Childhood, Orphans and Underage Heirs in Medieval Rural England Miriam Müller, 2018-12-12 This book explores the experience of childhood and adolescence in later medieval English rural society from 1250 to 1450 Hit by major catastrophes the Great Famine and then a few decades later the Black Death this book examines how rural society coped with children left orphaned and land inherited by children and adolescents considered too young to run their holdings Using manorial court rolls accounts and other documents Miriam Müller looks at the guardians who looked after the children and the chattels and lands the children brought with them This book considers not just rural concepts of childhood and the training and schooling young peasants received but also the nature of supportive kinship networks family structures and the roles of lordship to offer insights into the experience of childhood and adolescence in medieval villages more broadly

The Court Rolls of Walsham Le Willows Suffolk Records Society, 1998 *Manorial Account Rolls and Rentals of Walsham Le Willows 1327 to 1559* Audrey McLaughlin, Mark Bailey, 2025 The Suffolk Records Society has already published three volumes on Walsham Le Willows This fourth volume featuring a good series of manorial accounts and rentals complements the court roll material by painting a more textured picture of life in late medieval Walsham through furnishing further details of its society and economy These include documents from the small lay manor of High Hall which was highly typical of medieval English lordships but hardly any sources have survived from such places The accounts and rentals provide insights into Walsham's agricultural practices including woodland management for the production of fuel the balance of crops and livestock the disposal of produce the remuneration of workers the consumption habits of harvest workers and local lords and the role of women in the management of the manorial estate There are insights into local tensions following the national political turmoil in the summer of 1450 back cover

Court Rolls of Elmley Castle, Worcestershire 1347-1564 Robert K. Field, 2004 Records of the manor court at Elmley Castle which provide ample evidence of the way a medieval community regulated its affairs and organised its agricultural work

Law and the Medieval Village Community Lorren Eldridge, 2023-06-30 This book expands on established doctrine in legal history and sets out a challenge for legal philosophers The English medieval village community offers a historical and philosophical lens on the concept of custom which challenges accepted notions of what law is The book traces the study of the medieval village community from early historical works in the nineteenth century through to current research It demonstrates that some law making can and has been bottom up in English law with community led decisionmaking having a particularly important role in the early common law The detailed consideration of law in the English village community reveals alternative ways of making and conceiving of law which are not dependent on state authority particularly in relation to customary and communal property rights Acknowledging this poses challenges for legal theory the legal positivism that dominates Western legal philosophy tends to reject custom as a source of law However this book argues that medieval customary law ought to be considered law if we are

ever going to fully understand law both then and now The book will be a valuable resource for researchers and academics working in the areas of Legal History Legal Theory and Jurisprudence

The Decline of Serfdom in Late Medieval England Mark Bailey, 2014 An exciting fresh look at one of the most important questions of medieval scholarship the decline of serfdom and its implications Scholars from various disciplines have long debated why western Europe in general and England in particular led the transition from feudalism to capitalism The decline of serfdom between c 1300 and c 1500 in England is central to this Transition Debate because it transformed the lives of ordinary people and opened up the markets in land and labour Yet despite its historical importance there has been no major survey or reassessment of decline of serfdom for decades Consequently the debate over its causes and its legacy to early modern England remains unresolved This dazzling study provides an accessible and up to date survey of the decline of serfdom in England applying a new methodology for establishing both its chronology and causes to thousands of court rolls from 38 manors located across the south Midlands and East Anglia It presents a ground breaking reassessment challenging many of the traditional interpretations of the economy and society of late medieval England and indeed of the very nature of serfdom itself Mark Bailey is High Master of St Paul's School and Professor of Later Medieval History at the University of East Anglia He has published extensively on the economic and social history of England between c 1200 and c 1500 including **Medieval Suffolk** 2007

Medieval Society and the Manor Court Zvi Razi, Richard Michael Smith, 1996 The records of manorial courts have been used increasingly as the principal source for the reconstruction of rural and small town society in medieval England They offer a unique source with which to investigate peasant demography family patterns the village community and economy the characteristics and instruments of customary law and the ways in which that law was perceived and exploited by landlords and tenants The essays in this collection provide novel approaches to all of these themes and are written by many of the historians who have pioneered the use of this source category in the last two decades In two introductory chapters the editors review the historiography of manorial court rolls and account for their origins as a distinctive record of customary law within the broad context of medieval European society A valuable appendix contains an inventory of the most

comprehensive unprinted manorial court roll series arranged systematically on a county to county basis detailing the repository in which they are located This book will serve as an essential reference tool for any serious study of medieval English rural society *Widows in Anglo-Saxon and Medieval Britain* Marie-Françoise Alamichel,2008 This volume provides a comprehensive study of widowhood in Medieval Britain based on literary and historical sources from the seventh to the 15th centuries It devotes much attention to family structures and to the legal and social aspects of inheritance Robin Hood David Crook,2020 Detailed research into documentary sources offers an exciting new identification of the real Robin Hood For over a century and a half scholars have debated whether or not the legend of Robin Hood was based on an actual outlaw and if so when and where he lived One view is that he was not a legend as such but a myth an idea rather than a person who could possibly be identified in historical records and placed in a real historical and geographical context Other writers have gone even further arguing that he is a literary concoction with no traceable original and that seeking to pin him down to a particular time and location is futile and unnecessary This survey begins by tracing the development of the legend and contemporary views about it between the thirteenth and early twenty first centuries taking account both of new interpretative literature on the subject and fresh discoveries from the author s own research in the early records of the English royal administration and common law It then gives a detailed account of the places that came to be associated with the legend and of evidence illustrating the importance of the outlaw s name in the development of English surnames The concluding chapters deal with the administration of criminal law in medieval England and the evidence that points to the possible origins of the legend in the activities of a notorious Yorkshire criminal tracked down and beheaded in the county in 1225 *Fourteenth Century England XIII* Gwilym Dodd,Helen Lacey,2025-02-11 Essays on a diverse range of topics presenting the latest research on themes of gender religion warfare the built environment and chronicle writing of the period This collection brings into dialogue scholarship on social religious economic military and political history offering exciting new insights into a range of topics based upon meticulous research into published and unpublished archival records Two studies reveal the influence of gendered norms and expectations at different ends of the social spectrum one focussing on peasant women charged with extramarital sex known as leyrwite the other on the martial achievements and expectations of Edward III Several essays examine patronage property investment and the built environment with actors ranging from the papacy to religious guilds and members of the gentry Further contributions provide new perspectives on conflict and violence a re examination of how the Peasants Revolt was recorded in the Anonimalle Chronicle a consideration of how armies were recruited at the time of civil war in 1321 22 and an investigation of the life and career of Henry Crystede an Englishman fighting in Ireland Wales and the Welsh in the Middle Ages Ralph A. Publications Worcestershire Historical Society,2004 **Pilgrims and Politics** Antón M. Pazos,2016-04-08 The objective of this book is to analyse the historical relationships between the phenomenon of Christian pilgrimage and political power within Europe from the Middle Ages up to the present day It establishes a discussion in which the twelve contributors to the volume can compare very different situations such as the medieval pilgrimages and politics in the Latin East as part of warfare and conflict resolution the significance and reality of pilgrimages in late medieval England or in Rome during the papacy of Innocent III the two way traffic pilgrimages in the Tuscan city of Lucca or the pilgrimages in Eastern European countries as an aspect of opposition to communist power A major focus is on the pilgrimages to Santiago de Compostela an important Christian sanctuary from the time of the discovery of the tomb of the apostle St James in the 9th century Topics covered include the Way of St James as seen through medieval Muslim sources the political reading of the apostolic cult as an ideological instrument of the propaganda of the Asturian monarchy Santa Maria de Roncesvalles as an example of political involvement in the assistance of the Jacobean pilgrims the Order of St John as protector of the medieval pilgrims to Santiago de Compostela or the nationalist use of the pilgrimages as an element of national unification and internal cohesion during the Spanish Civil War The final chapter provides a broader global perspective on pilgrimages up to present times Mills in the Medieval Economy John Langdon,2004-07 This book examines the evolution of mills whether powered by water wind animals or humans during an important era of English history It focuses not only on the structures themselves but also on the people who acted as entrepreneurs workers and customers for the industry Together they created one of the most recognizable and enduring features of medieval society Medieval Market Morality James Davis,2011-11-24 This important study examines the market trade of medieval England by providing a wide ranging critique of the moral and legal imperatives that underpinned retail trade James Davis shows how market goers were influenced not only by practical and economic considerations of price quality supply and demand but also by the moral and cultural environment within which such deals were conducted This book draws on a broad range of cross disciplinary evidence from the literary works of William Langland and the sermons of medieval preachers to state civic and guild laws Davis scrutinises everyday market behaviour through case studies of small and large towns using the evidence of manor and borough courts From these varied sources Davis teases out the complex relationship between morality law and practice and demonstrates that even the influence of contemporary Christian ideology was not necessarily incompatible with efficient and profitable everyday commerce Peasant and Community in Medieval England, 1200-1500 P. Schofield,2002-12-17 In recent years work on the medieval English peasant has tended to stress the degree of interaction between the village and the world beyond its bounds This book not only provides an overview of this research but also develops this approach Phillipp R Schofield describes the traditional

world of the peasant with attention given to such issues as relations between lord and tenant and the nature of the peasant family and places the peasantry of the late middle ages within the wider political legal ecclesiastical and commercial world of the medieval community Suffolk Records Society Ray Lock,1998 *The Oxford Dictionary of Family Names in Britain and Ireland* Patrick Hanks,Richard Coates,Peter McClure,2016-11-17 Containing entries for more than 45 000 English Scottish Welsh Irish Cornish and immigrant surnames The Oxford Dictionary of Family Names in Britain and Ireland is the ultimate reference work on family names of the UK The Dictionary includes every surname that currently has more than 100 bearers Each entry contains lists of variant spellings of the name an explanation of its origins including the etymology lists of early bearers showing evidence for formation and continuity from the date of formation down to the 19th century geographical distribution and where relevant genealogical and bibliographical notes making this a fully comprehensive work on family names This authoritative guide also includes an introductory essay explaining the historical background formation and typology of surnames and a guide to surnames research and family history research Additional material also includes a list of published and unpublished lists of surnames from the Middle Ages to the present day **Wind & Water in the Middle Ages** Steven A.
