This original book brings a fascinating and accessible account of the tumultuous history of sexuality in Europe from the waning of Victorianism to the collapse of Communism and the rise of European Islam. Although the twentieth century is often called the century of sex and seen as an era of increasing liberalization, Dagmar Herzog instead emphasizes the complexities and contradictions in sexual desires and behaviours, the ambivalences surrounding sexual freedom and the difficulties encountered in securing sexual rights. Incorporating the most recent scholarship on a broad range of conceptual problems and national contexts, the book investigates the shifting fortunes of marriage and prostitution, contraception and abortion, queer and straight existence. It analyzes sexual violence in war and peace, the promotion of sexual satisfaction in fascist and democratic societies, the role of eugenics and disability, the politicization and commercialization of sex, and processes of secularization and religious renewal. Handbook of Multicultural Counseling Competencies Jennifer A. Erickson Cornish, Barry A. Schreier, Lavita I. Nadkarni, Lynett Henderson Metzger, Emil R. Rodolfa, 2010-08-13. A THOROUGH AND CONTEMPORARY EXPLORATION OF ISSUES FUNDAMENTAL TO MULTICULTURAL COMPETENCY. Handbook of Multicultural Counseling Competencies draws together an expert group of contributors who provide a wide range of viewpoints and personal experiences to explore the identification and development of specific competencies necessary to work effectively with an increasingly diverse population. Beginning with a Foreword by Derald Wing Sue, this unique handbook offers a broad, comprehensive view of multiculturalism that is inclusive and reflective. The coverage in this important book lies beyond the scope of traditionally defined multiculturalism, with discussion of historically overlooked groups that have experienced prejudice and bias because of their size, social class, age, language, disability, or sexual orientation. This book provides readers with practical cases and examples to enhance skill development, promote critical thinking, and increase awareness. A cross-section of diversity characteristics and best practice guidelines. Examination of detailed developmentally relevant competency categories. Resources and exercises designed for practitioners at various levels of experience and expertise. A forum for debate, discussion, and growth. Designed to help readers enhance general multicultural competency and their ability to provide services to the populations specifically described. This thought-provoking text will prove useful in facilitating ongoing dialogues about multicultural competence in all its variations. *Inkhorn's Erotonomicon* Paul Convery, 2012-11-01.
