**Communal Discord, Child Abduction, and Rape in the Later Middle Ages** J. Goldberg, 2007-12-25 Did medieval women have the power to choose This is a question at the heart of this book which explores three court cases from Yorkshire in the decades after the Black Death Alice de Rouclif was a child heiress made to marry the illegitimate son of the local abbot and then abducted by her feudal superior Agnes Grantham was a successful businesswoman ambushed and assaulted in a forest whilst on her way to dine with the Master of St Leonard s Hospital Alice Brathwell was a respectable widow who attracted the attentions of a supposedly aristocratic conman These are their stories

**Communities & Courts in Britain, 1150-1900** Christopher Brooks, Michael Lobban, 1997-01-01 The essays in Communities and Courts in Britain 1150 1900 all reflect the wider concept of legal history how legal processes fitted into the social and political life of the community and how courts and other legal processes were used by contemporaries In doing so they aim both to justify the study of legal history in its own right and to show how legal records including those of a variety of central and local courts can be used to further our understanding of a wide range of social commercial popular and political history English Political Culture in the Fifteenth Century Michael Hicks, 2003-09-02 A new and original study of how politics worked in late medieval England throwing new light on a much discussed period in English history

**Women in Christianity in the Medieval Age** Laura Kalas, Roberta Magnani, 2024-12-10 This volume offers a comprehensive introduction to and investigation of the multivocality of women s experience in the Middle Ages In medieval Europe women saw their role in the Christian Church and society progressively confined to conflicting models of femininity epitomised by the dichotomy of Eve Mary Classical views of gender predicated on misogynistic dichotomies which confined women to matter and the corruption of the flesh were consolidated in powerful male dominated clerical institutions and widely disseminated Towards the end of the Middle Ages however women s corporeality and somatic spirituality contributed to and influenced burgeoning modes of piety centred around the cult of the Virgin Mary and the veneration of the suffering body of Christ on the Cross This shift in devotional practices afforded women as bodily beings the space for an increased level of self expression self realisation and authority Ranging from philosophical and theological enquiry to education and art as well as medical sciences and popular beliefs the essays in this collection account for the complexities and richness of the conceptualisations and lived experiences of medieval Christian women The book will be especially relevant to students and scholars of religion and history with an interest in medieval studies and gender Whilst expounding the key strands of thinking in the field it engages with and

contributes to some of the latest scholarly research

### **Crime, Gender and Social Order in Early Modern England**

Garthine Walker, 2003-06-12 An extended study of gender and crime in early modern England It considers the ways in which criminal behaviour and perceptions of criminality were informed by ideas about gender and order and explores their practical consequences for the men and women who were brought before the criminal courts Dr Walker's innovative approach demonstrates that contrary to received opinion the law was often structured so as to make the treatment of women and men before the courts incommensurable For the first time early modern criminality is explored in terms of masculinity as well as femininity Illuminating the interactions between gender and other categories such as class and civil war have implications not merely for the historiography of crime but for the social history of early modern England as a whole This study therefore goes beyond conventional studies and challenges hitherto accepted views of social interaction in the period

### Trade, Money, and Power in Medieval England

Pamela Nightingale, 2023-05-31 The sixteen articles in this collection analyse the contribution made by overseas trade and the wealth in coin which it created to the development of the English economy and locate this in an European wide setting In time they range from the late Anglo Saxon period up to the advent of the Tudors The papers include general surveys of the importance of coinage and credit in the rise and decline of a market economy and of the way that credit functioned in a society that lacked reliable supplies of bullion and which was also subject to the scourges of warfare and devastating disease They illustrate too how from the tenth century the English crown used its control and exploitation of the coinage as part of a sophisticated fiscal system which helped create the precocious power of the English state The author further shows how the wool trade altered the geographical pattern of wealth and enriched peasants landowners and merchants while the competing interests involved in the trade also cause political conflicts in Parliament and in the government of London during the period when London was establishing itself as the political capital and the financial centre of the kingdom

### **Laws and Societies in the Canadian Prairie West, 1670-1940**

Louis A. Knafla, Jonathan Swainger, 2011-11-01 Laws and Societies in the Canadian Prairie West 1670 1940 examines the legal history of the north west frontier from the earliest years of European Native contact in the seventeenth century to the mid 1900s Challenging myths about a peaceful west and prairie exceptionalism the book explores the substance of prairie legal history and the degree to which the region's mentality is rooted in the historical experience of distinctive prairie peoples The chapters written by a cross section of established and emerging scholars working in the allied fields of law legal history sociology and criminology focus on what is distinctive in prairie legal culture By approaching the issue from a variety of perspectives those

of colonial administrators fur company employees Native peoples women men entrepreneurs judges magistrates and the police among others the authors find evidence of a conscious effort to apply broad non regional experiences to seemingly familiar local issues The ways in which prairie peoples perceived themselves and their relationships to a wider world were directly framed by notions of law and legal remedy shaped by the course and themes of prairie history Legal history is not just about black letter law It is also deeply concerned with the ways in which people affect and are affected by the law in their daily lives By examining how central and important the law has been to individuals communities and societies in the Canadian Prairies this book makes an original contribution

**Traditions and Transformations in Late Medieval England** Douglas Biggs, Sharon Michalove, Compton Reeves, 2021-10-25 This volume deals with political military social architectural and literary aspects of fifteenth century England The essays contained in the volume range across the century from some of the leading scholars currently working in the period Contributors Mark Addison Amos

Douglas Biggs Kelly DeVries Matthew Boyd Goldie Virginia Henderson Gwyn Meirion Jones Michael Jones Helen Maurer Sharon D Michalove Michael D Myers Anthony J Pollard A Compton Reeves and Joel Rosenthal      **Outlaws in Medieval and Early Modern England** John C. Appleby, Paul Dalton, 2016-05-13 With some notable exceptions the subject of outlawry in medieval and early modern English history has attracted relatively little scholarly attention This volume helps to address this significant gap in scholarship and encourage further study of the subject by presenting a series of new studies based on original research that address significant features of outlawry and criminality over an extensive period of time The volume casts important light on and raises provocative questions about the definition ambiguity variety causes function adaptability impact and representation of outlawry during this period It also helps to illuminate social and governmental attitudes and responses to outlawry and criminality which involved the interests of both church and state From different perspectives the contributions to the volume address the complex relationships between outlaws the societies in which they lived the law and secular and ecclesiastical authorities and in doing so reveal much about the strengths and limitations of the developing state in England In terms of its breadth and the compelling interest of its subject matter the volume will appeal to a wide audience of social legal political and cultural historians      **Forensic Medicine and Death Investigation in Medieval England** Sara M. Butler, 2014-08-21 England has traditionally been understood as a latecomer to the use of forensic medicine in death investigation lagging nearly two hundred years behind other European authorities Using the coroner's inquest as a lens this book hopes to offer a fresh perspective on the process of death investigation in medieval England The central premise of this book is that medical practitioners did participate in death investigation although not in every inquest or even most and not necessarily in those investigations where we today would deem their advice most pertinent The medieval relationship with death and disease in particular shaped coroners and their jurors understanding of the inquest's medical needs and led them to conclusions that can only be understood in context of the medieval world's holistic approach to health and medicine Moreover while the English resisted Southern Europe's penchant for autopsies at times their findings reveal a solid understanding of internal medicine By studying cause of death in the coroners reports this study sheds new light on subjects such as abortion by assault bubonic plague cruentation epilepsy insanity senescence and unnatural death      **Liberties and Identities in the Medieval British Isles** Michael Prestwich, 2008 In depth examinations of the role played by liberties across the British Isles      **Medieval Women and the Law** Noël James Menuge, 2003 Legal records illuminate women's use of legal processes with regard to the making of wills the age of consent rights concerning marriage and children women as traders etc Determined and largely successful effort to read behind and alongside legal discourses to discover women's voices and women's feelings It adds usefully to the wider debate on women's role in medieval society **ENGLISH HISTORICAL REVIEW** What is really new here is the ways in which the authors approach the history of the law they use some decidedly non legal texts to examine legal history they bring together historical and literary sources and they debunk the view that

medieval laws had little to say about women or that medieval women had little legal agency ALBION The legal position of the late medieval woman has been much neglected and it is this gap which the essays collected here seek to fill They explore the ways in which women of all ages and stations during the late middle ages c 1300 c 1500 could legally shift for themselves and how and where they did so Particular topics discussed include the making of wills the age of consent rights concerning marriage care custody and guardianship with particular emphasis on the rights of a mother attempting to gain custody of her own children within the court system women as traders women as criminals prostitution the rights of battered women within the courts the procedures women had to go through to gain legal redress and access rape and women within guilds

**Writing** Carolyn Dinshaw, David Wallace, 2003-05-22 The Cambridge Companion to Medieval Women's Writing seeks to recover the lives and particular experiences of medieval women by concentrating on various kinds of texts the texts they wrote themselves as well as texts that attempted to shape limit or expand their lives The first section investigates the roles traditionally assigned to medieval women as virgins widows and wives it also considers female childhood and relations between women The second section explores social spaces including textuality itself for every surviving medieval manuscript bespeaks collaborative effort It considers women as authors as anchoresses dead to the world and as preachers and teachers in the world staking claims to authority without entering a pulpit The final section considers the lives and writings of remarkable women including Marie de France Heloise Joan of Arc Julian of Norwich Margery Kempe and female lyricists and romancers whose names are lost but whose texts survive
