understood conflict one of the most important to roil the American West Christgau's account of the war between white settlers and the Dakota Indians in Minnesota examines two communities torn by internal dissent and external threat whites and Native Americans equally traumatized by the short and violent war The book also delves into the aftermath during which thirty eight Dakota men were hanged without legal representation or the appearance of defense witnesses the largest mass execution in American history With its unusually nuanced perspective Birch Coulie brings a welcome measure of clarity and insight to a critical moment in the troubled history of the American West **Endangered Species Act, Washington, DC**
