**Control Freak** Jared Lee Hanson, 2002-09-13 The universe is filled with incredible power Over the last century alone combustion electricity and lift have completely altered the course of humanity These and other forces have taken us to the moon and beyond At the same time they have laid waste to entire cities and abruptly ended millions of lives One force among these has the ability to control them all Ironically it is the most powerful yet the least understood As with fire this awesome power can only be controlled when you understand the basics of how it works Like electricity it can do things that you thought were impossible And similar to lift it can send you flying through the clouds to heights you never imagined Once you learn the basics you won't need to freak out any more over control Anything you want will be within reach without the use of force deception bribery or any other form of manipulation If you're not already living your dreams it's because something is short circuiting your ability to harness this great power Come with me and we'll find out what it is Let your journey of discovery begin NOW
