Contraceptive Technology 1988 89:

Contraceptive Technology 1988-1989 Robert Anthony Hatcher, 1988 Contraceptive Technology, 1988-1989 Robert Anthony Hatcher, 1988-01-01 Abortion and Dialogue Ruth Colker, 1992-09-22 The issues she takes on are crucial not solely the subject areas of reproductive rights and law or public policy lenses and judicial impact in women's and children's lives but also the more difficult and fundamental questions of how these hot topics can be approached so as to make the most of the good will of all and the force of free discussion for social learning she brings a strong evolving and distinctive perspective to the discussion Emily Fowler Hartigan In Abortion and Dialogue Ruth Colker argues that the state falsely views the woman and the fetus as having conflicting needs when it intervenes in decisions regarding pregnancies Colker's feminist theological perspective on reproductive health issues encourages both pro choice and pro life advocates to consider how the value of life is implicated in discussions of reproduction Colker argues that theology can contribute to our understanding if we apply the concepts of love compassion and wisdom to problems identified by feminist theory and to actual concrete situations the impact of abortion regulations on poor female adolescents the judicial treatment of abortion regulations state intervention into women's decision making during pregnancies carried to term Colker concludes by examining effective and respectful family planning strategies that truly help women in making reproductive choices

Contraceptive Technology Update, 1989 **Contraceptive Use and Controlled Fertility** National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Committee on Population, 1989-02-01 These four papers supplement the book Contraception and Reproduction Health Consequences for Women and Children in the Developing World by bringing together data and analyses that would otherwise be difficult to obtain in a single source The topics addressed are an analysis of the relationship between maternal mortality and changing reproductive patterns the risks and benefits of contraception the effects of changing reproductive patterns on infant health and the psychosocial consequences to women of controlled fertility and contraceptive use

Adolescent Health: Background and the effectiveness of selected prevention and treatment services, 1991 This three volume work presents the Office of Technology's assessment of the physical emotional and behavioral health status of contemporary American adolescents including those living in poverty racial and ethnic minority groups Native Americans and rural adolescents Specific topics covered are identifying risk and protective factors for adolescent health problems evaluating options in the organization of health services and technologies available to adolescents assessing options in the conduct of national health surveys to improve collection of adolescent health statistics and identifying gaps in research on the health and behavior of adolescents Contraception and Reproduction National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Committee on Population, 1989-02-01 This book examines how changes in reproductive patterns such as the number and timing of births and spacing between

births have affected the health of women and children in the developing world It reviews the relationships between contraceptive use reproductive patterns and health the effects of differences and changes in reproductive patterns as well as the role of family planning in women s fertility and health **Adolescent Health** ,1991 **Issues in Reproductive Technology** Helen B. Holmes,1994-08 A remarkable collection of scholarly essays philosophical discussions and ethical arguments concerning reproductive choices Choice It seems as if every week there is a new case involving reproductive technologies that raises provocative often painful questions What policies should be followed by centers that preserve human embryos Are such innovations as Norplant improvements over established methods of contraception Should RU 486 be available in the U S Is prenatal diagnosis an ethically acceptable step to limiting the number of disabled people These are just some of the vital questions explored in this timely work which offers incisive analysis of the plethora of issues raised by advances in reproductive medicine The book s major section cover abortion contraception cryopreservation of gametes and embryos surrogate motherhood and psychosocial issues of in vitro fertilization In each section introductory essays by recognized authorities such as Elizabeth Bartholet and Andrea L Bonnicksen are followed by critical articles by professionals in such fields as women s health medicine biology sociology politics and philosophy In assessing a technology the authors present well argued analyses of problems created by that technology including views from advocates and practitioners that raise attendant ethical and practical issues Contraception Donna Shoupe,Florence P. Haseltine,2012-12-06 Contraception is the most comprehensive exploration of the newest technologies in the area of contraception Edited by renowned authorities Dr Donna Shoupe and Dr Florence Haseltine with chapters written by leaders in the field this book comprises the most up to date practical and clinical information available and presents a thorough examination of clinical efficacy side effects mechanisms of action and benefits of all types of contraception including chapters on the IUD the new subdermal implant Norplant injectables the diaphragm condoms sponge female sterilization vasectomy and more discussions of cutting edge contraceptive technologies including the new progestin oral contraceptive pills contraceptive vaginal rings and RU 486 an important chapter on AIDS and contraception This book will serve as an invaluable reference providing useful instructive background information and pertinent clinical applications for the physician resident and researcher At such an exciting time for contraceptive technology no one in the field can afford to be without this text **Guide to Clinical Preventive Services** U. S. Preventive Services Task Force,U.S. Preventive Services Task Force,1993-05 A report on recommended clinical preventive services that should be provided to patients in the course of routine clinical care including screening for vascular neoplastic and infectious diseases and metabolic hematologic ophthalmologic and ontologic prenatal and musculoskeletal disorders Also mental disorders and substance abuse counseling and immunizations chemoprophylaxis Tables **Any Friend of the Movement** Jimmy Elaine Wilkinson Meyer,2004 In the 1920s a few Cleveland women perceived a need for reliable birth control They believed that health and social service professionals denied women especially

poor and working class women critical health care information Any Friend of the Movement tells the story of these women their actions and the organization they created the direct forerunner of a modern Planned Parenthood affiliate The disparate threads of this particular tale include the suicide of a pregnant woman the gift of a bereaved inventor smuggling contraceptive supplies across state lines and sponsoring ice skating galas to fund the work Any Friend of the Movement breaks new ground in the history of birth control activism in North America Meyer argues that private philanthropy and voluntary action on the part of clinics like the Maternal Health Association MHA and their clients vitalized the larger movement at its roots and pushed it forward

BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *National Library of Medicine Current Catalog* National Library of Medicine (U.S.),1988 *Sex Hormones, Exercise and Women* Anthony C. Hackney,2016-11-09 It is well established through extensive peer reviewed published research that physical activity and exercise training can impact the reproductive endocrine system of women This ground breaking comprehensive title presents a range of unique insights into the opposite question how the reproductive endocrine system of women affects their exercise ability More precisely the thematic question explored in this work is if exercise affects reproductive hormones conversely then could the reproductive hormones have physiological effects unrelated to reproduction that influence the capacity of women to exercise In exploring this question the goal is to better understand the unique physiology of women and whether female sex hormones might account for some of the variance in physiological performance between amenorrheic and eumenorrheic women and within women across the age span as they experience menarche to menopause *Sex Hormones Exercise and Women Scientific and Clinical Aspects* synthesizes the research by exploring the physiology and psychology behind these occurrences This novel title will not only be of interest to researchers exercise scientists graduate students and clinicians it will also serve as a source of valuable information for female athletes and their trainers in the context of preparing for competitions

Controlling Reproduction J.S. Hutchinson,1993-08-31 In this refreshingly integrated account the author reviews reproductive function in humans wild and domestic mammals highlighting the loci suitable for manipulation *Controlling Reproduction* is a practical comparative text which will be of interest to anyone concerned with mammalian reproduction *Statistical Reference Index* ,1990

Demographic and Programmatic Consequences of Contraceptive Innovations Sheldon J. Segal,Amy O. Tsui,Susan M. Rogers,2012-12-06 This volume contains papers presented at the Conference on the Demographic and Programmatic Consequences of Contraceptive Innovations which was sponsored by the Committee on Population and held at the National Academy of Sciences October 6 7 1988 The papers consider how new contraceptive methods currently being developed and changes in the use of already available contraceptives could affect contraceptive practice levels and patterns of abortion use and the health of women In addition several of the papers review the probable consequences of introducing new technology into family planning programs in developing countries The Committee on Population sponsored this conference in order to

stimulate thinking and to provide a forum for scientists family planning program managers and donor agency personnel to exchange information and ideas about these important issues The committee is publishing these papers to expand the discussion of consequences of contraceptive innovations and to give scientists policy makers and members of the public who could not attend the conference an opportunity to learn about new developments in fertility control and their likely consequences for individuals and the societies in which they live

NEED FOR NEW METHODS While a strong case can be made that the pill and the intrauterine device IUD have contributed to declines in the level of unintended pregnancies around the world it is also clear that for many couples existing methods present problems
