Contexts Of Bakhtin:

The Contexts of Bakhtin David G. Shepherd, 1998 The fourteen essays collected in this volume share a concern with the contexts to which we need to refer in order to understand not only the origins but also the potential of Mikhail Bakhtin's thought

Bakhtin in Contexts Amy Mandelker, 1995-11-22 The Russian critic M M Bakhtin has recently become a major figure in contemporary theory beyond his traditional influence in Slavic literary studies Bakhtin in Contexts explores the revolutionary impact Bakhtin's ideas have carried in contemporary discussion of language art culture and social science in recent years The contributors represent a broad range of disciplines in the humanities and social sciences epitomizing the views of Russian and American specialists in those fields Bakhtin often referred to as the human sciences The diversity of perspective and flexibility of approach make this a unique contribution to Bakhtin studies and to the ongoing dialogue between Western and Russian theorists

Bakhtin and Translation Studies Dr. Amith Kumar P.V., 2016-01-14 This book investigates the process of translation in light of the dialogical principles proposed by the Russian literary theorist and philosopher Mikhail Bakhtin It problematizes interlingual translations by questioning the two extreme tendencies in translation namely complete target orientedness on the one hand and close imitation of the source text on the other In the field of cultural encounters it envisages a Bakhtinian model which is proposed as an alternative to the existing interpretations that discuss the cultural subtleties when two different cultures encounter each other The overall framework of the book is Bakhtinian that is it adopts a dialogic approach and its main focus is the examination of a Western theoretical formulation through examples from Indian literatures and cultural situations Such an extension of Bakhtin's ideas especially to explore examples from Indian literary cultural and translational fields has not yet received sufficient attention The study is not only a unique endeavour in filling up the lacunae but also draws Bakhtin closer to the Indian literary condition

Critical and Creative Research Methodologies in Social Work Lia Bryant, 2016-03-09 Social work research is concerned with complex social issues closely connected to communities of people who are marginalized and oppressed This volume develops critical and creative research methodologies that place questions of social justice at their centre and take innovative approaches to collecting analysing interpreting and presenting research data The first section of the book examines textual data produced from an array of methodologies focused on the spoken and or written word These approaches allow those who are often silenced to speak by providing space and time to capture memory and meanings that may not come to light in a time driven structured research method like an interview or a questionnaire The second section of the book discusses visual methods including an examination of historical artefacts like photographs and objects and participant engagement with art specifically clay sculpture and drawings Both sets of methods examine the concept of time that is how we understand time as in our past memories how we develop relationships and knowledge over time These creative and critical methods provide new insights into ways of undertaking social research in social work which captures the complexity of social experiences problems and

meanings that are more often than not embedded in time and place Bakhtin and his Others Liisa Steinby,Tintti Klapuri,2014-11-01 Bakhtin and his Others aims to develop an understanding of Mikhail Bakhtin s ideas through a contextual approach particularly with a focus on Bakhtin studies from the 1990s onward The volume offers fresh theoretical insights into Bakhtin s ideas on inter subjectivity and temporality including his concepts of chronotope and literary polyphony by reconsidering his ideas in relation to the sources he employs and taking into account later research on similar topics The case studies show how Bakhtin s ideas when seen in light of this approach can be constructively employed in contemporary literary research The Annotated Bakhtin Bibliography Carol Adlam,David G. Shepherd,2000 This is the first in a new series entitled MHRA Bibliographies The Annotated Bakhtin Bibliography draws its material from and is intended as a companion to the on line Analytical Database of Work by and about the Bakhtin Circle maintained by the Bakhtin Centre at the University of Sheffield this is the most extensive electronic collection of bibliographical and analytical data relating to the Russian philosopher and cultural theorist Mikhail Bakhtin and the members of the Bakhtin Circle principally Mariia Iudina Matvei Kagan Pavel Medvedev Lev Pumpianskii Ivan Sollertinskii and Valentin Voloshinov The work of Bakhtin and the Bakhtin Circle has had enormous international impact across a range of disciplines including literary and cultural theory philosophy history anthropology linguistics and psychology The Annotated Bakhtin Bibliography will provide scholars and students of Bakhtin with easy access to detailed information on research undertaken throughout the world in these and other fields The text of The Annotated Bakhtin Bibliography is in two parts The first part comprises extensive bibliographical details of almost three hundred primary works including information about translations and reprints The second consists of almost one thousand entries containing analytical and annotated information about secondary literature dealing with Bakhtin and the Bakhtin Circle in over twenty languages allowing the principal trends in the development of Bakhtin studies to be discerned and traced Consultation of the bibliography is facilitated by comprehensive name title and subject indexes

Bakhtin Between East and West Karine Zbinden,2017-12-02 Mikhail Bakhtin 1895 1975 has had an enormous influence on literary studies and cultural theory Bakhtin between East and West Cross Cultural Transmission looks beyond the concepts of carnival and dialogue and traces for the first time the transformation of the Bakhtin Circle s thought from its introduction to the West in Julia Kristeva s seminal late 1960s theory of intertextuality through Tzvetan Todorov s landmark study and on to contemporary interpretations The notion of sociality in all its problematic complexity provides the red thread guiding us through this historical and thematic examination of Western and Russian Bakhtin studies As a critical evaluation of Bakhtin scholarship across various cultures and a celebration of the vigour of the Circle s legacy this is an invaluable resource for scholars and students with an interest in Bakhtin and critical theory **The Novelness of Bakhtin** Jørgen Bruhn,Jan Lundquist,2001 During the last 30 years the Russian thinker M M Bakhtin has achieved great international recognition for his work with among other subjects literary theory and philosophy of language and inspiration from his

research is to be seen in almost all fields of the human sciences However Bakhtin s authorship focused primarily on one particular phenomenon the novel In this book the world s leading Bakhtin scholars discuss Bakhtin s special understanding of the novel both in relation to the status the novel occupies in the existing theoretical and philosophical debate and in the historical context in which it was created Articles such as Michael Holquist s Why is God s Name a Pun Bakhtin s Theory of the Novel and Theo Philology and Derek Littlewood s Epic and Novel in Magic Realism have been revised and augmented for the publication

Mikhail Bakhtin Gary Saul Morson, Caryl Emerson, 1990 Books about thinkers require a kind of unity that their thought may not possess This cautionary statement is especially applicable to Mikhail Bakhtin whose intellectual development displays a diversity of insights that cannot be easily integrated or accurately described in terms of a single overriding concern Indeed in a career spanning some sixty years he experienced both dramatic and gradual changes in his thinking returned to abandoned insights that he then developed in unexpected ways and worked through new ideas only loosely related to his earlier concerns Small wonder then that Bakhtin should have speculated on the relations among received notions of biography unity innovation and the creative process Unity with respect not only to individuals but also to art culture and the world generally is usually understood as conformity to an underlying structure or an overarching scheme Bakhtin believed that this idea of unity contradicts the possibility of true creativity For if everything conforms to a preexisting pattern then genuine development is reduced to mere discovery to a mere uncovering of something that in a strong sense is already there And yet Bakhtin accepted that some concept of unity was essential Without it the world ceases to make sense and creativity again disappears this time replaced by the purely aleatory There would again be no possibility of anything meaningfully new The grim truth of these two extremes was expressed well by Borges an inescapable labyrinth could consist of an infinite number of turns or of no turns at all Bakhtin attempted to rethink the concept of unity in order to allow for the possibility of genuine creativity The goal in his words was a nonmonologic unity in which real change or surprisingness is an essential component of the creative process As it happens such change was characteristic of Bakhtin s own thought which seems to have developed by continually diverging from his initial intentions Although it would not necessarily follow that the development of Bakhtin s thought corresponded to his ideas about unity and creativity we believe that in this case his ideas on nonmonologic unity are useful in understanding his own thought as well as that of other thinkers whose careers are comparably varied and productive

Restoring the Human Context to Literary and Performance Studies Howard Mancing, Jennifer Marston William, 2022-01-28 Restoring the Human Context to Literary and Performance Studies argues that much of contemporary literary theory is still predicated at least implicitly on outdated linguistic and psychological models such as post structuralism psychoanalysis and behaviorism which significantly contradict current dominant scientific views By contrast this monograph promotes an alternative paradigm for literary studies namely Contextualism and in so doing highlights the similarities and differences among the sometimes conflicting contemporary

cognitive approaches to literature and performance arguing not in favor of one over the other but for Contextualism as their common ground

The Text in Play Robert Baker-White, 1999 Many modern playwrights have dramatized the process of theatrical creation within their plays In doing so they have disregarded the do not disturb sign on the rehearsal room door and have opened the art of theater to a particular kind of scrutiny This

scrutiny is unusual given the long standing tradition of secrecy that surrounds theatrical rehearsal Viewing modern drama generally as a drama that juxtaposes authority and freedom and viewing contemporary criticism as essentially an extended debate on the issue of meaning's closure this study invokes the critical perspectives M M Bakhtin Roland Barthes and Bertolt Brecht to create a general theory of rehearsal practice that differentiates it from the practice of performance Working with notions of textual authority explored in a variety of critical contexts this volume attempts to explore the theoretical ramifications of metatheatrical representations of rehearsal

Nanotechnology and Ethical Governance in the European Union and China Sally Dalton-Brown, 2015-06-03 This book addresses questions surrounding the feasibility of a global approach to ethical governance of science and technology The emergence and rapid spread of nanotechnology offers a test case for how the world might act when confronted with a technology that could transform the global economy and provide solutions to issues such as pollution while potentially creating new environmental and health risks The author compares ethical issues identified by stakeholders in China and the EU about the rapid introduction of this potentially transformative technology a fitting framework for an exploration of global agency The study explores the discourse ethics and participatory Technology Assessment pTA inspired by the work of Jürgen Habermas to argue that different views can be universally recognized and agreed upon perhaps within an ideal global community of communication The book offers a developed discourse model utilizing virtue ethics as well as the work of Taylor Beck Korsgaard and others on identity formation as a way forward in the context of global ethics The author seeks to develop new vocabularies of comparison to discover shared aspects of identity and to achieve hopefully an intercultural personhood that may lead to a global ethics The book offers a useful guide for researchers on methods for advancing societal understanding of science and technology The author addresses a broad audience from philosophers ethicists and scientists to the interested general reader For the layperson one chapter surveys nanoissues as depicted in fiction and another offers a view of how an ordinary citizen can act as a global agent of change in ethics

Becoming Canonical in American Poetry Timothy Morris, 1995

The First Hundred Years of Mikhail Bakhtin Caryl Emerson, 2018-06-05 Among Western critics Mikhail Bakhtin 1895 1975 needs no introduction His name has been invoked in literary and cultural studies across the ideological spectrum from old fashioned humanist to structuralist to postmodernist In this candid assessment of his place in Russian and Western thought Caryl Emerson brings to light what might be unfamiliar to the non Russian reader Bakhtin's foundational ideas forged in the early revolutionary years yet hardly altered in his lifetime With the collapse of the Soviet system a truer sense of Bakhtin's contribution may now be judged in the context of its origins and its contemporary Russian reclamation A foremost Bakhtin authority Caryl Emerson mines extensive Russian sources to explore Bakhtin's reception in Russia from his earliest publication in 1929 until his death and his posthumous rediscovery After a reception history of Bakhtin's published work she examines the role of his ideas in the post Stalinist revival of the Russian literary profession concentrating on the most provocative rethinkings of three major
