War, Revolution, and Nation-making in Lithuania, 1914-1923 Tomas Balkelis, 2018 In this book Tomas Balkelis explores how the Lithuanian state was created and shaped by the Great War from its onset in 1914 to the last waves of violence in 1923 As the very notion of independent Lithuania was constructed during the war violence is seen as an essential part of the formation of Lithuanian state nation and identity War was much more than simply the historical context in which the tectonic shift from empire to nation state took place It transformed people policies institutions and modes of thought in ways that would continue to shape the nation for decades after the conflict subsided In telling the story of the post WWI conflict in Lithuania War Revolution and Nation Making in Lithuania 1914 1923 focuses on the soldiers and civilians involved in the conflict rather than the strategies and acts of politicians generals or diplomats The volume s two main themes are the impact of military social and cultural mobilizations on the local population and different types of violence that were so characteristic

of the region throughout the period The actors in this story are people displaced by war and mobilized for war refugees veterans volunteers peasant conscripts POWs paramilitary fighters and others who took to guns not diplomacy to assert their power This is the story of how their lives were changed by war and how they shaped the society that emerged after war

From People's War to People's Rule Timothy J. Lomperis, 2000-11-09 Timothy Lomperis persuasively argues the ironic point that the lessons of American involvement in Vietnam are not to be found in any analysis of the war by itself Rather he proposes a comparison of the Vietnam experience with seven other cases of Western intervention in communist insurgencies during the Cold War era China Indochina Greece the Philippines Malaya Cambodia and Laos Lomperis maintains that popular insurgencies are manifestations of crises in political legitimacy which occur as a result of the societal stresses caused by modernization Therefore he argues any intervention in a people's war will succeed or fail depending on how it affects this crisis The unifying theme in the cases Lomperis discusses is the power of land reform and electoral democracy to cement political legitimacy and therefore deflect revolutionary movements Applying this theory to the ongoing Sendero Luminoso insurgency in Peru Lomperis makes a qualified prediction of that conflict's outcome He concludes that a global trend toward democratization has produced a new era of people's rule

History of Europe from the Commencement of the French Revolution in M.DCC.LXXXIX to the Restoration of the Bourbons in M.DCCC.XV. Archibald Alison, 1841 *Small Countries in a Big Power World: The Belgian-Dutch Conflict at Versailles, 1919* H.P. van Tuyll, 2016-11-21 When a devastated Belgium emerged from World War I some of its leaders had high hopes that the upcoming negotiations would enable achievement of a long cherished goal annexing parts of the Netherlands lost in the final 1839 settlement which had established the country Belgium's strong historical and military arguments were bolstered by its courageous Great War image Yet the Dutch proved ready and able to launch an energetic counterattack which ultimately stymied the Belgian campaign This book explains why and how this happened and demonstrates that small states are active participants in their own destinies not just spectators or victims

Blood and Debt Miguel Angel Centeno, 2015-08-26 What role does war play in political development Our understanding

of the rise of the nation state is based heavily on the Western European experience of war Challenging the dominance of this model Blood and Debt looks at Latin America s much different experience as more relevant to politics today in regions as varied as the Balkans and sub Saharan Africa The book s illuminating review of the relatively peaceful history of Latin America from the late eighteenth through the early twentieth centuries reveals the lack of two critical prerequisites needed for war a political and military culture oriented toward international violence and the state institutional capacity to carry it out Using innovative new data such as tax receipts naming of streets and public monuments and conscription records the author carefully examines how war affected the fiscal development of the state the creation of national identity and claims to citizenship Rather than building nation states and fostering democratic citizenship he shows war in Latin America destroyed institutions confirmed internal divisions and killed many without purpose or glory

A Continuous State of War Maria Angela Diaz,2024-04-15 From 1845 to 1865 the Gulf of Mexico was at the center of American expansion and southern imperialism A Continuous State of War tells the story of several communities such as Galveston New Orleans and Pensacola as well as countries such as Mexico and Cuba to uncover the way that wars within the upper rim of the Gulf of Mexico facilitated American and southern attempts to conquer Latin American nations In the push for westward expansion that preceded the Civil War white southerners along with other Americans engaged in violent conquest in Latin America and the American West Through the wars that are chronicled here white southern concepts of race became more rigidly fixed Maria Angela Diaz covers several conflicts leading up to the Civil War with Mexicans Cubans and Native Americans She places the Civil War within this framework and follows the trajectory of relations with Latin America through the end of the Civil War and ex Confederates attempts to emigrate abroad Gulf Coast communities facilitated both the physical efforts to seize territory and the construction of the highly racialized imperialist ideas that reimaged Latin America as a region that could secure the South s future Yet the pursuit of that territory created a fluctuating and uncertain situation that shaped the choices of the diverse peoples who lived along the upper rim of the Gulf of Mexico in ways they did not expect
