## Contexts Of Metaphor:

**Contexts of Metaphor** Michiel Leezenberg, 2021-10-01 This study presents an approach to metaphor that systematically takes contextual factors into account It analyses how metaphors both depend on and change the context in which they are uttered and specifically how metaphorical interpretation involves the articulation of asserted implied and presupposed material It supplements this semantic analysis with a practice based account of metaphor at the conceptual level which stresses the role of sociocultural factors in concept formation *Metaphor in Use* Fiona MacArthur, José Luis Oncins-Martínez, Manuel Sánchez-García, Ana María Piquer-Píriz, 2012-10-17 Metaphor is a fascinating phenomenon but it is also complex and multi faceted varying in how it is manifested in different modes of expression languages cultures or time scales How then can we reliably identify metaphors in different contexts How does the language or culture of speakers and hearers affect the way metaphors are produced or interpreted Are the methods employed to explore metaphors in one context applicable in others The sixteen chapters that make up this volume offer not only detailed studies of the situated use of metaphor in language gesture and visuals around the world providing important insights into the different factors that produce variation but also careful explication and discussion of the methodological issues that arise when researchers approach metaphor in diverse real world contexts The book constitutes an important contribution to applied metaphor studies and will prove an invaluable resource for the novice and experienced metaphor researcher alike *Where Metaphors Come From* Zoltán Kövecses, 2015-02-12 Kövecses recasts CMT as a contextual theory of metaphor expanding and refining it to account for the ways in which many verbal metaphors are tied to context **Contexts of Metaphor** Michiel Leezenberg, 1995 **Metaphor in Context** Josef Stern, 2000-11-08 Josef Stern addresses the question Given the received conception of the form and goals of semantic theory does metaphorical interpretation in whole or part fall within its scope The many philosophers linguists and cognitive scientists writing on metaphor over the past two decades have generally taken for granted that metaphor lies outside if not in opposition to received conceptions of semantics and grammar Assuming that metaphor cannot be explained by or within semantics they claim that metaphor has little if anything to teach us about semantic theory In this book Josef Stern challenges these assumptions He is concerned primarily with the question Given the received conception of the form and goals of semantic theory does metaphorical interpretation in whole or part fall within its scope Specifically he asks what if anything does a speaker hearer know as part of her semantic competence when she knows the interpretation of a metaphor According to Stern the answer to these questions lies in the systematic context dependence of metaphorical interpretation Drawing on a deep analogy between demonstratives indexicals and metaphors Stern develops a formal theory of metaphorical meaning that underlies a speaker's ability to interpret a metaphor With his semantics he also addresses a variety of philosophical and linguistic issues raised by metaphor These include the interpretive structure of complex extended metaphors the cognitive significance of metaphors and their literal paraphrasability the pictorial character

of metaphors the role of similarity and exemplification in metaphorical interpretation metaphor networks dead metaphors the relation of metaphors to other figures and the dependence of metaphors on literal meanings Unlike most metaphor theorists however who take these problems to be sui generis to metaphor Stern subsumes them under the same rubric as other semantic facts that hold for nonmetaphorical language      **Metaphor in Socio-Political Contexts** Manuela

Gibbs, Jr.,2008-09-22 A comprehensive collection of essays in multidisciplinary metaphor scholarship that has been written in response to the growing interest among scholars and students from a variety of disciplines such as linguistics philosophy anthropology music and psychology These essays explore the significance of metaphor in language thought culture and artistic expression There are five main themes of the book the roots of metaphor metaphor understanding metaphor in language and culture metaphor in reasoning and feeling and metaphor in non verbal expression Contributors come from a variety of academic disciplines including psychology linguistics philosophy cognitive science literature education music and law      **Context as Other Minds** Talmy

Givón,2005-01-01 Givon s new book re casts pragmatics and most conspicuously the pragmatics of sociality and communication in neuro cognitive bio adaptive evolutionary terms The fact that context the core notion of pragmatics is a framing operation undertaken on the fly through judgements of relevance has been well known since Aristotle Kant and Peirce But the context that is relevant to the pragmatics of sociality and communication is a highly specific mental operation the mental modeling of the interlocutor s current rapidly shifting belief and intention states The construed context of social interaction and communication is thus a mental representation of other minds Following a condensed intellectual history of pragmatics the book investigates the adaptive pragmatics of lexical semantic categories the 1st order framing of reality what cognitive psychologists call semantic memory Utilizing the network model the book then takes a fresh look at the adaptive underpinnings of metaphoric meaning The core chapters of the book outline the re interpretation of communicative context as the systematic on line construction of mental models of the interlocutor s current rapidly shifting states of belief and intention This grand theme is elaborated through examples from the grammar of referential coherence verbal modalities and clause chaining In its final chapters the book pushes pragmatics beyond its traditional bounds surveying its interdisciplinary implications for philosophy of science theory of personality personality disorders and the calculus of social interaction

Where Metaphors Come from Zoltán Kövecses,2015 Kövecses recasts CMT as a contextual theory of metaphor expanding and refining it to account for the ways in which many verbal metaphors are tied to context      **Corpus-Based Approaches**

**to Metaphor and Metonymy** Anatol Stefanowitsch, Stefan Th. Gries, 2008-08-22 The papers in this volume deal with the issue of how corpus data relate to the questions that cognitive linguists have typically investigated with respect to conceptual mappings The authors in this volume investigate a wide range of issues the coherence and function of particular metaphorical models the interaction of form and meaning the identification of source domains of metaphorical expressions the relationship between metaphor and discourse the priming of metaphors and the historical development of metaphors The studies deal with a variety of metaphorical and metonymic source and target domains including the source domains SPACE ANIMALS BODY PARTS ORGANIZATIONS and WAR and the target domains VERBAL ACTIVITY ECONOMY EMOTIONS and POLITICS In their studies the authors present a variety of corpus linguistic methods for the investigation of conceptual mappings for example corpora annotated for semantic categories concordances of individual source domain items and patterns and concordances of target domain items In sum the papers in this volume show how a wide range of corpus linguistic methods can be used to investigate a variety of issues in cognitive linguistics the combination of corpus methods with a cognitive linguistic view of metaphor and metonymy yields new answers to old questions and to new questions about the relationship between language as a conceptual phenomenon and language as a textual phenomenon **Lexical**

**Learning, Context Dependence, and Metaphor** Peter Bosch, 1984 **The Metaphorical Brain** Seana Coulson, Vicky T. Lai, 2016-03-09 Metaphor has been an issue of intense research and debate for decades see for example 1 Researchers in various disciplines including linguistics psychology computer science education and philosophy have developed a variety of theories and much progress has been made 2 For one metaphor is no longer considered a rhetorical flourish that is found mainly in literary texts Rather linguists have shown that metaphor is a pervasive phenomenon in everyday language a major force in the development of new word meanings and the source of at least some grammatical function words 3 Indeed one of the most influential theories of metaphor involves the suggestion that the commonality of metaphoric language results because cross domain mappings are a major determinant in the organization of semantic memory as cognitive and neural resources for dealing with concrete domains are recruited for the conceptualization of more abstract ones 4 Researchers in cognitive neuroscience have explored whether particular kinds of brain damage are associated with metaphor production and comprehension deficits and whether similar brain regions are recruited when healthy adults understand the literal and metaphorical meanings of the same words see 5 for a review Whereas early research on this topic focused on the issue of the role of hemispheric asymmetry in the comprehension and production of metaphors 6 in recent years cognitive neuroscientists have argued that metaphor is not a monolithic category and that metaphor processing varies as a function of numerous factors including the novelty or conventionality of a particular metaphoric expression its part of speech and the extent of contextual support for the metaphoric meaning see e g 7 8 9 Moreover recent developments in cognitive neuroscience point to a sensorimotor basis for many concrete concepts and raise the issue of whether these mechanisms are ever recruited to

Routledge Handbook of Language and Metaphor is a must have survey of this key field and is essential reading for those interested in language and metaphor      Metaphor in Focus Francesca Ervas, Elisabetta Gola, 2014-09-18 This book is a philosophical guide on metaphor use Previous research concerning metaphors has focused on either the theoretical linguistic problems or the uses in specific research fields Although these domains share some common interests there has been little cross communication The aim of this volume is to bridge the gap between the theoretical and the empirical side of the research on metaphor use by analysing the role of metaphor over different domains of use Therefore while adopting a theoretical philosophical point of view the volume also presents the interdisciplinary connections between philosophy and other academic areas such as linguistics cognitive science discourse analysis communication studies didactics economics arts and political science      Confronting Metaphor in Use Mara Sophia Zanotto, Lynne Cameron, Marilda do Couto Cavalcanti, 2008 It is timely for researchers to approach metaphor as social and situated as a matter of language and discourse and not just as a matter of thought Over the last twenty five years scholars have come to appreciate in depth the cognitive motivated and embodied nature of metaphor but have tended to background the linguistic form of metaphor and have largely ignored how this connects to its role in the discourses in which our lives are constructed and lived This book brings language and social dimensions into the picture offering snapshots of metaphor use in real language and in real lives across the very different cultures of Europe and Brazil and contributing to the theorizing of metaphor in discourse

**Rhetorical Interaction in 1 Corinthians 8 and 10** Yeo, 2021-09-06 Rhetorical Interaction in 1 Corinthians 8 and 10 is a formal analysis of Paul's rhetorical interaction with the Corinthians over the issues of participation in the cultic meal 1 Cor 10 1 22 and the eating of idol food 1 Cor 8 1 13 10 23 11 1 The thesis is that Paul's theology and rhetoric are predicated on knowledge and love Major portions of the book employ rhetorical sociological archaeological and historical critical approaches to examine the triangular interaction between Paul the Corinthians and the biblical texts paying particular attention to the complex configuration of the Corinthian congregation including the influence of proto Gnosticism as well as the ways Paul responded to the shifting situation and different issues The two chapters on rhetorical hermeneutical theory and criticism are especially creative as the author suggests a Chinese hermeneutic for cross cultural dialogues the issue of ancestor worship being a specific example      **Figurative Language Comprehension** Herbert L. Colston, Albert N.

Katz, 2004-12-13 A scholarly book with a professional reference audience Book will appeal to people who study metaphor symbol discourse and narrative in a variety of disciplines including social and cognitive psychology linguistics and second language acquisition      A Multidimensional and Cross-spherical Study of Cognitive Metaphorology Yi Sun, 2025-09-01 This book aims to illustrate and explain the Cognitive Metaphorology from experiential and cultural perspectives and highlights two prominent features of cognitive metaphor multidimensionality and cross sphere application This book demonstrates that embodied experience is the shared philosophical basis of commonalities underlying the similarities in these metaphors across
