Clarke, Abel S. Knottnerus, Eefje de Volder, 2016-10-27 By investigating how the International Criminal Court ICC is portrayed in Africa this book highlights how perceptions of justice are multilayered *Occupation in International Law* Eliav Liebllich, Eyal Benvenisti, 2023-01-08 This addition to the Elements of International Law series provides an introduction to the framework and dilemmas of the international law of occupation **Doing Justice to Court Interpreting** Miriam Shlesinger, Franz Pöchhacker, 2010 First published as a Special Issue of Interpreting 10 1 2008 and complemented with two articles published in Interpreting 12 1 2010 this volume provides a panoramic view of the complex and uniquely constrained practice of court interpreting In an array of empirical papers the nine authors explore the potential of court interpreters to make or break the proceedings from the perspectives of the minority language speaker and of the other participants The volume offers thoughtful overviews of the tensions and conflicts typically associated with the practice of court interpreting It looks at the attitudes of judicial authorities towards interpreting and of interpreters towards the concept of a code of ethics With further themes such as the interplay of different groups of linguists at the Tokyo War Crimes Tribunal and the language rights of indigenous communities it opens novel perspectives on the study of interpreting at the interface between the letter of the law and its implementation *The Human Right to Dominate* Nicola Perugini, Neve Gordon, 2015 At the turn of the millennium a new phenomenon emerged conservatives who just decades before had rejected the expanding human rights culture began to embrace human rights in order to advance their political goals In this book Nicola Perugini and Neve Gordon account for how human rights generally conceived as a counter hegemonic instrument for righting historical injustices are being deployed to further subjugate the weak and legitimize domination Using Israel Palestine as its main case study The Human Right to Dominate describes the establishment of settler NGOs that appropriate

human rights to dispossess indigenous Palestinians and military think tanks that rationalize lethal violence by invoking human rights. The book underscores the increasing convergences between human rights NGOs, security agencies, settler organizations and extreme right nationalists showing how political actors of different stripes champion the dissemination of human rights and mirror each other's political strategies. Indeed, Perugini and Gordon demonstrate the multifaceted role that this discourse is currently playing in the international arena: on the one hand, human rights have become the lingua franca of global moral speak while on the other they have become reconstrued as a tool for enhancing domination.

Freedom is a Place Ron J. Smith, 2020. *Freedom Is a Place* gives readers a snapshot of everyday life in the 1967 oPt occupied Palestinian territories. A project of subaltern geopolitics, it helps both new and seasoned scholars of the region better understand occupation, its purpose, varied manifestations and on the ground functions. This personal study brings to light how large scale geopolitics play havoc with the lives of ordinary people and how people resist and endure. Using data collected over a decade of fieldwork, Ron J. Smith situates the everyday realities of the occupation within the larger project of Zionism. He explores the attempts to codify a temporary condition like occupation into permanency. Smith insists that occupation be understood as a changing process, not a singular event, and to explain its longevity he argues that we must uncover the particular geographical and political dynamism at hand. Through careful use of interviews and participant observation, Smith reveals how the varied practices of occupation transform daily life into a prison. He also helps bring to light everyday narratives illustrating how people mobilize claims to freedom and sovereignty to maintain life under occupation. *Freedom Is a Place* uncovers how lessons from Israel's seventy plus years occupation are used by other states to oppress restive populations. At the same time, Smith identifies how these lessons also can be mobilized to create new spaces and strategies toward achieving liberation.

Opposing Perspectives on the Drone Debate B. Strawser, L. Hajjar, S. Levine, F. Naqvi, J. Witt, 2014-06-17. Does the lethal use of drones pose any new or difficult moral problems? Or is the controversy over these weapons merely a distraction from deeper questions regarding the justice of war and the United States' bellicose foreign policy? *Opposing Perspectives on the Drone Debate* pulls no punches in answering these questions as five scholars square off in a lively debate over the ethics of drones and their contentious use in a point counterpoint debate. The contributing authors are some of the foremost thinkers in international affairs today, spanning the disciplines of philosophy, sociology, political science and law. Topics debated range from the US's contested policy of so-called targeted killing in Pakistan's tribal regions to fears over the damaging effects such weaponry has on our democratic institutions to the more abstract moral questions raised by killing via remote control, such as the duty to capture over kill.

Lawyers in Conflict and Transition Kieran McEvoy, Louise Mallinder, Anna Bryson, 2022-03-17. Studies what lawyers do in challenging contexts of conflict, authoritarianism and the transition from violence.

The Writing on the Wall Aeyal Gross, 2017-04-06. A critical analysis of Israel's control of the Occupied Palestinian Territory, advocating a normative and functional approach.

Beyond Occupation Virginia

Tilley,2012-09-06 Is Israel following international law This collection looks at three contentious terms that arise in contemporary arguments about Israel s practices towards Palestinians occupation colonialism and apartheid and how they are manipulated by the Israeli state These essays present conclusive evidence that Israel s administration of the Palestinian territories is consistent with colonialism and apartheid Moreover these practices are deliberate Israeli state policies which are imposed on the Palestinian population under military occupation Beyond Occupation raises serious implications for the legality and legitimacy of Israel s continuing occupation highlighting the responsibility of the entire international community

Torture and Democracy Darius Rejali,2009-06-08 This is the most comprehensive and most comprehensively chilling study of modern torture yet written Darius Rejali one of the world s leading experts on torture takes the reader from the late nineteenth century to the aftermath of Abu Ghraib from slavery and the electric chair to electrocution in American inner cities and from French and British colonial prison cells and the Spanish American War to the fields of Vietnam the wars of the Middle East and the new democracies of Latin America and Europe As Rejali traces the development and application of one torture technique after another in these settings he reaches startling conclusions As the twentieth century progressed he argues democracies not only tortured but set the international pace for torture Dictatorships may have tortured more and more indiscriminately but the United States Britain and France pioneered and exported techniques that have become the lingua franca of modern torture methods that leave no marks Under the watchful eyes of reporters and human rights activists low level authorities in the world s oldest democracies were the first to learn that to scar a victim was to advertise iniquity and invite scandal Long before the CIA even existed police and soldiers turned instead to clean techniques such as torture by electricity ice water noise drugs and stress positions As democracy and human rights spread after World War II so too did these methods Rejali makes this troubling case in fluid arresting prose and on the basis of unprecedented research conducted in multiple languages and on several continents begun years before most of us had ever heard of Osama bin Laden or Abu Ghraib The author of a major study of Iranian torture Rejali also tackles the controversial question of whether torture really works answering the new apologists for torture point by point A brave and disturbing book this is the benchmark against which all future studies of modern torture will be measured **Political Power and Social Theory** Diane E.

Women and War in the Middle East Doctor Nicola Pratt,Doctor Nadje Al-Ali,2013-07-04 Women and War in the Middle East provides a critical examination of the relationship between gender and transnationalism in the context of war peace building and post conflict reconstruction in the Middle East Critically examining the ways in which the actions of various local and transnational groups including women s movements diaspora communities national governments non

governmental actors and multilateral bodies interact to both intentionally and inadvertently shape the experiences of women in conflict situations and determine the possibilities for women's participation in peace building and post conflict reconstruction as well as the longer term prospects for peace and security. The volume pays particular attention to the ways in which gender roles, relations and identities are constructed, negotiated and employed within transnational social and political fields in the conflict and post conflict situations and their particular consequences for women. Contributions focus on the two countries with the longest experiences of war and conflict in the Middle East and which have been subject to the most prominent international interventions of recent years that is Iraq and the Occupied Palestinian Territories. Issues addressed by contributors include the impact of gender mainstreaming measures by international agencies and NGOs upon the ability of women to participate in peace building and post conflict resolution, the consequences for gender relations and identities of the US led invasion and occupation of Iraq and how transnational feminist movements can most effectively support peace building and women's rights in the region. Based entirely on original empirical research, *Women and War in the Middle East* brings together some of the foremost scholars in the areas of feminist international relations, feminist international political economy, anthropology, sociology, history and Middle East studies.

The War Lawyers Craig Jones, 2020. Over the last 20 years the world's most advanced militaries have invited a small number of military legal professionals into the heart of their targeting operations spaces which had previously been exclusively for generals and commanders. These professionals, trained and hired to give legal advice on an array of military operations, have become known as war lawyers. *The War Lawyers* examines the laws of war as applied by military lawyers to aerial targeting operations carried out by the US military in Iraq and Afghanistan and the Israel military in Gaza. Drawing on interviews with military lawyers and others, this book explains why some lawyers became integrated in the chain of command whereby military targets are identified and attacked, whether by manned aircraft, drones and/or ground forces and with what results. This book shows just how important law and military lawyers have become in the conduct of contemporary warfare and how it is understood. Jones argues that circulations of law and policy between the US and Israel have bolstered targeting practices considered legally questionable, contending that the involvement of war lawyers in targeting operations enables legitimisation and sometimes even extends military violence.
