Riesenhuber, 2012-12-17 The European Community harmonised the contractual laws of the member states in some ways In this respect the Community did not orient itself on the factual questions of contractual law but on the actual problem relations The author examines the questions how the totality of the Legal File of the European Community is combined to one system as regards contractual law *Australian national bibliography* ,1961 **Law Books Published** ,2002 *Current Law Index* ,2004

The Europeanisation of English Tort Law Paula Giliker, 2014-12-01 Tort law is often regarded as the clearest example of traditional common law reasoning Yet in the past 40 years the common law of England and Wales has been subject to European influences as a result of the introduction of the European Communities Act 1972 and more recently the implementation of the Human Rights Act 1998 in October 2000 EU Directives have led to changes to the law relating to product liability health and safety in the workplace and defamation while Francovich liability introduces a new tort imposing State liability for breach of EU law The 1998 Act has led to developments in privacy law and made the courts reconsider their approach to public authority liability and freedom of expression in defamation law This book explores how English tort law has changed as a result of Europeanisation broadly defined as the influence of European Union and European human rights law It also analyses how this influence has impacted on traditional common law reasoning Has Europeanisation led to changes to the common law legal tradition or has the latter proved more resistant to change than might have been expected

U. Uche,2014-04-23 First Published in 1971 This study is a comparative investigation of contractual obligations in Ghana and Nigeria It has often been suggested that the law of civil responsibility in West Africa is the same as the current English law position on the subject This book sets out to examine the basis of this assumption an exercise which has never been attempted by any previous writer in West African law The study has been divided into five major parts *Index to Legal Periodicals & Books* ,2004 **Supreme Court Law Review** Butterworths & Company (Canada) Limited,2000 **European Legal Book Index** ,1994 *The Northern Ireland Legal Quarterly* ,1986 **Law Institute Journal** ,1996 **Scholars of Contract Law** James Goudkamp,Donal Nolan,2022-12-01 This book provides a counter balance to the traditional focus on judicial decisions by exploring the contribution of legal scholars to the development of private law In the book the work of a selection of leading scholars of contract law from across the common law world ranging from Sir Jeffrey Gilbert 1674 1726 to Professor Brian Coote 1929 2019 is addressed by legal historians and current scholars in the field The focus is on the nature of the work produced by the scholars in question important influences on their work and the impact which that work in turn had on thinking about contract law The book also includes an introductory chapter and an afterword by Professor William Twining that explore connections between the scholars and recurrent themes The process of subjecting contract law scholarship to sustained analysis provides new insights into the intellectual development of contract law and reveals the central role played by scholars in that process And by focusing attention on the work of influential contract scholars the book serves to emphasise the importance of legal scholarship to the development of the common law more generally
