## **Continuing Challenge Of Aids Clergy Responses To Patients Friends And Families:**

**The Continuing Challenge of AIDS** Robert E. Beckley, Jerome R. Koch, 2002-08-30 As the AIDS crisis spread and gained momentum Protestant Catholic and Jewish clergy in the United States and the United Kingdom became involved in sometimes surprising ways Using quantitative and qualitative data from the early 1990s and from follow up interviews conducted later in the decade the authors show that many clergy became involved in the pastoral care for and counseling of people stigmatized by AIDS including gay and bisexual men despite expressions of antipathy from their denominations Sociological theories concerning clergy roles social movements social space and social capital provide a framework for analyzing the initial findings and the data from subsequent interviews The study concludes that this small but dedicated group of clergy who ministered to the needs of this suffering population were part of a social movement that addressed a community problem despite both obstacles and opposition Using data obtained from structured interviews and responses to questionnaires concerning clergy responses to real and hypothetical situations involving people who are HIV positive or who have AIDS the authors illustrate how clergy and organized religious groups confronted a new and acute fatal illness that was initially associated with stigmatized behavior They demonstrate that many clergy saw their roles as advocates for these individuals and as providers of pastoral and spiritual care in spite of the rhetoric of conservative and fundamentalist clergy who condemned the victims as an example of the wrath of God against gay and bisexual men The study also shows that even those who were less actively engaged in AIDS pastoral care and counseling demonstrated tolerance for those affected by it Follow up interviews indicate finally that as AIDS became more of a chronic illness the social movement to provide religious and spiritual care and counseling began to wane

**The Church and AIDS in Africa** Amy Stephenson Patterson, 2011 This book explores the role of the Christian church broadly and diversely defined as both institutions and communities of believers although the focus of the analysis is on institutional behaviors in the politics of HIV AIDS in Africa The author creates a typology of church AIDS actions no response early narrow response early broad response late narrow response and late broad response and seeks explanations for where churches fall within this typology in terms of institutional resources organizational structures relations with the state and global networks

**Review of Religious Research**, 2005-09

**After the Wrath of God** Anthony M. Petro, 2015-06-01 On a cold February morning in 1987 amidst freezing rain and driving winds a group of protesters stood outside of the Unitarian Universalist Church in Amherst Massachusetts The target of their protest was the minister inside who was handing out condoms to his congregation while delivering a sermon about AIDS dramatizing the need for the church to confront the seemingly ever expanding crisis The minister's words and actions were met with a standing ovation from the overflowing audience but he could not linger to enjoy their applause Having received threats in advance of the service he dashed out of the sanctuary immediately upon finishing his sermon Such was the climate for religious AIDS activism in the 1980s In *After the Wrath of God* Anthony Petro vividly

narrates the religious history of AIDS in America Delving into the culture wars over sex morality and the future of the American nation he demonstrates how religious leaders and AIDS activists have shaped debates over sexual morality and public health from the 1980s to the present day While most attention to religion and AIDS foregrounds the role of the Religious Right Petro takes a much broader view encompassing the range of mainline Protestant evangelical and Catholic groups alongside AIDS activist organizations that shaped public discussions of AIDS prevention and care in the U S Petro analyzes how the AIDS crisis prompted American Christians across denominations and political persuasions to speak publicly about sexuality especially homosexuality and to foster a moral discourse on sex that spoke not only to personal concerns but to anxieties about the health of the nation He reveals how the epidemic increased efforts to advance a moral agenda regarding the health benefits of abstinence and monogamy a legacy glimpsed as much in the traction gained by abstinence education campaigns as in the more recent cultural purchase of gay marriage The first book to detail the history of religion and the AIDS epidemic in the U S *After the Wrath of God* is essential reading for anyone concerned with the intersection of religion and public health *Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur* ,2003

**Forthcoming Books** Rose Arny,2002 **Irm-Soc** Brym,Lie,2004-03 [The British National Bibliography](#) Arthur James Wells,2002 **Current Law Index** ,2003 **Arms Out, Palms Open** Daphne G. Estwick,2012-03-01 In this adaptation of her dissertation Estwick focuses generally on aspects of contemporary American religion and more particularly on the resolution of conflicts surrounding gay inclusion Discussions of clerical experiences reconciling social conflicts with personal faith serve to guide individuals struggling with issues that can be painful and contentious but which can lead ultimately to healing and spiritual growth **Textbook of Pediatric HIV Care** Steven L. Zeichner,Jennifer S. Read,2005-04-28 This comprehensive textbook provides the definitive account of effective care for pediatric HIV patients Drawing on the massive and burgeoning published literature from a wide range of sources this volume summarises a wealth of information concerning the aetiology of the disease and the best clinical care for this vulnerable group It distils the very latest knowledge of virology immunology and pathogenesis and uses this to illuminate and explain management recommendations Recently many new agents for the treatment and prophylaxis of HIV infection and the opportunistic infections that accompany HIV infection have been developed accompanied by many new ways of monitoring HIV infection in children These new therapies and approaches to management are complicated but the long term health of HIV infected children depends on their meticulously correct application This textbook explains helps and guides the clinician through all these complexities to facilitate the best possible care for children with HIV infection **Psychiatric Aspects of HIV/AIDS** Francisco Fernandez,Pedro Ruiz,2006 This comprehensive text focuses on psychiatric issues associated with HIV AIDS and provides clinicians with a basic understanding of epidemiology virology transmission and medical treatments inclusive of occupational exposures Psychosocial spiritual and sociocultural aspects of HIV AIDS are covered describing implications of HIV AIDS

across minority groups The treatment section allows clinicians to organize an effective psychiatric treatment plan for all mental disorders associated with HIV AIDS Issues of adherence prevention and public well being are emphasized throughout The management of medical problems such as delirium dementia and pain management in special HIV AIDS patients with co morbid substance abuse as well as end of life care is also included *Doomed Interventions* Kim Yi Dionne, 2018 This book is for students and scholars studying political economy public policy and global health and all those who are interested in knowing how ordinary Africans think about the response to the AIDS epidemic It studies the divergent priorities of donors and citizens in response to AIDS intervention in Africa **In the Lógos of Love** James Heft, Una M. Cadegan, 2016 So much has changed about Catholic intellectual life in the half century since the end of the Second Vatican Council that it has become difficult to locate the core concepts that make up the tradition In the Lógos of Love is a collection of essays that grew out of a 2013 conference on Catholic intellectual life co sponsored by the University of Dayton and the Institute for Advanced Catholic Studies at the University of Southern California The essays written by scholars of theology history law and media studies of religion trace the history of this intellectual tradition in order to craft new tools for understanding the present day and approaching the future Each essay explores both the promise of Catholic intellectual life and its various contemporary predicaments How does a changed media landscape affect the way Catholicism is depicted and the way its adherents understand and communicate among themselves What resources can the tradition offer for reflection on new understandings of sexuality and gender How can and should US Catholic intellectual life embrace and enhance and introduce students to the new ways in which Catholicism is becoming a more global tradition What is the role of scholars in disciplines beyond theology Of scholars who are not Catholic Of scholars in universities not sponsored by Catholic religious orders or dioceses By providing context for and proposing responses to these questions the scholars invite discussion and reflection from a wide range of readers who have one important thing in common a stake in sustaining a vibrant flourishing intellectual tradition

*The Response of the Catholic Church to the HIV/AIDS Pandemic* Chisomo V. Ekesi, 2007 *Journal of Palliative Care*, 1993 **Women, HIV, and the Church** Arthur J. Ammann, Julie Ponsford Holland, 2012-09-24 As the world watched the biggest global epidemic in history evolve many anticipated that Christians would embrace those who were affected just as Jesus during his time embraced those who were sick and dying Mostly the Christian church stood back and observed Sometimes Christians responded with stigma and discrimination Many who sought refuge in the churches churches where they had served the sick and the poor were turned away as they now sought refuge for themselves and their children Individual authors address the critical issues related to the HIV epidemic women and the Christian church how the HIV epidemic affected so many women and children what the Old and New Testaments teach about our responsibility to the poor the needy the sick the widow and the orphan and how difficult it should be for Christians to ignore these teachings The HIV epidemic continues and millions of women and children bear a disproportionate share of the pain and suffering without a

refuge Although HIV is a specific disease it serves as a paradigm for all Christians to ask what other needs they may be ignoring Bibliographic Index, 2002 **Fortunate Families** Mary Ellen Lopata, 2003 *Fortunate Families* addresses the experience of Catholic parents who love their gay sons and lesbian daughters The book had its genesis in a descriptive survey of over 200 such parents It integrates results from the survey church documents and stories so readers can access what they need most Some readers will search for accurate information about Catholic teaching others may connect with the lived experience of other Catholic parents Still others will find examples of ministerial advocacy and support within the Catholic Church *Fortunate Families* has all this and more Conventional wisdom emphasizes the stories of parents who react to the news that their child is gay in verbally or physically abusive ways These stories are told so often they take on an aura of normalcy But there are other stories of parents who struggle against the pressures of society and church to find and believe in the goodness of their gay child It is critically important for parents to hear the stories of others who walked the same road before them who have come through the experience closer to their gay or lesbian child and who are willing to work to make the church more welcoming Equally important is the opportunity for pastoral ministers to hear the voices of these parents and understand the need for outreach and pastoral care for gay and lesbian Catholics and their families *Fortunate Families* will help prepare pastoral ministers help families come out of their isolation work through their confusion and pain and celebrate how fortunate they actually are
