Contours of death and disease in early modern England MARY J. DOBSON

Contours Of Death And Disease In Early Modern England

Peter Clark, David Michael Palliser, Martin J. Daunton

Contours Of Death And Disease In Early Modern England:

Contours of Death and Disease in Early Modern England Mary J. Dobson,1997-06-28 A geographical demographic and epidemiological study of disease and mortality in early modern England first published in 1997 Contours of Death and Disease in Early Modern England Mary J. Dobson,2003-11-20 This book provides a penetrating account of death and disease in early modern England Using a wide range of sources for the southeast of England the author highlights the tremendous variation in levels of mortality across geographical contours and across two centuries of time She explores the epidemiological causes and consequences of these mortality variations and offers the reader a fascinating insight into the way patients and practitioners perceived understood and reacted to the multitude of fevers poxes and plagues in past times

Representing the Plague in Early Modern England Rebecca Totaro, Ernest B. Gilman, 2010-09-13 This collection offers readers a timely encounter with the historical experience of people adapting to a pandemic emergency and the corresponding narrative representation of that crisis as early modern writers transformed the plague into literature The essays examine the impact of the plague on health politics and religion as well as on the plays prose fiction and plague bills that stand as witnesses to the experience of a society devastated by contagious disease Readers will find physicians and moralists wrestling with the mysteries of the disease erotic escapades staged in plague time plays the poignant prose works of William Bullein and Thomas Dekker the bodies of monarchs who sought to protect themselves from plaque the chameleon like nature of the plague as literal disease and as metaphor and future strains of plague literary and otherwise which we may face in the globally minded technology dependent and ecologically awakened twenty first century The bubonic plaque compelled change in all aspects of lived experience in Early Modern England but at the same time it opened space for writers to explore new ideas and new literary forms not all of them somber or horrifying and some of them downright hilarious By representing the plague for their audiences these writers made an epidemic calamity intelligible for them the dreaded disease could signify despair but also hope bewilderment but also a divine plan quarantine but also liberty death but also new Memory and Mortality in Renaissance England William E. Engel, Rory Loughnane, Grant Williams, 2022-10-13 This life collection reexamines commemoration and memorialization as generative practices illuminating the hidden life of The Death Arts in Renaissance England William E. Engel, Rory Loughnane, Grant Renaissance death arts Williams, 2022-09-08 The first ever critical anthology of the death arts in Renaissance England this book draws together over 60 extracts and 20 illustrations to establish and analyse how people grappled with mortality in the 16th and 17th centuries As well as providing a comprehensive resource of annotated and modernized excerpts this engaging study includes commentary on authors and overall texts discussions of how each excerpt is constitutive and expressive of the death arts and suggestions for further reading The extended Introduction takes into account death's intersections with print gender sex and race surveying the period s far reaching preoccupation with and anticipatory reflection upon the cessation of life For

researchers instructors and students interested in medieval and early modern history and literature the Reformation memory studies book history and print culture this indispensable resource provides at once an entry point into the field of early modern death studies and a springboard for further research *Early Modern European Society* Henry Kamen,2000 This book surveys the sweeping changes effecting Europe from the end of the fifteenth century to the early decades of the eighteenth century It examines the significance of broad community based norms and the development of social disciplines

Contagion and the Shakespearean Stage Darryl Chalk, Mary Floyd-Wilson, 2019-06-17 This collection of essays considers what constituted contagion in the minds of early moderns in the absence of modern germ theory. In a wide range of essays focused on early modern drama and the culture of theater contributors explore how ideas of contagion not only inform representations of the senses such as smell and touch and emotions such as disgust pity and shame but also shape how people understood belief narrative and political agency Epidemic thinking was not limited to medical inquiry or the narrow study of a particular disease Shakespeare Thomas Middleton Ben Jonson Thomas Dekker and other early modern writers understood that someone might be infected or transformed by the presence of others through various kinds of exchange or if exposed to certain ideas practices or environmental conditions The discourse and concept of contagion provides a lens for understanding early modern theatrical performance dramatic plots and theater going itself A Short History of Europe, 1600-1815 Lisa Rosner, John Theibault, 2015-03-26 A concise survey that introduces readers to the people ideas and conflicts in European history from the Thirty Years War to the Napoleonic Era The authors draw on gender studies environmental history anthropology and cultural history to frame the essential argument of the work **Cambridge and Its Economic** Region, 1450-1560 John S. Lee, 2005 Lee studies the population wealth trade and markets of Cambridge and its region and the changes that took place over a century of economic and social transition are detailed The Routledge Companion to the Stuart Age, 1603-1714 John Wroughton, 2006 With chronologies biographies key documents maps genealogies an extensive bibliography and packed with facts and figures this is an invaluable user friendly and compact compendium examining all aspects of the period from James I to Queen Anne Contours of Death ,1992 **Consumption and** Gender in the Early Seventeenth-Century Household Jane Whittle, Elizabeth Griffiths, 2012-03 In this vivid reconstruction of life in a seventeenth century gentry household the authors delve into the details of everyday life how did a large wealthy household in the English countryside acquire the goods and services it needed and wanted Was household consumption an exclusively female sphere or did men play an important role too Women and Ageing in British Society since 1500 Lynn Botelho, Pat Thane, 2014-07-30 Women have always made up the majority of older people this examination of the lives of elderly women in Britain in the period 1500 to the present reveals attitudes towards the ageing process It sheds light on household structures as well as wider issues including the history of the family the process of industrialisation the poor law and welfare provision and questions many common beliefs about elderly women particularly that female old age was

a time of poverty and want An important book for students of history and sociology alike The Life of Rachel Speght Helen M. Stringer, 2025-03-28 In 1617 Rachel Speght caused a sensation when at the age of nineteen she published a polemic in defence of women under her own name Daring to identify herself as a forward woman she repudiated the prevailing misogyny of her day However the power of her words died with her and for over 350 years she was lost from view Since the rediscovery of her works in the 1980s Speght has become a familiar name in Renaissance literature Nevertheless almost fifty years after her re emergence the woman behind the works remains little known This book explores Speght s life from her formation in the turbulent world of Jacobean London to her last years as a displaced person within a Suffolk community torn apart by religious strife Considering her as a writer and polemicist but also as a public housewife the book reveals a courageous thinker and protagonist One of the defining authors of what Christina Luckyj has described as the radical politics of the female voice in early Stuart England and one of the few clergy wives to speak out in defence of her faith amid the chaos of the Civil War Rachel Speght emerges as one of the most compelling female personalities of her age Relations and Cultural Change in Eighteenth-century England Barbara Crosbie, 2020 Interactions between age groups were central to major social and cultural developments in eighteenth century England and this book serves as a powerful reminder that people lived through not in the past God and Nature in the Thought of Margaret Cavendish Brandie R. Siegfried, Lisa T. Sarasohn, 2016-04-22 Only recently have scholars begun to note Margaret Cavendish's references to God spirits and the rational soul and little has been published in this regard This volume addresses that scarcity by taking up the theological threads woven into Cavendish's ideas about nature matter magic governance and social relations with special attention given to Cavendish s literary and philosophical works Reflecting the lively state of Cavendish studies God and Nature in the Thought of Margaret Cavendish allows for disagreements among the contributing authors whose readings of Cavendish sometimes vary in significant ways and it encourages further exploration of the theological elements evident in her literary and philosophical works Despite the diversity of thought developed here several significant points of convergence establish a foundation for future work on Cavendish's vision of nature philosophy and God The chapters collected here enhance our understanding of the intriguing and sometimes brilliant contributions Cavendish made to debates about God s place in the scientific cosmos World Atlas of Epidemic Diseases Smallman-Raynor Matthew, Haggett Peter, Cliff Andrew, 2004-04-30 The euphoria about the defeat of epidemics which surrounded the global eradication of smallpox in the 1970s proved short lived The advent of AIDS in the following decade the widening spectrum of other newly emergent diseases from Ebola to Hanta virus and the resurgence of old diseases such as tuberculosis and malaria all suggest that the The Cambridge Urban History of Britain Peter Clark, David Michael Palliser, Martin J. Daunton, 2000-07-20 This threa volume examines when why and how Britain became the first modern urban nation **Fatal Thirst** Elizabeth Lane Furdell, 2009 Using unpublished and published sources this book examines the history of diabetes in Britain from the

perspective of healer and sufferer alike focusing on medieval treatments Renaissance era diabetology and the centuries long debate among specialists over the site and cure of the disease **Well-being in Amsterdam's Golden Age** Derek L. Phillips,2008 This captivating volume paints a broad portrait of daily life in seventeenth century Amsterdam Taking the reader into the heart of the Dutch Golden Age Derek Phillips uses a wide variety of sources in order to provide a wealth of domestic detail from how people washed their clothes and cooked their meals to how they lived married and raised their children Well Being in Amsterdam's Golden Age covers the terrain of merchants offices regents drawing rooms and servants quarters through a range of multidisciplinary perspectives revealing the processes linking equality and well being in seventeenth century Amsterdam and beyond
