Courts And The Media:

Media Freedom and Contempt of Court Eric Barendt, 2017-07-05 The essays discuss the restrictions imposed by contempt of court and other laws on media freedom to attend and report legal proceedings Part I contains leading articles on the open justice principle They examine the extent to which departures from that principle should be allowed to protect the rights of parties in particular the accused in criminal proceedings to a fair trial and their interest in being rehabilitated in society after proceedings have been concluded The essays in Part II examine the topical issue of whether open justice entails a right to film and broadcast legal proceedings The articles in Part III are concerned with the application of contempt of court to prejudicial media publicity they discuss whether it is possible to prevent prejudice without sacrificing media freedom Another aspect of media freedom and contempt of court is canvassed in Part IV whether journalists should enjoy a privilege not to reveal their sources of information

The Media, the Court, and the Misrepresentation Rorie Spill Solberg, Eric N. Waltenburg, 2014-12-02 The Court's decisions are interpreted and disseminated via the media During this process the media paints an image of the Court and its business Like any artist the media has license regarding what to cover and the amount of attention devoted to any aspect of the Court and its business Some cases receive tremendous attention while others languish on the back pages or are ignored These selection effects create a skewed picture of the Court and its work and might affect public attitudes toward the Court Indeed studies of media coverage of other governmental institutions reveal that when and how their policy decisions are covered has implications for the public's understanding of compliance with support for and cynicism about the policy This book uncovers and describes this coverage and compares it to the confirmation hearings the Court's actual work even its members Rorie Spill Solberg and Eric N Waltenburg analyze media coverage of nominations and confirmation hearings the justices' extra-curricular activities and their retirements deaths and the Court's opinions and compare this coverage to analyses of confirmation transcripts and the Court's full docket Solberg and Waltenburg contend that media now cover the Court and its personnel more similarly to its coverage of other political institutions Journalists still regurgitate a mythology supported by the justices a cult of the robe wherein unbiased and apolitical judges mechanically base their decisions upon the law and the Constitution Furthermore they argue the media also focus on the cult of personality wherein the media emphasize certain attributes of the justices and their work to match the public's preferences for subject matter and content The media's portrayal then may undercut the Court's legitimacy and its reservoir of good will

Constitutional Courts, Media and Public Opinion Angioletta Sperti, 2023-11-16 This book explores how constitutional courts have transformed communication and overcome their reluctance to engage in direct dialogue with citizens How has the information revolution affected the relationship of constitutional courts with the public and the media The book looks in detail at the communication strategies of the US Supreme Court the Supreme Court of Canada and in Europe the German Federal Constitutional Tribunal the French Conseil Constitutionnel and the Italian Constitutional Court arguing that when it comes to the relationship between courts and the media different jurisdictions share many similarities It focuses on the consequences of the communication revolution of courts both in terms of their relationship with public opinion and of the legitimacy of judicial review of legislation Some constitutional courts have attracted criticism by engaging in proactive communication and therefore arguably yielding to the temptation of public support The book argues that objections to the developing institutional communications employed by courts come from a preconceived notion of public opinion It considers the burden the communication revolution has placed

on constitutional courts to achieve a balance between transparency and seclusion proximity and distance from public opinion It puts forward important arguments for how this balance can be achieved The book will interest scholars in constitutional law and public comparative law sociologists historians political scientists and scholars of media law and communication studies
