policy approaches in the future Whose Urban Renaissance is targeted at students academics planners policy makers and activists The book is unique in its geographical breadth and its constructive policy emphasis offering a succinct critical and timely exploration of urban regeneration strategies throughout the world

Wachsende Stadt Uwe Altröck, Dirk Schubert, 2013-07-02 Das Buch zeigt anhand von Fallstudien wachsender Metropolen wie vor dem Hintergrund der Globalisierung weltweit mit den demografischen und wirtschaftlichen Rahmenbedingungen umgegangen wird und ob deutsche Großstädte wie Hamburg ebenfalls dauerhafte qualitative und quantitative Wachstumsperspektiven haben

**Transience and Permanence in Urban Development** John Henneberry, 2017-03-21 Temporary urban uses innovative ways to transform cities or new means to old ends The scale and variety of temporary or meanwhile or interim urban uses and spaces has grown rapidly in response to the dramatic increase in vacant and derelict land and buildings particularly in post industrial cities To some this indicates that a paradigm shift in city making is underway To others alternative urbanism is little more than a distraction that temporarily cloaks some of the negative outcomes of conventional urban development However rigorous theoretically informed criticism of temporary uses has been limited The book draws on international experience to address this shortcoming from the perspectives of the law sociology human geography urban studies planning and real estate It considers how time and the way that it is experienced informs alternative perspectives on transience It emphasises the importance for analysis of the structural position of a temporary use in an urban system in spatial temporal and socio cultural terms It illustrates how this position is contingent upon circumstances What may be deemed a helpful and acceptable use to established institutions in one context may be seen as a problematic unacceptable use in another What may be a challenging and fulfilling alternative use to its proponents may lose its allure if it becomes successful in conventional terms

Conceptualisations of temporary uses are therefore mutable and the use of fixed or insufficiently differentiated frames of reference within which to study them should be avoided. It then identifies the major challenges of transforming a temporary use into a long term use. These include the demands of regulatory compliance, financial requirements, levels of expertise and so on. Finally, the potential impacts of policy on temporary uses, both inadvertent and intended, are considered. The first substantive critical review of temporary urban uses, *Transience and Permanence in Urban Development*, is essential reading for academics, policy makers, practitioners and students of cities worldwide. **Urban Revolution Now** Dr Ákos

Moravánszky, Dr Christian Schmid, Dr Lukasz Stanek, 2014-12-28. This volume is the first to develop Lefebvre's concepts in social research and architecture by focusing on urban conjunctures in Barcelona, Belgrade, Berlin, Budapest, Copenhagen, Dhaka, Hong Kong, London, New Orleans, Nowa Huta, Paris, Toronto, São Paulo, Sarajevo, as well as in Mexico and Switzerland. With contributions by historians and theorists of architecture and urbanism, geographers, sociologists, political and cultural scientists, *Urban Revolution Now* reveals the multiplicity of processes of urbanization and the variety of their patterns and actors around the globe. **The Urban Village** Alberto Magnaghi, 2005-10. A practical manifesto for how cities can respond to the pressures of globalization.

*Staging the New Berlin* Claire Colomb, 2013-06-17. This book explores the politics of place marketing and the process of urban reinvention in Berlin between 1989 and 2011. In the context of the dramatic socio-economic restructuring processes, changes in urban governance and physical transformation of the city following the Fall of the Wall, the new Berlin was not only being built physically but staged for visitors and Berliners and marketed to the world through events and image campaigns which featured the iconic architecture of large scale urban redevelopment sites. Public-private partnerships were set up specifically to market the new Berlin to potential investors, tourists, Germans and the Berliners themselves. The book analyzes the images of the city and the narrative of urban change which were produced over two decades. In the 1990s, three key sites were turned into icons of the new Berlin: the new Postdamer Platz, the new government quarter and the redeveloped historical core of the Friedrichstadt. Eventually, the entire inner city was staged through a series of events which turned construction sites into tourist attractions. New sites and spaces gradually became part of the 2000s place marketing imagery and narrative as urban leaders sought to promote the creative city. By combining urban political economy and cultural approaches from the disciplines of urban politics, geography, sociology and planning, the book contributes to a better understanding of the interplay between the symbolic politics of representation through place marketing and the politics of urban development and place making in contemporary urban governance. **Loose Space**

Karen Franck, Quentin Stevens, 2006-10-16. In cities around the world, people use a variety of public spaces to relax, to protest, to buy and sell, to experiment and to celebrate. *Loose Space* explores the many ways that urban residents, with creativity and determination, appropriate public space to meet their own needs and desires. Familiar or unexpected, spontaneous or planned, momentary or long lasting, the activities that make urban space loose continue to give cities life and vitality. The book

examines physical spaces and how people use them Contributors discuss a wide range of recreational commercial and political activities some are conventional others are more experimental Some of the activities occur alongside the intended uses of planned public spaces such as sidewalks and plazas other activities replace former uses as in abandoned warehouses and industrial sites The thirteen case studies international in scope demonstrate the continuing richness of urban public life that is created and sustained by urbanites themselves Presents a fresh way of looking at urban public space focusing on its positive uses and aspects Comprises 13 detailed well illustrated case studies based on sustained observation and research by social scientists architects and urban designers Looks at a range of activities both everyday occurrences and more unusual uses in a variety of public spaces planned leftover and abandoned Explores the spatial and the behavioral considers the wider historical and social context Addresses issues of urban research architecture urban design and planning Takes a broad international perspective with cases from New York London Berlin Amsterdam Rome Guadalajara Athens Tel Aviv Melbourne Bangkok Kandy Buffalo and the North of England

**Creative Networks and the City** Bas van Heur, 2014-04-09 This book offers a fundamental contribution to the literature on the creative industries and the knowledge based economy by focusing on three aspects urban spaces as key sites of capitalist restructuring creative industries policies as state technologies aimed at economic exploitation and the role of networks of aesthetic production in inflecting these tendencies It simultaneously goes beyond these debates by integrating a concern with the cultural and aesthetic dimensions of the creative industries As such the book is relevant to researchers interested in the transdisciplinary project of a cultural political economy of creativity and urban change

Space, Difference, Everyday Life Kanishka Goonewardena, Stefan Kipfer, Richard Milgrom, Christian Schmid, 2008-02-19 This book merges two schools of thought one that is political economic and the other more culturally oriented into a unified Lefebvrian approach to contemporary urban issues and the nature of our spatialized social structures

**Trade Unions and Regions** Christian Lévesque, Peter Fairbrother, Blandine Emilien, María C. González, Lucie Morissette, 2022-08-09 Trade Unions and Regions Better Work Experimentation and Regional Governance is about the place of workers and their unions in the modern world It addresses current challenges for unions working in regions and the experiments that may take place at this level of governance The book addresses pressing questions concerned with the conditions for better work and a humane society The focus is on the capacities of unions to address questions relating to regional governance in both supranational and sub national regions It examines workers and their unions in a variety of contexts multinationals industries workplaces and communities The authors address the experiments that can be initiated by unions governments or employers and the ways in which collective organisations engage to address these matters in regional contexts The analysis takes as a starting point the fracturing and divisions evident in various regions in Australia Canada Mexico Spain the United Kingdom and USA The contributors propose novel analyses with lessons for unions It should be of interest to union activists and leaders political parties governments and those who make decisions in and about regions

Researchers and students of labour markets political mobilisation and employment relations will take the analyses further
