Contours Of A World View:

Contours of a World View Arthur Frank Holmes, 1983 **Worldview** David K. Naugle, 2002-07-16 Conceiving of Christianity as a worldview has been one of the most significant events in the church in the last 150 years In this new book David Naugle provides the best discussion yet of the history and contemporary use of worldview as a totalizing approach to faith and life This informative volume first locates the origin of worldview in the writings of Immanuel Kant and surveys the rapid proliferation of its use throughout the English speaking world Naugle then provides the first study ever undertaken of the insights of major Western philosophers on the subject of worldview and offers an original examination of the role this concept has played in the natural and social sciences Finally Naugle gives the concept biblical and theological grounding exploring the unique ways that worldview has been used in the Evangelical Orthodox and Catholic traditions This clear presentation of the concept of worldview will be valuable to a wide range of readers **The Transforming Vision** Brian J. Walsh, J. Richard Middleton, 1984-10-12 Brian J Walsh and J Richard Middleton offer a vision for transforming economics politics technology and every part of contemporary culture **Christian Worldview and the Academic Disciplines** Deane E. D. Downey, Stanley E. Porter, 2009-04-15 This book an edited compilation of twenty nine essays focuses on the differences that a Christian worldview makes for the disciplines or subject areas normally taught in liberal arts colleges and universities Three initial chapters of introductory material are followed by twenty six essays each dealing with the essential elements or issues in the academic discipline involved These individual essays on each discipline are a unique element of this book These essays also treat some of the specific differences in perspective or procedure that a biblically informed Christian perspective brings to each discipline Christian Worldview and the Academic Disciplines is intended principally as an introductory textbook in Christian worldview courses for Christian college or university students This volume will also be of interest to Christian students in secular post secondary institutions who may be encountering challenges to their faith both implicit and explicit from peers or professors who assume that holding a strong Christian faith and pursuing a rigorous college or university education are essentially incompatible This book should also be helpful for college and university professors who embrace the Christian faith but whose post secondary academic background because of its secular orientation has left them inadequately prepared to intelligently apply the implications of their faith to their particular academic specialty Such specialists be they professors or upper level graduate students will find the extensive bibliographies of recent scholarship at the end of the individual chapters particularly helpful *Naming the Elephant* James W. Sire, 2004-05-06 In this companion volume to *The Universe Next Door* James W Sire offers his refined definition of a worldview and addresses key questions about the history of worldview thinking the existential and intellectual formation of worldviews the public and private dimensions of worldviews and how worldview thinking can help us navigate an increasingly pluralistic universe *Taking Off Roofs and Building Bridges* Alan J. Pihringer, 2022-09-27 Why don t they believe the same things I do Why don t they see

things my way We get frustrated when people hold differing opinions from ours or view life's major issues from conflicting angles Their system of belief their worldview seems foreign to us as they filter the events of this world in ways that we would never have imagined and then come to conclusions that we would never even consider When other people's worldviews contradict ours both of us cannot be right Is there a way to account for the differences and determine if one is right and the other wrong For the Christian especially can we defend the Christian worldview in a way that upholds our entire system of belief and then opens the door to share the gospel with those who believe differently from us The method of worldview apologetics enables the Christian to expose the faults in other worldviews demonstrate the truth of the Christian worldview and build a bridge for others to hear the gospel of Jesus Christ Both scholarly and practical worldview apologetics equips the Christian to assess and critique differing belief systems and fulfill the call to Great Commission outreach

The New Age Movement and the Biblical Worldview John P. Newport, 1998 John Newport delivers a comprehensive study of the impact of New Age beliefs on contemporary culture and on Christianity itself while also offering an effective biblical antidote to today's worldview crisis After first surveying the historical development of the New Age worldview from ancient times through important tendencies in nineteenth century America to recent Far Eastern influences Newport explores in depth eleven key areas of the New Age worldview and contrasts each area of belief with the traditional biblical worldview

God at the Crossroads of Worldviews Paul Seungoh Chung, 2016-10-22 Debates about the existence of God persist but remain at an impasse between opposing answers God at the Crossroads of Worldviews reframes the debate from a new perspective characterizing the way these positions have been defined and defended not as wrong per se but rather as odd or awkward Paul Chung begins with a general survey of the philosophical debate regarding the existence of God particularly as the first cause and how this involves a bewildering array of often incommensurable positions that differ on the meaning of key concepts criteria of justification and even on where to start the discussion According to Chung these positions are in fact arguments both for and against larger more comprehensive intellectual positions which in turn comprise a set of rival worldviews Moreover there is no neutral rationality completely independent of these worldviews and capable of resolving complex intellectual questions such as that of the existence of God Building from Alasdair MacIntyre's writings on rival intellectual traditions Chung proposes that to argue about God we must first stand at the crossroads of the different intellectual journeys of the particular rival worldviews in the debate and that the discovery of such a crossroad itself constitutes an argument about the existence of God Chung argues that this is what Thomas Aquinas accomplished in his Five Ways which are often misunderstood as simple proofs From such crossroads the debate may proceed toward a more fruitful exploration of the question of God's existence Chung sketches out one such crossroad by suggesting ways in which Christianity and scientific naturalism can begin a mutual dialogue from a different direction God at the Crossroads of Worldviews will be read by philosophers of religion advanced undergraduate and graduate students and theologians and

general readers interested in the new atheism debates **Against Worldview** Simon P. Kennedy, 2024-12-04 Reframing the lenses of Christian worldview Recognize the limits and failures of Christian worldview education Consider a more organic approach to Christian learning and education Understand the value of wisdom over rigid frameworks In *Against Worldview* Reimagining Christian Formation as Growth in Wisdom Simon P Kennedy challenges the conventions of Christian worldview education and provides a better way Although the current concept of Christian worldview appears incontestable it rests upon shaky philosophical foundations fails to account for the complexities of how we interact with the world and may even undermine the curiosity essential for true learning But rather than shattering the lenses of Christian worldview Kennedy reframes worldview around wisdom A biblical worldview is not downloaded all at once It is cultivated piece by piece as we learn about God his world and ourselves Christian education is an organic process of learning to wisely nurture a biblical worldview Christian Worldview Philip Graham Ryken, 2013-10-31 Everything we do say and think reflects our fundamental worldview Whether we realize it or not basic beliefs about God man good and evil history and the future inevitably shape how we view and interact with the world In this accessible student s guide Phil Ryken author and current president of Wheaton College explains the distinguishing marks of a distinctly Christian worldview exploring the existence of God the nature of creation the role of grace and God s plan for the future Written for both Christians and non Christians this handy resource will help believers develop a cohesive worldview while offering unbelievers a succinct introduction to the foundational tenets of the Christian faith **An Introduction to Christian Worldview** Tawa J. Anderson, W. Michael Clark a, David K. Naugle, 2017-10-19 Everyone has a worldview A worldview is the lens through which we interpret the cosmos and our lives in it A worldview answers the big questions of life What is our nature What is our world What is our problem What is our end As Anderson Clark and Naugle point out our worldview cannot simply be reduced to a series of rational beliefs We are creatures of story and the kinds of story we tell reveal important things about our worldview Part of being a thoughtful Christian is to understand and express the Christian worldview It also means developing an awareness of the variety of worldviews An Introduction to Christian Worldview explores answers to questions such as Why do worldviews matter What characterizes a Christian worldview How can we analyse and describe a worldview What are the most common secular and religious worldviews Well organized clearly written and featuring aids for learning An Introduction to Christian Worldview is the essential text for either the classroom or personal study Readily accessible a valuable resource for all Christians who desire a deeper understanding of the conceptual foundations of our faith Steve Wilkens Professor of Philosophy and Ethics Azusa Pacific University *The Power of the Church* Michael R. Wagenman, 2020-11-20 It is fascinating that in all the media reports and discussions of the church s abuse of power in the early years of the twenty first century few if any seemed to notice that the accusation of the church s misuse of power presupposed a shared understanding of the positive use of power within the church that had been violated Rather than an interest in the sociological aspect of this question this book

examines the more ontological and normative aspects of it That is it investigates and discerns the foundational theological framework of culture and society and the location and purpose of the church within them As a cultural force and societal institution what does the church constructively bring to the human community *The Worldview of the Word of Faith Movement: Eden Redeemed* Mikael Stenhammar,2023-05-18 This volume approaches the Word of Faith as a worldview and analyses the movement through N T Wright s model for worldview analysis in order to provide necessary nuance and complexity to scholarly interpretations of the Word of Faith The reader receives insights into the movement s narrative semiotic practical and propositional dimensions which cumulatively offer a multifaceted understanding of how the Word of Faith interprets reality and engages with the world The analysis shows that there is a narrative core to Word of Faith beliefs in the form of a unique theological story with focus set on the present restoration of Eden s authority and blessings This study demonstrates how the Word of Faith operates as a distinct worldview that parses the world through the lens of faith s causative power to affect a direct correspondence between present reality and Eden s perfection The findings advance a critical and therapeutic approach that acknowledges how the worldview both strengthens and subverts Pentecostalism

Renewing Christian Worldview Steven Félix-Jäger,Yoon Shin,2023-09-26 This brief but comprehensive introduction to Christian worldview helps readers understand the Christian faith as the substance of Spirit filled living and as a knowledge tradition stemming from the global Pentecostal movement Using beauty truth and goodness as organizing principles the authors delineate a Christian worldview by tracing each category historically comparing and contrasting each with alternative Christian expressions and constructing fresh takes on each as read through the lived Pentecostal experience Unlike other worldview books the authors approach emphasizes beauty relating to experience rather than truth involving knowledge acquisition that difference in emphasis flows naturally from the Pentecostal perspective which has traditionally centered the experience of the Spirit Pentecostal Christians will find this volume indispensable for thinking lucidly about their worldview from a renewal perspective *Youth in Europe: An international empirical study about the impact of religion on life orientation* Hans-Georg Ziebertz,William K. Kay,2005 This book draws upon empirical data collected from 10 000 adolescent young people in 10 European countries The first volume of this project was about young people s life perspectives and the second about their religious attitudes and practices The current and final volume of this cross cultural study connects both research dimensions The analyses make clear that the influence of religion on values life orientation and politics differs strongly between different groups within Christianity and between Christians Jews and Muslims Many findings contain obvious surprises because they refute mainstream opinion on many topics The book gives detailed and new insights in the public relevance of the religiosity of young people across Europe All three volumes together are indispensable for scholars who work in public religious and educational contexts **Vision Rehabilitation** Aries Arditì,Amy Horowitz,Mary Ann Lang,Bruce Rosenthal,Karen Seidman,Cynthia Stuen,2000-01-01 Designed for anyone interested in low vision and vision

Lawrence W. Levine, 1978 Surveys the oral cultural heritage of black Americans as manifested in music folk tales and heroes and humor Creating a Christian Worldview Peter Somers Heslam, 1998 Abraham Kuyper 1837 1920 dominated the religious and political life of the Netherlands for nearly half a century and his ideas continue to inspire an international school of thought This book by Peter Heslam discusses Kuyper's ideas in their context by providing a historical commentary on the book in which they receive their most significant expression Lectures on Calvinism a series of six lectures that Kuyper delivered at Princeton Theological Seminary in 1898 Worlds Colliding Rex J. Ahdar, 2017-07-12 This title was first published in 2001 Worlds Colliding argues that the prevailing worldview held by those in positions of power in Western government sets the bounds for religious tolerance It explores the degree to which a modern liberal state will allow a counter cultural community the freedom to live according to its concept of the good life *Everyday Thoughts about Nature* W.W. Cobern, 2000-06-30 Dr Olcbee Lee School of Education University of Miami Coral Gables Florida 33124 I remember my excitement and appreciation several years ago when I first read World View Theory and Science Education Research by Bill Cobern 1991 It was a comprehensive theoretical discussion of worldview theory in science education I am delighted to see that Cobern has taken the next step to provide empirical accounts of worldview in *Everyday Thoughts about Nature* The primary goal of the book is to understand how typical ninth grade students and their science teachers think about Nature or the natural world and how their thoughts are related to science In pursuing this goal the book raises a basic question about the purpose of science education for the public Should science education seek to educate scientific thinkers in the pattern of the science teachers Or should science education seek to foster sound science learning within the matrices of various cultural perspectives p 3 The answer to this question becomes clear thanks to Cobern's excellent research and persuasive arguments First this research takes a humanistic approach in understanding what students and teachers think about Nature through the language and ideas voluntarily expressed p I The research used multi directional prompts and encouraged students and teachers to speak freely and at length in any directions they wished This humanistic approach is stated clearly The research seeks to illuminate some of the various ways in which students think about Nature without judging even the most unorthodox perspectives p 14
