Contractual Labour in Agricultural Sector S. N. Tripathy, 2000 Contents Introduction Agricultural Labour A Historical Overview Socio Economic Problems of Contractual Agricultural Labourers Concluding Observations and Policy Implications of the Study

Labour Contracts and Labour Relations in Early Modern Central Japan Mary Louise Nagata, 2004-11-23 Based on a collection of labour contracts and other documents this book examines the legal economic and social relations of labour as they developed in the commercial enterprises of Tokugawa Japan The urban focus is Kyoto the cultural capital and smallest of the three great cities of the Tokugawa period but the data comes from a wider region of commercial and castle towns and rural villages in central Japan

Seasonal Workers in Mediterranean Agriculture Jörg Gertel, Sarah Ruth Sippel, 2014-04-03 Over the last three decades there has been a rapid expansion of intensive production of fresh fruit and vegetables in the Mediterranean regions of south and west Europe Much of this depends on migrating workers for seasonal labour including from Eastern Europe North Africa and Latin America This book is the first to address global agro migration complexes across the region It is argued that both intensive agricultural production and related working conditions are highly dynamic Regional patterns have developed from small scale family farming to become an industrialized part of the global agri food system which increasingly depends on seasonal labour Simultaneously consumer demand for year round supply has caused relocations of the industry within Europe areas of intensive greenhouse production have moved further south and even into North Africa The authors investigate this Mediterranean agri food system that transcends borders and is largely constituted by invisible seasonal work By revealing the story of food commodities loaded with implications of private profit seeking exploitation exclusion and multiple insecurities the book unmasks the hidden costs of fresh food provisioning Three case study areas are considered in detail the French region of Provence a traditional centre of fresh fruit and vegetable cultivation the Spanish Almer a region where intensive production has accelerated dramatically since the 1970s and Morocco where counter seasonal production has recently been expanding The book also includes commentaries that refer to complementary insights on US Mexico Philippines Canada and South Pacific mobilities

Rural Wage Employment in Developing Countries Carlos Oya, Nicola Pontara, 2015-05-22 There is a striking scarcity of work conducted on rural labour markets in the developing world particularly in Africa This book aims to fill this gap by bringing together a group of contributors who boast substantial field experience researching rural wage employment in various developing countries It provides critical perspectives on mainstream approaches to rural agrarian development and analysis of agrarian change and rural transformations from a long term perspective This book challenges the notion that rural areas in low and middle income countries are dominated by self employment It purports that this conventional view is largely due to the application of conceptual frameworks and statistical conventions that are ill equipped to capture labour market participation The contributions in this book offer a variety of methodological lessons for the study of rural labour markets

focusing in particular on the use of mixed methods in micro level field research and more emphasis on capturing occupation multiplicity The emphasis on context history and specific configurations of power relations affecting rural labour market outcomes are key and reoccurring features of this book This analysis will help readers think about policy options to improve the quantity and quality of rural wage employment their impact on the poorest rural people and their political feasibility in each context *Labor Markets and Social Policy in Central and Eastern Europe* N. A. Barr, 2005-01-01 Labor Markets and Social Policy in Central and Eastern Europe summarises social policy reform during the transition and EU accession and analyses the social policy challenges which continue to face both old and new member states Specifically the book amplifies two sets of arguments First social policy under communism was in important respects well suited to the old order and precisely for that reason was systematically badly suited to a market economy Strategic reform directions thus followed from the nature of the transition process and from constraints imposed by EU accession Secondly successful accession is not the end of the story economic and social trends over the past 50 years are creating strains for social policy which all countries old and new members will have to face This book will be of interest to readers interested in social policy particularly those with an interest in the process of post communist transition in EU accession and in future social policy challenges for the wider Europe It should be of interest to academics in departments of economics social policy and political science and to policy makers including government advisers and civil servants **Growth, Jobs and Poverty in Sub-Saharan Africa**

Moazam Mahmood, 2022-07-15 Sub Saharan Africa SSA should not be defined by the structural parameters and opportunities of low income countries given that it also comprises a number of higher income countries This book finds that SSA is tightly constrained in its growth employment and poverty outcomes Rather than taking this as a conceptual downside these constraints to growth and development have to be recognised and overcome not just by a few countries able to escape them more easily but by all countries in SSA such that no country is left behind The book observes a weakness in the quantum of growth in SSA It relates this to a growth path based more on extractives than manufactured goods While SSA is endowed with extractives global demand for these is very volatile These boom bust cycles in export demand come to affect not just the export sector in SSA as a resource curse but also the production of output of the entire economy The book captures this through the working out of equilibrium in four major markets the tradeables market the domestic goods market the labour market and the money market **Structural Adjustment and Agriculture** Sreenivasan Subramanian, Elisabeth

Sadoulet, Alain De Janvry, Food and Agriculture Organization of the United Nations, 1994-01-01 *Legal aspects of contract farming agreements* Food and Agriculture Organization of the United Nations, International Fund for Agricultural Development, 2018-06-26 This document is primarily a synthesis of the UNIDROIT FAO IFAD Legal Guide on Contract Farming It is a comprehensive document that considers contract farming from the viewpoint of private law and seeks to provide guidance concerning the design and implementation of sound contracts thereby generally contributing to building a

conducive environment for contract farming The publication does not intend to cover all possible agricultural contracts Its scope is limited to the bilateral relationship between producer s and a contractor through contract farming This involves parties entering into a contract that could be established for a fixed term for one production cycle for several or many cycles or years or for an indefinite period The document aims to provide advice to promote harmonious relations among all parties involved in contracts and those advising them

Due diligence, tenure and agricultural investment - A guide on the dual responsibilities of private sector lawyers in advising on the acquisition of land and natural resources Food and Agriculture Organization of the United Nations,2019-05-23 This guide examines the responsibilities of private sector lawyers in avoiding and addressing preventing and mitigating adverse human rights impacts on tenure right holders when advising on agricultural investments These responsibilities arise under international standards for the protection of legitimate tenure rights including the UN FAO Voluntary Guidelines on the Responsible Governance of Tenure of Land Fisheries and Forests in the context of national food security VGGT as considered within the framework of international human rights laws which underpin aspects of those standards In the light of the United Nations Guiding Principles on Business and Human Rights UNGP the guide considers the dual responsibility of lawyers in this context 1 through the impact of these standards on the professional duties of the lawyer including in house counsel towards the investor client and 2 through the impact on the law firm s responsibilities as a business in its own right in the light of its corporate social responsibility CSR commitments The guide examines the requirements for due diligence in this context and makes a number of recommendations to promote compliance with UNGP on behalf both of the investor client and of the law firm considered as a business in its own right

Microeconomic Issues of Labor Markets in Developing Countries Dipak Mazumdar,1989-01-01 This paper deals with labor market structures in developing countries and the impact of government policies on rural and urban labor markets The central concern in analyses of employment is absorption of labor Governments try to influence the demand for labor so that more members of the labor force are absorbed into productive employment Employment outcomes are often the by products of government policies that affect economic growth as a whole This paper concentrates on factors that influence the structure and functioning of labor markets In Chapter 1 a schematic picture of labor markets is presented Chapters 2 and 3 analyze the salient features of the workings of rural and urban labor markets and discuss some important government policies that affect the functioning of these markets The paper concludes that Government intervention in both rural and urban labor markets has often been less than successful sometimes because their policies were based on incorrect assumptions At other times these policies have achieved less because the government also adopted other policies that tended to contradict the goal of providing jobs
