*Under the Adorned Dome, Four Essays on the Arts of Iran and India* Yves Porter, 2023-09-29 These essays are the revised and updated version of four lectures given in the Yarshater Lecture Series at SOAS in London in 2013 They concern some aspects of the arts from pre modern Iran and India namely the making of Persian illustrated manuscripts the iconography of Kashan wares the use and re use of luster tiles in Ilkhanid Iran and the glazed tiles made in three Indian sultanates Delhi Bengal and Malwa These four topics share concepts of influence and impact although inflected on different modes The productions they embody represent many poles of influence even if working on different scales from the extensive diffusion of products techniques and systems to almost isolated productions

**Buddhism and Islam on the Silk Road** Johan Elverskog, 2011-06-06 In the contemporary world the meeting of Buddhism and Islam is most often imagined as one of violent confrontation Indeed the Taliban's destruction of the Bamiyan Buddhas in 2001 seemed not only to reenact the infamous Muslim destruction of Nalanda monastery in the thirteenth century but also to reaffirm the stereotypes of Buddhism as a peaceful rational philosophy and Islam as an inherently violent and irrational religion But if Buddhist Muslim history was simply repeated instances of Muslim militants attacking representations of the Buddha how had the Bamiyan Buddha statues survived thirteen hundred years of Muslim rule Buddhism and Islam on the Silk Road demonstrates that the history of Buddhist Muslim interaction is much richer and more complex than many assume This groundbreaking book covers Inner Asia from the eighth century through the Mongol empire and to the end of the Qing dynasty in the late nineteenth century By exploring the meetings between Buddhists and Muslims along the Silk Road from Iran to China over more than a millennium Johan Elverskog reveals that this long encounter was actually one of profound cross cultural exchange in which two religious traditions were not only enriched but transformed in many ways

**Nomads in the Middle East , Nomads in the Middle East** Beatrice Forbes Manz, 2021-12-02 A history of pastoral nomads in the Islamic Middle East from the rise of Islam through the middle periods when Mongols and Turks ruled most of the region to the decline of nomadism in the twentieth century Offering a vivid insight into the impact of nomads on the politics culture and ideology of the region Beatrice Forbes Manz examines and challenges existing perceptions of these nomads including the popular cyclical model of nomad settled interaction developed by Ibn Khaldun Looking at both the Arab Bedouin and the nomads from the Eurasian steppe Manz demonstrates the significance of Bedouin and Turco Mongolian contributions to cultural production and political ideology in

the Middle East and shows the central role played by pastoral nomads in war trade and state building throughout history Nomads provided horses and soldiers for war the livestock and guidance which made long distance trade possible and animal products to provision the region s growing cities

**Nomads as Agents of Cultural Change** Reuven Amitai,Michal Biran,2014-12-31 Since the first millennium BCE nomads of the Eurasian steppe have played a key role in world history and the development of adjacent sedentary regions especially China India the Middle East and Eastern and Central Europe Although their more settled neighbors often saw them as an ongoing threat and imminent danger barbarians in fact their impact on sedentary cultures was far more complex than the raiding pillaging and devastation with which they have long been associated in the popular imagination The nomads were also facilitators and catalysts of social demographic economic and cultural change and nomadic culture had a significant influence on that of sedentary Eurasian civilizations especially in cases when the nomads conquered and ruled over them Not simply passive conveyors of ideas beliefs technologies and physical artifacts nomads were frequently active contributors to the process of cultural exchange and change Their active choices and initiatives helped set the cultural and intellectual agenda of the lands they ruled and beyond This volume brings together a distinguished group of scholars from different disciplines and cultural specializations to explore how nomads played the role of agents of cultural change The beginning chapters examine this phenomenon in both east and west Asia in ancient and early medieval times while the bulk of the book is devoted to the far flung Mongol empire of the thirteenth and fourteenth centuries This comparative approach encompassing both a lengthy time span and a vast region enables a clearer understanding of the key role that Eurasian pastoral nomads played in the history of the Old World It conveys a sense of the complex and engaging cultural dynamic that existed between nomads and their agricultural and urban neighbors and highlights the non military impact of nomadic culture on Eurasian history Nomads as Agents of Cultural Change illuminates and complicates nomadic roles as active promoters of cultural exchange within a vast and varied region It makes available important original scholarship on the new turn in the study of the Mongol empire and on relations between the nomadic and sedentary worlds

**Bibliography of Art and Architecture in the Islamic World (2 Vol. Set)** Susan Sinclair,C. H. Bleaney,Pablo García Suárez,2012 Following the tradition and style of the acclaimed Index Islamicus the editors have created this new

Bibliography of Art and Architecture in the Islamic World The editors have surveyed and annotated a wide range of books and articles from collected volumes and journals published in all European languages except Turkish between 1906 and 2011 This comprehensive bibliography is an indispensable tool for everyone involved in the study of material culture in Muslim societies **Index Islamicus** ,1999 **Exodus** Annette Hoffmann,2020-01-20 The scientific debates on border crossings and cultural exchange between Judaism Christianity and Islam have much increased over the last decades Within this context however little attention has been given to the biblical Exodus which not only plays a pivotal role in the Abrahamic religions but also is a master narrative of a border crossing in itself Sea and desert are spaces of liminality and transit in more than just a geographical sense Their passage includes a transition to freedom and initiation into a new divine community an encounter with God and an entry into the Age of law The volume gathers twelve articles written by leading specialists in Jewish and Islamic Studies Theology and Literature Art and Film history dedicated to the transitional aspects within the Exodus narrative Bringing these studies together the volume takes a double approach one that is both comparative and intercultural How do Jewish Christian and Islamic texts and images read and retell the various border crossings in the Exodus story and on what levels do they interrelate By raising these questions the volume aims to contribute to a deeper understanding of contact points between the various traditions Tarih dergisi İstanbul Üniversitesi. Edebiyat Fakültesi,2008 Timothy May Pax Mongolica 7 8 15 6 *The Medieval Expansion of Europe* J. R. S. Phillips,1988 The exploits of Marco Polo and Eric the Red are well known today but less known are the many other explorers of the time and the extent of medieval European contact with other continents Between 1000 and 1500 world trade and travel flourished as never before as Europe looked for new worlds to explore and conquer This detailed introductory survey draws on a large and controversial body of evidence to chart the medieval European tradition of expansion exploring its roots in Classical ideas of the world and tracing its influence on the famous voyages of the Renaissance Phillips also provides fascinating discussion of the myths and hoaxes surrounding medieval exploration
