Contexts For Ethical Discussion:

Ethical Contexts and Theoretical Issues Santiago Sia, 2009-12-14 Ethics has become a particularly relevant topic for discussion and a subject for serious study. It has a very long tradition of course but nowadays one hears frequently of the need because of abuses or concerns to formulate and adopt ethical codes in various areas or professions. This book aims to make a philosophical contribution to the discussions and debates on the topic. Compared to the traditional approach to the philosophical study of ethics however this book adopts a different strategy. It shows that such ethical thinking in the concrete particulars originates in various academic and professional contexts among others. But inasmuch as theoretical issues require wider and more intensive attention it argues that ethical thinking needs to be pursued further and that it can be aided by philosophical investigations. In its concluding chapters the book presents an alternative foundation for ethical decision making. Philosophically grounded it moves away from an individualistic ethical perspective to a relational one that has been shaped through dialogue with the various contexts in which ethical thinking arises. *Ethics in a Multicultural Context* Sherlon P. Pack-Brown, Carmen Braun Williams, 2003-02-28 Multicultural counselors often face a moral dilemma should they follow the ethical guidelines of their professional counseling organization at the expense of a client or take the appropriate action while bending official standards. *Ethics in a Multicultural Context* provides strategies for critical decision making in multicultural settings. Utilizing extensive case studies authors Sherlon P. Pack Brown and Carmen Braun Williams present a comprehensive exploration of counseling ethics in a cultural context. Examining the implications and consequences of competent multicultural counseling they present ethical dilemmas arising in face to face counseling interactions, supervisory relationships and educational situations. By placing ethical issues in a cultural context this inclusive volume provides readers with the practical tools to address complex questions such as: Are dual relationships ethical? How do you handle unintentional cultural bias? Can you barter for counseling services? How do you manage a client's welfare? Does counseling foster dependence? What are the boundaries of competence? *Ethics in a Multicultural Context* encourages critical thinking rather than passive acceptance. The authors identify culturally troublesome issues, encourage culturally appropriate interpretations of existing ethical guidelines and promote ethical behavior in multicultural contexts. Designed for students and educators in counselor education and counseling psychology programs, this book is also an essential guide for social workers, psychologists and health professionals who work in multicultural environments. Contexts of Nursing John Daly, 2009 *Contexts of Nursing* 3e builds on the strengths of previous editions and continues to provide nursing students with comprehensive coverage of core ideas and perspectives underpinning the practice of nursing. The new edition has been thoroughly revised and updated. New material on Cultural Awareness and Contemporary Approaches in Nursing has been introduced to reflect

the realities of practice Nursing themes are discussed and are supported by illustrated examples and evidence Each chapter focuses on an area of study within the undergraduate nursing program and the new edition continues its dis *Professional Ethics in Context* Eric Mount,1990-01-01 Identifies the root of moral conflicts and discusses institutional cultures metaphors self image and ethical models

Ethics of Medical Innovation, Experimentation, and Enhancement in Military and Humanitarian Contexts Daniel Messelken,David Winkler,2020-03-17 This book discusses ethical questions surrounding research and innovation in military and humanitarian contexts It focuses on human enhancement in the military Recently the availability of medical enhancement designed to make soldiers more capable of surviving during conflict as well as enabling them to defeat their enemies has emerged Innovation and medical research in military and humanitarian contexts may thus yield positive effects but simultaneously leads to a number of highly problematic ethical issues The work contains contributions on medical ethics that take into account the specific roles and obligations of military and humanitarian health care providers and the ethical problems they encounter They cover different aspects of research and innovation such as vaccine development medical enhancement compassionate and experimental drug use research and application of new technologies such as wearables Humanitarian innovation to cope with scarce resources Biometrics big data etc The book is of interest and importance to researchers and policy makers involved with human enhancement medical research and innovation in military and humanitarian missions

A Case Study for Computer Ethics in Context Michael James Heron,Pauline Helen Belford,2024-03-29 Aimed at addressing the difficulties associated with teaching often abstract elements of technical ethics this book is an extended fictional case study into the complexities of technology and social structures in complex organizations Within this case study an accidental discovery reveals that the algorithms of Professor John Blackbriar are not quite what they were purported to be Over the course of 14 newspaper articles a nebula of professional malpractice and ethical compromise is revealed ultimately destroying the career of a prominent successful academic The case study touches on many topics relevant to ethics and professional conduct in computer science and on the social structures within which computer science functions Themes range from the growing influence of generative AI to the difficulties in explaining complex technical processes to a general audience also touching on the environmental consequences of blockchain technology and the disproportionate gender impacts of Coronavirus Each new revelation in the case study unveils further layers of complexity and compromise leading to new technical and social issues that need to be addressed Directly aimed at making ethics in the digital age accessible through the use of real world examples this book appeals to computer science students at all levels of the educational system as well as making an excellent accompaniment to lecturers and course convenors alike

Abortion and Morality Debate in

the African Context George Kegode, 2010 George Kegode in this book has presented a wide range of critical reflections on one of the most controversial moral issues of our times the intentional and deliberate termination of the life of the unborn human being Presented from the point of view of an African scholar George Kegode's work marshals undisputable evidence of the humanity of the unborn right from the moment of conception He argues in favour for the fundamentally inviolable right to life for this unique unrepeatable being With vast light of philosophical reason this book tackles the often asked questions on the subject of abortion from a moral perspective The author's arguments cover social ethical eugenic as well as therapeutic issues Occasionally these have been the basis of moral relativism and subjectivism in the abortion debate contemporarily Kegode's argument represents an attempt to navigate this debate from a wide spectrum of ethical theories while at the same time remaining faithful to moral objectivity

Bioethics in Cultural Contexts

Christoph Rehmann-Sutter, Marcus Düwell, Dietmar Mieth, 2006-03-08 CHRISTOPH REHMANN SUTTER MARCUS D WELL DIETMAR MIETH When we placed finitude limits of human existence as a motto over a round of discussion on biomedicine and bioethics which led to this collection of essays we did not know how far this would lead us into methodological quandaries However we felt intuitively that an interdisciplinary approach including social and cultural sciences would have an advantage over a solely disciplinary philosophical or theological analysis Bioethics if it is to have adequate discriminatory power should include sensitivity to the cultural contexts of biomedicine and also to the cultural contexts of bioethics itself Context awareness of course is not foreign to philosophical or theological bioethics for the simple reason that the issues tackled in the debates as in other fields of ethics could not be adequately understood outside their contexts Moral issues are always accompanied by contexts When we try to unpack them which is necessary to make them accessible to ethical discussion we are regularly confronted with the fact that in removing too much of the context we do not clarify an issue but make it less comprehensible The context at least some essential parts of it is intrinsic to the issue Unpacking in ethics is therefore a different procedure It does not mean peeling the context off but rather identifying which contextual elements are essential for an understanding of the key moral aspects of the issue and explaining how they establish its particular character

Interdisciplinary Assessment of Personal Health Monitoring S. Schmidt, O. Rienhoff, 2013-07-17 Europe is facing a paradox while governments try to curb public spending the demands on our healthcare systems continue to rise The use of smart technologies and innovation can help to address the challenges faced by healthcare systems today such as an ageing population a shortage of healthcare professionals and restrictions on financial resources But despite increasing evidence of the benefits technology can bring the healthcare sector has been slow to embrace the digital revolution and has stuck to more traditional methods and models This book presents selected contributions to the symposium on Personal Health Monitoring PHM and Ethics and future areas of PHM which took place in advance of the 11th World Congress of Bioethics held in Rotterdam the Netherlands in June 2012 Most of the papers present the outcomes of the European PHM Ethics

project which conducted interdisciplinary analyses of emerging PHM applications Additional invited contributions deal with important issues related to the project s primary objectives and outcomes The project is strongly associated with the new e Health Action Plan launched by the European Commission in December 2012 which is designed to bring the benefits of digital solutions into healthcare systems The book covers a broad spectrum ranging from the technical setup of PHM systems to ethical issues raised by PHM applications and will be of interest to all those concerned with improving the provision of healthcare worldwide

Ethical Face Policies Bianca Harrington, AI, 2025-02-21 Ethical Face Policies explores the critical balance between maintaining professional integrity and preserving individual dignity in the workplace arguing that effective ethical policies must consider employees sense of face or self worth The book challenges the notion that strict compliance based systems are sufficient highlighting how policies that disregard the human element can backfire leading to resentment and a reluctance to report misconduct It emphasizes that organizations can foster a culture of integrity and safeguard employee dignity by focusing on restorative justice constructive feedback and confidential reporting mechanisms The book uniquely integrates corporate governance with social psychology offering practical strategies for creating ethical organizations For example it posits that penalizing mistakes without avenues for learning can be counterproductive It progresses from an overview of ethical frameworks to an analysis of the psychological dimensions of face and then presents case studies of successful ethical face policies Grounded in diverse evidence including surveys interviews and comparative analyses the book demonstrates how understanding the interplay between integrity and face can lead to more effective ethics training programs and a more supportive work environment The approach underscores the importance of fostering a culture of trust and respect moving beyond conventional rule based enforcement to promote genuine ethical behavior and corporate social responsibility
