Fisher, 2017-01-18 This edited volume presents selected papers capturing Herbert Kelman s unique and seminal contributions to the social psychology of conflict analysis and resolution with a special emphasis on the utility of concepts for understanding and constructively addressing violent and intractable conflicts Central concepts covered include perceptual processes basic human needs group and normative processes social identity and intergroup trust which form the basis for developing interactive methods of conflict resolution **Contemporary Conflict Resolution** Oliver Ramsbotham, Hugh Miall, Tom Woodhouse, 2011-04-11 Offering an assessment of the theory and practice of conflict resolution in post Cold War conflicts this book addresses a number of questions It explores the nature of contemporary conflict and the development of conflict resolution The Oxford Handbook of Peacebuilding, Statebuilding, and Peace Formation Oliver P. Richmond, Gözim Visoka, 2021 Peacebuilding and

statebuilding is one of the main approaches for preventing managing and mitigating global insecurities dealing with the humanitarian consequences of civil wars and expanding democracy and neoliberal economic regimes Peace formation is a relatively new concept addressing how local actors attempt to shape or work in parallel to international and national projects The Oxford Handbook of Peacebuilding Statebuilding and Peace Formation serves as an essential guide to this vast intellectual landscape It offers a systematic overview of conceptual foundations political implications and tensions at the global regional and local levels as well as key policies practices examples and discourses underlining all segments of peacebuilding and statebuilding **Conflict Transformation and Peacebuilding** Bruce W. Dayton, Louis

Kriesberg, 2009-02-11 This book fills a gap in our understanding of the forces that lead to moderation and constructive engagement in the context of violent intrastate conflicts WMD Arms Control in the Middle East Harald Müller, 2016-02-17

The Middle East is a hot spot of proliferation It contains one state assumed to possess nuclear weapons several states that tried and failed to develop a military nuclear capability one state under suspicion of trying to do so and it is the world region that witnessed the most frequent and severe employment of chemical weapons since the end of World War I Notwithstanding not a single arms control regime concerning weapons of mass destruction WMD covers the region as a whole Instead we have seen several proliferation related military operations which have rather contributed to destabilization than served non proliferation This volume written under the auspices of the EU Consortium for Non Proliferation and Disarmament determines the current state of diplomatic efforts to establish a WMD free zone in the Middle East In doing so it provides insights into central actors conflicting political positions thereby explaining the stalemate of efforts to negotiate a WMD free zone Chapters written by renowned experts from academia and policy oriented think tanks as well as by next generation Middle East and arms control experts introduce the subject to the reader give background information about arms control initiatives provide technical expertise and endeavour to make proposals for arms control measures in support of the creation of a Middle East WMD free zone *Managing Water Resources in Large River Basins* William Young, Nagaraja Rao

Harshadeep, 2021-05-07 Management of water resources in large rivers basins typically differs in important ways from management in smaller basins While in smaller basins the focus of water resources management may be on project implementation irrigation and drainage management water use efficiency and flood operations in larger basins because of the greater complexity and competing interests there is often a greater need for long term strategic river basin planning across sectors and jurisdictions and considering social environmental and economic outcomes This puts a focus on sustainable development including consumptive water use and non consumptive water uses such as inland navigation and hydropower It also requires the consideration of hard or technical issues data modeling infrastructure as well as soft issues of governance including legal frameworks policies institutions and political economy Rapidly evolving technologies could play a significant role in managing large basins This Special Issue of Water traverses these hard and soft aspects of managing

water resources in large river basins through a series of diverse case studies from across the globe that demonstrate recent advances in both technical and governance innovations in river basin management
