Contractarian Liberal Ethics and the Theory of Rational Choice Jung Soon Park,1992 This book investigates the relationship between morality and rationality in the context of historical and present day contractarian ethics From Rawls to Gauthier contractarians have attempted to construct their methodological foundations on the theory of rational choice Through a careful study of the nature and limits of the theory of rational choice Jung Soon Park argues that the theory cannot provide the reliable foundations for contractarian liberal ethics Consequently the author takes seriously the question about the future of contractarian liberal ethics Is it the end or can there be a transformation     Liberalism Versus Conservatism

François B. Gérard,2000 Everyone eschews labels yet we all seem to possess them in the minds of legions of politicians marketers and even the ever peering government We are being targeted daily by flaming liberals left wing liberals right wing conservatives compassionate conservatives religious conservatives and liberals pinko liberals middle of the road liberals conservatives and liberals pinko liberals middle of the road liberals and conservatives and of course by neoconservatives and neoliberals The search is on for kindred souls the types who will open their wallets to support whatever it is the hucksters are peddling But what to these concepts mean and do their torchbearers grasp the underlying philosophies or do they care This bibliography lists over hundreds of entries under each category which are then indexed by title an author

Self-Determination and Collective Responsibility in the Secessionist Struggle Costas Laoutides,2016-03-03 The often violent emergence of new independent states following the end of the Cold War generated discussion about the normative grounds of territorial separatism A number of opposing approaches surfaced debating whether and under which circumstances there is a right for a community to secede from its host country Overwhelmingly these studies placed emphasis on the right to secession and neglected the moral stance of secessionist movements as agents in international relations In this book Costas Laoutides explores the collective moral agency involved in secessionist struggles offering a theoretical model for the collective responsibility of secessionist groups Case studies on the Kurds and the people of Moldova Transdniestria illustrate the author's theoretical arguments as he seeks to establish how although the principle of self-determination was envisaged as a means of gradually bestowing political power upon the people it never managed to realize its full potential because it was interpreted strictly within a framework of exclusionary politics of identity     Minimal Morality Michael Moehler,2018 Michael Moehler develops a novel multilevel social contract theory tailored to the conditions of societies that are deeply morally pluralistic Such societies must cope with a variety of values and traditions Moehler defines the minimal behavioral restrictions that are necessary to ensure mutually beneficial peaceful long term cooperation

*The Idea of a Liberal Theory* David Johnston, 1996-07-08 Liberalism the founding philosophy of many constitutional democracies has been criticized in recent years from both the left and the right for placing too much faith in individual rights and distributive justice In this book David Johnston argues for a reinterpretation of liberal principles he contends will restore liberalism to a position of intellectual leadership from which it can guide political and social reforms He begins by surveying the three major contemporary schools of liberal political thought rights based perfectionist and political liberalism and by weeding out their weaknesses sketches a new approach he calls humanist liberalism The core of Johnston s humanist liberalism is the claim that the purpose of political and social arrangements should be to empower individuals to be effective agents Drawing on and modifying the theories of John Rawls Michael Walzer Ronald Dworkin Joseph Raz Amartya Sen and others Johnston explains how this purpose can be realized in a world in which human beings hold fundamentally different conceptions of the ends of life His humanist liberalism responds constructively to feminist neo Marxist and other criticisms while remaining faithful to the core values of the liberal tradition

The Evolutionary Limits of Liberalism Filipe Nobre Faria, 2019-11-01 This book assesses the evolutionary sustainability of liberalism The book's central claim is that liberal institutions ultimately weaken their social groups in the evolutionary process of inter group competition In this sense institutions relying on the liberal satisfaction of preferences reveal maladaptive tendencies Based on the model of multilevel selection this work appraises the capacity of liberal democracy and free markets to satisfy preferences In particular the book re evaluates public choice theory's classic postulate that free markets are a suitable alternative to the shortcomings of western liberal democracies regarding preference satisfaction Yet the book concludes that free markets are not a solution to the problems of liberal democracy because both market and democratic liberal institutions rest on the liberal satisfaction of preferences an ethic which hurts group evolutionary fitness This volume is of interest to political theorists evolutionary ethicists political economists and to general readers interested in the future of liberalism

interpretation Some essays examine the writings of liberalism s earliest defenders like John Locke and Adam Smith or the influence of classical liberalism on the American founders Some focus on the Progressive movement and the rise of the administrative state while others defend particular conceptions of liberalism or examine liberal theories of justice including those of John Rawls and Robert Nozick Several essays discuss the U S Constitution seeking to determine whether it is best viewed as empowering the federal government to achieve certain ends or as strictly limiting its power to ensure the broadest freedom for individuals to pursue their own ends Other essays address the limits of economic freedom or focus on the nature and extent of property rights and the government s power of eminent domain

*Post-Islamist Political Theory* Meysam Badamchi, 2017-06-22 This book deals with the concept of post Islamism from a mainly philosophical perspective using political liberalism as elaborated by John Rawls as the key interpretive tool What distinguishes this book from most scholarship in Iranian studies is that it primarily deals with the projects of Iranian intellectuals from a normative perspective as the concept is understood by analytical philosophers The volume includes analyses of the strengths and weakness of the arguments underlying each thinker s ideas rather than looking for their historical and sociological origins genealogy etc Each chapter develops a particular conjectural argument for the possibility of an overlapping consensus between Islam and political liberalism though the arguments presented draw upon different Islamic particularly Shia resources Thus while Shabestari and Soroush primarily reason from a modernist theological or kalami perspective M H Tabatabai and Mehdi Haeri Yazdi s arguments are mainly based on traditional Islamic philosophy and Quranic exegesis While Kadivar An Naim and Fanaei are post Islamist in the exact sense of the term Malekian goes beyond typical post Islamism by proposing a theory for spirituality that constrains religion within the boundaries of enlightenment thought Throughout the book specific attention is given to Ferrara and March s readings of political liberalism Although the book s chapters constitute a whole they can also be read independently if the reader is only curious about particular intellectuals whose political theories are discussed

**The Routledge Companion to Twentieth Century Philosophy** Dermot Moran, 2008-10-27 Featuring twenty two chapters written by leading international scholars this major publication covers all the key figures and movements from Frege to Derrida and philosophy of language to feminist philosophy
