Political Encyclopedia of the Middle East Avraham Sela, 1998 **Arms Control in the Middle East** Emily B.

Landau, 2006-08-24 This book focuses on the Middle East arms control process as it unfolded during the years 1992 1995 as part of the multilateral track of the Arab Israeli peace process initiated in Madrid October 1991 **Muslim Brotherhood**

Rice Jr. Earle, 2019-07-04 The Muslim Brotherhood Egypt's oldest and largest Islamist organization is the father mother and guiding light of several of the world's leading terrorist groups Members of the Brotherhood also known as the Muslim Brothers have either founded or influenced the founding of such Islamist militant groups as Hamas al Qaeda the Islamic State and numerous lesser known groups Founded in 1928 by an Egyptian schoolteacher the Brothers embarked on a mission to Islamize the world by promoting Islamic sharia law morals and values They rejected the Western concept of secular democratic government Instead they combined religious preaching with social welfare activities and political activism even violence to advance their cause The Muslim Brotherhood is perhaps known best for the assassination of Egyptian President Anwar al Sadat in 1981 Allegedly it has since renounced violence Today it plans to conquer the Western world including

America from within as it continues its march toward establishing a worldwide caliphate The Walls between Conflict and Peace , 2016-11-21 The Walls between Conflict and Peace discusses how walls are not merely static entities but are in constant flux subject to the movement of time Walls often begin life as a line marking a radical division but then become an area that is to say a border within which function civil and political societies national and supranational societies Such changes occur because over time cooperation between populations produces an active quest for peace which is therefore a peace in constant movement These are the concepts and lines of political development analysed in the book The first part of the book deals with political walls and how they evolve into borders or even disappear The second part discusses possible and actual walls between empires and also walls which may take shape within present day empires The third part analyses various ways of being of walls between and within states Berlin the Vatican State and Italy Cyprus Israel and Palestine Belfast Northern European Countries Gorizia and Nova Gorica the USA and Mexico In addition discussion centres on a possible new Iron Curtain between the two Mediterranean shores and new and different walls within the EU The last part of the book looks at how walls and borders change as a result of cooperation between the communities on either side of them The book takes on particular relevance in the present circumstances of the proliferation of walls between empires and states and within single states but it also analyses processes of conflict and peace which come about as a result of walls

Soden **The Hashemites** Robert McNamara,2010-09-07 The story of the Arab Revolt and the Hashemite princes who led it during the First World War is inextricably linked in modern eyes to the legend of Lawrence of Arabia as portrayed in David Lean's 1962 film But behind this romantic image lies a harsher reality of wartime expediency double dealing and dynastic ambition which shaped the modern Middle East and laid the foundations of many of the conflicts that rack the region to this day Arab nationalists claim that British instigation for the Arab Revolt against the Ottoman Empire was a commitment to independence for the Arab people but in this book Robert McNamara shows how the British cultivated the Hashemite Sherifs of Mecca more as an alternative focus during the First World War for Muslim loyalty from the Ottoman Sultan who as Caliph had declared a jihad against the Allies when the Turks joined the Central Powers than as a leader of an independent and united Arabia At the same time the Sykes Picot Agreement divided up the Middle East between British and French spheres of influence The sense of betrayal that this caused has coloured Arab nationalists' views of the West ever since The main countries of the Middle East Jordan Syria and Iraq are all the creations of the post First World War settlement worked out at the Paris Peace Conference The story of the Hashemite dynasty at the Paris Peace Conference is the story of the birth of the modern history of a region that is now more than ever at the centre of world affairs Hezbollah Rice Jr. Earle,2019-07-04 Hezbollah Lebanon's Party of Allah wears many faces Founded by Muslim clerics following Israel's invasion of Lebanon in 1982 it is a powerful political party a Shia Islamic religious and social movement Lebanon's largest militia and a close ally of Iran Originally Hezbollah's reason for being was to resist the Israel invaders Over time it grew from a small militia to a paramilitary group more powerful than the Lebanese Army Trained and funded by Iran it maintains close ties with its benefactor As a political order it holds seats with veto power in the Lebanese government And as a religious and social movement Hezbollah operates hospitals clinics schools and centers for agricultural training and assistance Eclipsing whatever good it may do for Lebanese citizens Hezbollah is known best for the evil it does around the globe as one of the world's foremost terrorist groups Some call it the Party of Satan **Encyclopedia of the Developing World** Thomas M. Unleashing Africa's Resilience: Pan-Africanist Renaissance In a New African Century

Costantinos Berhutesfa Costantinos,2014-04-22 Africa includes five of the world s fastest growing economies as well as a treasure chest of natural resources Those very things however have caused multinational corporations to flock to the continent in an attempt take control of those resources An African renaissance is hard to conceptualize but that is exactly what is beginning to effect real change with the assistance of both public officials and ordinary citizens This study theorizes an African renaissance as the dynamic interaction of strategy and process and seeks to motivate researchers to shift analysis in that direction This shift emphasizes the task of broadly structuring African renaissance as a geopolitical system is more important than that of promoting it within a specific program of nations Unleashing Africa s Resilience provides the necessary tools for research based policymaking and the critical thinking needed to help Africa build a vibrant economy and become a more prominent player on the world stage

Nonstate Actors in Intrastate Conflicts Dan Miodownik,Oren

Barak,2013-10-09 Intrastate conflicts such as civil wars and ethnic confrontations are the predominant form of organized violence in the world today But internal strife can destabilize entire regions drawing in people living beyond state borders particularly those who share ideology ethnicity or kinship with one of the groups involved These nonstate actors may not be enlisted in formal armies or political parties but they can play a significant role in a conflict For example when foreign volunteers forge alliances with domestic groups they tend to attract other foreign interventions and may incite the state to centralize its power Diasporan populations depending on their connection to their homeland might engage politically through financial support or overt aggression either exacerbating or mitigating the conflict Nonstate Actors in Intrastate Conflicts takes an interdisciplinary approach to understanding the ways external individuals and groups become entangled with volatile states and how they influence the outcome of hostilities within a country s borders Editors Dan Miodownik and Oren Barak bring together top scholars to examine case studies in Afghanistan Lebanon Israel Palestine and Turkey in order to explore the manifold roles of external nonstate actors By shedding light on these overlooked participants whose causes and consequences can turn the tide of war Nonstate Actors in Intrastate Conflicts provides a critical new perspective on the

development and neutralization of civil war and ethnic violence Contributors Oren Barak Chanan Cohen Robert A Fitchette Orit Gazit Gallia Lindenstrauss Nava L wenheim David Malet Dan Miodownik Maayan Mor Avraham Sela Gabriel Gabi Sheffer Omer Yair

Engaging with a Legacy: Nehemia Levtzion (1935-2003) E. Human Health and Ecological Integrity Laura Westra, Colin Lionel Soskolne, Donald W. Spady, 2012 The connection between environment and health has been well studied and documented particularly by the World Health Organization It is now being included in some legal instruments although for the most part caselaw does not explicitly make that connection Neither the right to life nor the rights to health or to normal development are actually cited in the resolution of cases and in judges decisions This volume makes the connection explicit in a broad review of human rights and legal issues associated with public health and the environment It will be particularly useful as many legal instruments emphasize the right to development without fully discussing the necessary safety and public health aspects and the respect for the ecology of any area where such development often unwanted by local or indigenous communities is to be located Climate change is another pressing variable that is considered and several chapters address the interface between human health and ecological conditions Overall the book integrates perspectives from a wide range of disciplines including ethics ecology public health and epidemiology and human rights and law
