Milder, 2013-03-29 This book tackles the latest challenges in education in the business sector outlining how the students of the future must be taught to adapt to a highly fluid business environment in which their ability to acquire new skills and collaborate with others is more important than possessing facts Taking its cue from the growing body of theory advocating multi faceted and often multilingual education the book focuses on competences and collaborative team oriented project based learning Beginning with a set of studies on the differences in individual learning and ways of supporting students the volume moves on to a collection of papers on learning at the level of the group which include material on team learning and the sharing of knowledge in problem based learning The editors view these factors in education as an inevitable feature of pedagogy reflecting the fact that knowledge and its acquisition is increasingly collaborative in our working lives and especially in business A final section applies the principles developed in the first two parts at an organizational level evaluating the enormous implications these developments in our ideas about learning have for the educational institutions charged with teaching future generations Combining research and theory with practical factors in business education and training the volume provides wide ranging perspectives on developing best practice in the sector

**The Child to Come** Rebekah Sheldon, 2016-11-01 Generation Anthropocene Storms of My Grandchildren Our Children's Trust Why do these and other attempts to imagine the planet's uncertain future return us again and again to the image of the child In The Child to Come Rebekah Sheldon demonstrates the pervasive conjunction of the imperiled child and the threatened Earth and blisteringly critiques the logic of catastrophe that serves as its motive and its method Sheldon explores representations of this perilous future and the new figurations of the child that have arisen in response to it Analyzing catastrophe discourse from the 1960s to the present books by Joanna Russ Margaret Atwood and Cormac McCarthy films and television series including Southland Tales Battlestar Galactica and Children of Men and popular environmentalism Sheldon finds the child standing in the place of the human species coordinating its safe passage into the future through the promise of one more generation Yet she contends the child figure emerges bound to the very forces of

nonhuman vitality he was forged to contain Bringing together queer theory ecocriticism and science studies The Child to Come draws on and extends arguments in childhood studies about the interweaving of the child with the life sciences Sheldon reveals that neither life nor the child are what they used to be Under pressure from ecological change artificial reproductive technology genetic engineering and the neoliberalization of the economy the queerly human child signals something new the biopolitics of reproduction By promising the pliability of the body's vitality the pregnant woman and the sacred child have become the paradigmatic figures for twenty first century biopolitics Hadassah Mira Katzburg-Yungman, 2011-01-31 National Jewish Book Awards Finalist for the Barbara Dobkin Award for Women's Studies 2012 In February 1912 thirty eight American Jewish women met at Temple Emanuel in New York and founded Hadassah the Women's Zionist Organization of America This has become the largest Zionist organization in the Diaspora and the largest and most active Jewish women's organization ever Its history is an inseparable part of the history of American Jewry and of the State of Israel and the relationship between them Hadassah is also part of the history of Jewish women in the United States and in the modern world more broadly Its achievements are not only those of Zionism but crucially of women and throughout this study Mira Katzburg Yungman pays particular attention to the life stories of the individual women who played a role in them Based on historical documentation collected in the United States and Israel and on broad research the book covers many aspects of the history of Hadassah and analyses significant aspects of the fascinating story of the organization A wide ranging introductory section describes the contexts and challenges of Hadassah's history from its founding to the birth of the State of Israel Subsequent sections explore in turn the organization's ideology and its activity on the American scene after Israeli statehood its political and ideological role in the World Zionist Organization and its involvement in the new State of Israel in the twin fields of activity in medicine and health care and in its work with children and young people The final part of the book deals with topics that enrich our understanding of Hadassah in additional dimensions such as gender issues comparisons of Hadassah with other Zionist organizations and the importance of people of the Yishuv and later of Israelis in Hadassah's activities The study concludes with an Epilogue that considers developments up to 2005 assessing whether the conclusions reached with regard to Hadassah as an organization remain valid It considers developments within Hadassah in the 1980s and 1990s years in which the organization was affected by the significant changes within the wider American Jewish community specifically the enormous increase in intermarriage with non Jews and the impact of the so called second wave of feminism This extensive diverse and balanced study offers a picture of Hadassah in both arenas of its activity in the land that is now the State of Israel and in the United States In doing so it makes a contribution not only to Zionist history but also to the history of American Jewish women and of Jewish women more widely

has become a catchphrase of our times But efforts to define and interpret what global civil society actually is have led to ambiguity and dispute This major work of scholarship and advocacy pierces through the generalizations and debates It presents cogent examples of groups within civil society from the Seattle and Genoa protesters to transnational grassroots movements such as Slum Shack Dwellers International that are creatively meeting the challenges and opportunities of an increasingly interconnected world The contributors offer clarity and the hope that another world is possible one in which civil society's global networks can effectively create a free fair and just global order Scholars students and anyone interested in understanding new forces influencing contemporary world politics will want to have this book on their shelves **The**
