Continent Lost A Civilization Won:

Education for Extinction David Wallace Adams, 1995 The last Indian War was fought against Native American children in the dormitories and classrooms of government boarding schools Only by removing Indian children from their homes for extended periods of time policymakers reasoned could white civilization take root while childhood memories of savagism gradually faded to the point of extinction In the words of one official Kill the Indian and save the man Education for Extinction offers the first comprehensive account of this dispiriting effort Much more than a study of federal Indian policy this book vividly details the day to day experiences of Indian youth living in a total institution designed to reconstruct them both psychologically and culturally The assault on identity came in many forms the shearing off of braids the assignment of new names uniformed drill routines humiliating punishments relentless attacks on native religious beliefs patriotic indoctrinations suppression of tribal languages Victorian gender rituals football contests and industrial training Especially poignant is Adams s description of the ways in which students resisted or accommodated themselves to forced assimilation Many converted to varying degrees but others plotted escapes committed arson and devised ingenious strategies of passive resistance Adams also argues that many of those who seemingly cooperated with the system were more than passive players in this drama that the response of accommodation was not synonymous with cultural surrender This is especially apparent in his analysis of students who returned to the reservation He reveals the various ways in which graduates struggled to make sense of their lives and selectively drew upon their school experience in negotiating personal and tribal survival in a world increasingly dominated by white men The discussion comes full circle when Adams reviews the government s gradual retreat from the assimilationist vision Partly because of persistent student resistance but also partly because of a complex and sometimes contradictory set of progressive humanitarian and racist motivations policymakers did eventually come to view boarding schools less enthusiastically Based upon extensive use of government archives Indian and teacher autobiographies and school newspapers Adams s moving account is essential reading for scholars and general readers alike interested in Western history Native American studies American race relations education history and multiculturalism *A Bibliography on the Agriculture of the American Indians*, 1942 The scope of this bibliography is delineated in the table of contents and is comprehensive insofar as practicable **Final Report to the American Indian Policy Review Commission** United States. Hoxie, 2001-01-01 This is an important book In the latter nineteenth century diverse and influential elements in white America combined forces to settle the Indian question through

assimilation The results were the essentially treaty breaking Dawes Act of 1887 related legislation and dubious court decisions Schoolteachers and missionaries were dispatched to the reservations en masse Eventual citizenship without functional rights was given Native Americans the Indians lost two thirds of reservation land as it had existed before the assimilationist campaign With insight and skill that go well beyond craft Hoxie has admirably defined issues and motives placed economic political social interaction into cogent perspective brought numerous Anglo and Indian individuals and organizations to life and set forth important lessons Choice This significant study of Indian white relations during a complex time in national politics deserves close attention American Indian Quarterly Important and intellectually challenging This volume goes far to fill a large gap in the history of United States Indian policy Journal of American History Frederick E Hoxie is director of the D Arcy McNickle Center for the History of the American Indian at the Newberry Library He coedited with Joan Mark E Jane Gay s With the Nez Percs Alice Fletcher in the Field 1889 92 Nebraska 1981 **Water, Land, and Law in the West** Donald J. Pisani,1996 The series presents an interdisciplinary approach to the use and misuse of resources in the American West This volume comprises essays written between 1982 and 1994 and previously published in journals such as Western Historical Quarterly J of American History and Environmental History Review Pisani one of the nation s leading environmental and Western historians highlights the central role played by land water and timber allocation in the American West and shows how efforts to achieve justice and efficiency were compromised by the region s obsession with achieving rapid economic growth Annotation copyright by Book News Inc Portland OR *Agricultural Economics Literature* United States. Proceedings of the Little Bighorn Legacy Symposium held in Billings Montana August 3-6 1994 *The Department of War, 1781-1795* Harry M. Ward, 2010-11-23 Harry M Ward examines the formative years of the Department of War as a microcosm of the development of a centralized federal government The Department of War was unique among early government agencies as the only office that continued under the same administrator from the time of the Confederation to government under the Constitution After the peace was established with Britain citizens were suspicious of keeping a standing army but administrator Benjamin Lincoln's efficient administration did much to dispel their fears Henry Knox was the second Secretary and he faced the problem of maintaining peace on the frontier as his tiny army twice lost battles with Indians It was only after the Whiskey Rebellion and Shay's Rebellion that the young nation fully comprehended the importance of maintaining a national military *The Frontier Challenge* George LaVerne Anderson, University of Kansas, 1971 First Nations? Second Thoughts Thomas Flanagan, 2000 Dissects the prevailing orthodoxy determining public policy toward Canada's aboriginal peoples an orthodoxy holding that aboriginals belong to nations entitled to specific rights For example Indians and Inuit now have rights to self government immunity from taxation hunting and fishing rights beyond those of other citizens free education housing and medical care Flanagan political science U of Alberta argues that such benefits are actually destructive to the people they are supposed to help and that the only people empowered by such entitlements are a small elite of aboriginal activists politicians administrators middlemen and well connected entrepreneurs
