## **Continuity And Change In German Politics Festschrift For Gordon Smith:**

**Continuity and Change in German Politics** Stephen Padgett, Thomas Poguntke, 2002 Over three decades Gordon Smith has written authoritatively and with style on almost every aspect of German politics In this volume leading UK and German scholars use themes from his work in an examination of the evolution of German policy in the face of socio economic change globalisation European integration and the domestic upheaval of unification

**The Politics of German Defence and Security** Tom Dyson, 2008-03-01 The post Cold War era has witnessed a dramatic transformation in the German political consensus about the legitimacy of the use of force However in comparison with its EU and NATO partners Germany has been reticent to transform its military to meet the challenges of the contemporary security environment Until 2003 territorial defence rather than crisis management remained the armed forces core role and the Bundeswehr continues to retain conscription The book argues that strategic culture provides only a partial explanation of German military reform It demonstrates how domestic material factors were of crucial importance in shaping the pace and outcome of reform despite the impact of international structure and adaptational pressures from the EU and NATO The domestic politics of base closures ramifications for social policy financial restrictions consequent upon German unification and commitment to EMU s Stability and Growth Pact were critical in determining the outcome of reform The study also draws out the important role of policy leaders in the political management of reform as entrepreneurs brokers or veto players shifting the focus in German leadership studies away from a preoccupation with the Chancellor to the role of ministerial and administrative leadership within the core executive Finally the book contributes to our understanding of the Europeanization of the German political system arguing that policy leaders played a key role in uploading and downloading processes to and from the EU and that Defence Ministers used Atlanticization and Europeanization in the interests of their domestic political agendas

**The Presidentialization of Politics** Thomas Poguntke, Paul Webb, 2007-04-27 The Presidentialization of Politics shows that the politics of democratic societies is moving towards a presidentialized working mode even in the absence of formal institutional changes These developments can be explained by a combination of long term structural changes in modern politics and societies contingent factors which fluctuate over time While these contingent short term factors relate to the personalities of office holders the overall political agenda and the majority situation in parliament there are several structural factors which are relatively uniform across modern nations First the internationalization of modern politics which is particularly pronounced within the European Union has led to an executive bias of the political process which has strengthened the role of political top elites vis vis their parliamentary groups and or their parties Their predominance has been amplified further by the vastly expanded steering capacities of state machineries which have severely reduced the scope of effective parliamentary control At the same time the declining stability of political alignments has increased the proportion of citizens whose voting decisions are not constrained by long standing party loyalties In conjunction with the mediatization of politics

this has increased the capacity of political leaders to by pass their party machines and to appeal directly to voters As a result three interrelated processes have led to a political process increasingly moulded by the inherent logic of presidentialism increasing leadership power and autonomy within the political executive increasing leadership power and autonomy within political parties and increasingly leadership centred electoral processes The book presents evidence for this process of presidentialization for 14 modern democracies including the US and Canada While there are substantial cross national differences the overall thesis holds modern democracies are increasingly following a presidential logic of governance through which leadership is becoming more central and more powerful but also increasingly dependent on successful immediate appeal to the mass public Implications for democratic theory are considered

**Germany, Europe, and the Politics of Constraint** Klaus Goetz, Kenneth Dyson, 2003-10-16 These essays examine the Europeanization of the political system of the Federal Republic of Germany across the polity politics and public policy dimensions The book s 17 chapters focus on three key themes the challenge to the power of Germany to determine the course of the integrationist project and to shape European public policies the increasing constraints in the domestic political arena associated with Europeanization and domestic contestation over both the constitutive politics of the EU and specific policy choices This volume is essential reading for students of comparative European politics and German studies

Bibliographie Internationale de Science Politique, 2002-12 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences

**Party Strategies in Western Europe** Gemma Loomes, 2013-06-17 This book examines political party system change from a party centric perspective and assesses how and to what extent established political parties in western Europe can maintain their dominant positions Parties are increasingly competing in a changeable environment and this book assesses the ways in which political parties have tried to adapt to these changes by undertaking a study of the strategies employed by established parties since 1950 It features analysis of seventeen western European countries with eight case studies explored in greater depth including France Germany Portugal Greece Denmark Ireland Switzerland and Luxembourg The book assesses two groups of strategies institutional strategies by which parties aim for success through control of rules regulations and laws and strategies oriented towards the electorate through which parties seek success by proving themselves responsive to voters Offering a detailed empirical assessment of the frequency with which these strategies have been employed this book assesses the impact on established political parties and argues that parties can shape their own fate by strategic choices Party Strategies in Western Europe will be of interest to students and scholars of European politics Government and party politics

**Oxford Handbook of Political Behavior** Russell J. Dalton, Hans-Dieter Klingemann, 2007 Assembles the world s leading scholars on public opinion and political behaviour to describe the state of the art research on the beliefs values and behaviours of contemporary politics

**Green Parties in National Governments** Ferdinand Muller-Rommel, Thomas

Poguntke, 2013-11-05 By the late 1990s Green parties had entered national governments in five Western European countries Finland Italy Germany France and Belgium This book aims to provide an understanding of the differences and similarities of Green parties in coalition governments **Klaus von Beyme** Klaus Beyme, 2013-11-01 Klaus von Beyme a highly distinguished German political scientist has been recognised as a Pioneer in the Study of Political Theory and Comparative Politics When he received the highly esteemed Mattei Dogan Award during the XXII World Congress of Political Science in Madrid on 12 July 2012 in his laudatio Rainer Eisfeld portrayed Klaus v Beyme as a Global Scholar and Public Intellectual On the occasion of Klaus v Beyme s 80th birthday this book offers a selection of his major previously published and new texts focusing on Empirical Political Theory The Evolution of Comparative Politics Revival of Normative Political Theory in Empirical Research Theodor W Adorno Political Theory as Theory of Aesthetics Historical Forerunners of Policy Studies Political Institutions Old and New Representative Democracy and the Populist Temptation Political Advisors to Politicians and on The Concept of Political Class A New Dimension of Research on Elites **Executive Leadership and Legislative Assemblies** Nicholas D. J. Baldwin, 2014-01-02 The relationship between a head of government head of the executive branch and a nation s parliament or legislative assembly the legislative branch has long been the focus for comment and analysis for example has the prime minister in the United Kingdom come to a position of dominance at the expense of the power of parliament Does the American president stand head and shoulders above Congress Is a French president master of the system Need the Russian president pay attention to the Duma What of the position in other parliamentary and presidential systems In this book Baldwin seeks to provide answers and does so by drawing upon the knowledge and expertise of an international group of scholars whose essays advance our knowledge of the subject This book was previously published as a special issue of the Journal of Legislative Studies **The Berlin Republic** Winand Gellner, John D. Robertson, 2004-11-23 Since German unification in October 1990 arguments have raged as to whether the integration process of the former East Germany into the western system has been a success These essays offer fresh insight and perspectives explaining the effects of unification on Germany and the EU as a whole **German National Identity in the Twenty-First Century** R. Wittlinger, 2010-10-01 Wittlinger takes a fresh look at German national identity in the 21st century and shows that it has undergone considerable changes since unification in 1990 Due to the external pressures of the post cold war world and recent domestic developments Germany has re emerged as a nation which is less hesitant to assert its national interest *German Politics and Society*, 2003 **Party Politics in Germany** C. Lees, 2005-09-20 Party Politics in Germany is the only English language study of its kind and examines the phenomenon of party politics in the Federal Republic through comparison across time and space It draws upon new data from the 2002 Federal elections and recent Land elections as well as on a far more explicitly comparative literature than is generally found in single country studies The book not only sheds new light on political phenomena in Germany but also allows students of the comparative method to apply some of the key

concepts models and approaches with which they are familiar to the rich context of a single country study      **The Foundations of Ostpolitik** Julia von Dannenberg, 2008-01-10 Based on recently released archival sources this book is the first systematic analysis of the German Soviet negotiations leading to the conclusion of the Moscow Treaty of August 1970 This treaty was the linchpin of the New Ostpolitik launched by Chancellor Willy Brandt's government as a policy of reconciliation and an attempt to normalize relations with the countries of the Eastern bloc Focusing on the decision making processes both within the German domestic political system as well as within the international context this study offers a new interpretation of the shift from confrontational to détente politics at this time arguing that the Moscow Treaty was the product of various interrelated domestic and external factors As Dannenberg shows the change of government to a Social Liberal coalition was the first important precondition for Ostpolitik while the speedy conclusion of the Moscow Treaty owed much to the high degree of secrecy and centralization that characterized Brandt's policy making and that of his small coterie of advisors However Brandt's predominance in the decision making process does not mean that he alone determined the direction of policy His room for manoeuvre was amongst other things constrained by his coalition's narrow parliamentary majority as well as the Western Allies' special rights On the other hand German Soviet trade expansion public opinion and the emerging international interest in détente in the mid 1960s were crucial factors favouring Ostpolitik It was in this configuration of circumstances that Brandt placed himself at the forefront of the movement towards détente between East and West by introducing his bold diplomatic design one that had the reunification of Germany as its ultimate goal

**Opposing Europe?: The Comparative Party Politics of Euroscepticism** Aleks Szczerbiak, Paul Taggart, 2008-04-24 The project of European integration now spans Europe but in becoming bigger and broader the European Union has brought on itself significant criticism As the EU becomes deeper wider and more ambitious so opposition and scepticism become more prominent for citizens and more problematic for elites Concerns about a democratic deficit and the distance between European elites and publics have come to be a common feature of European politics As a consequence Euroscepticism has become a part of the terrain of conflict between political parties across Europe Opposing Europe provides the first comprehensive review of party based Euroscepticism across the breadth of contemporary Europe and the first in depth comparative academic study of Euroscepticism This the first of two volumes is made up of chapters that map describe and analyse Euroscepticism in the party systems of a range of countries and the European Parliament Each is written to a common frame of reference that differentiates hard and soft Euroscepticism The volume looks across Europe and includes EU member states and candidate and non member states in order to draw out comparative lessons that relate to the nature of political parties party systems and the domestic politics of European integration Opposing Europe is a groundbreaking state of the art book that provides a definitive review of a key issue in European politics It is also one of the few attempts to integrate the fields of EU studies with both West European and East European studies in order to draw lessons about the way

in which the EU interacts with domestic politics in both member and non member states Examining the way that parties position themselves and compete on the European issue provides powerful lessons for the trajectory of the European integration project more generally and on the prospects for the emergence of a European political system and polity

**Proceedings of the British Academy** British Academy, 2003      **Political Power in Spain** Xavier Collier, Antonio M. Jaime-Castillo, Fabiola Mota, 2017-11-24 This book explores why some people become politicians how they represent citizens in parliaments and what they think about democracy and its institutions It analyses the results of the first survey of a representative sample of Spanish MPs 580 cases and citizens The study covers areas such as social profiles recruitment and selection women in parliaments motivation for politics perception of the representative function and how this is affected by corruption disaffection and mistrust national and regional identities ideology the functioning of parliamentary groups and perceptions about the EU The case of Spain is used to demonstrate how MPs values opinions and attitudes conflict and complement with those of the citizens they are supposed to represent Through a systematic comparison between MPs and citizens the contributions deal with topics that are key to understanding how democracies work and the role played by MPs

**Globalisation, Regionalisation and National Policy Systems** , 2006      **Die Bundestagswahl 2005** Frank Brettschneider, Oskar Niedermayer, Bernhard Weißels, 2008-08-09 Die Bundestagswahl 2005 war in vielerlei Hinsicht besonders Die vorgezogenen Neuwahlen stellten die Wahlkampfplanung der Parteien vor ungewohnte Aufgaben In kurzer Zeit musste die SPD eine Strategie entwickeln den scheinbar uneinholbaren Vorsprung von Schwarz Gelb wieder wettzumachen Die Union musste sich zwischen einem offensiven Oppositionswahlkampf und einem im Zuge der Siegesgewissheit gouvernementalen Wahlkampf entscheiden Besonders war auch die erstmalige Kandidatur einer Frau verbunden mit der Frage ob die Deutschen reif seien für eine Kanzlerin Besonders waren schließlich die Wahlkampfdynamik und das Wahlergebnis Die bürgerliche Opposition verspielte in wenigen Wochen einen enormen Vorsprung so dass es am Ende nicht für eine Koalition aus Union und FDP reichte Die Große Koalition war das Ergebnis
