Bibliographic Annual in Speech Communication ,1974 *Love American Style* Kimberly Freeman,2004-03-01 A popular subject in sociology and cultural studies divorce has until recently been overlooked by literary critics Spanning nearly a century during which the divorce rate skyrocketed Love American Style traces the treatment of divorce in the American novel This book draws upon popular sociological political and architectural history to illustrate how divorce reflects conflicting ideologies and notions of American identity Focusing primarily on work by William Dean Howells Edith Wharton Mary McCarthy and John Updike Kimberly Freeman delineates a system of tropes particular to divorce in American novels such as the association of divorce with the West and modernity the dismantling of the home and the disruption of the

boundary between the public and the private These tropes suggest a literary tradition of love marriage and divorce that is central to twentieth century American fiction Offering an explanation for both the treatment of divorce in the American novel as well as its predominance in American culture this book should appeal to scholars of American literature and popular culture or anyone interested in how divorce has become so American The Descent of Love Bert Bender,2015-11-16 Upon its publication in 1871 Charles Darwin s *The Descent of Man and Selection in Relation to Sex* sent shock waves through the scientific community and the public at large In an original and persuasive study Bert Bender demonstrates that it is this treatise on sexual selection rather than any of Darwin s earlier works on evolution that provoked the most immediate and vigorous response from American fiction writers These authors embraced and incorporated Darwin s theories insights and language creating an increasingly dark and violent view of sexual love in American realist literature In *The Descent of Love* Bender carefully rereads the works of William Dean Howells Henry James Elizabeth Stuart Phelps Sarah Orne Jewett Kate Chopin Harold Frederic Charles W Chesnutt Edith Wharton and Ernest Hemingway teasing from them a startling but utterly convincing preoccupation with questions of sexual selection Competing for readership as novelists who best grasped the real nature of human love these writers also participated in a heated social debate over racial and sexual differences and the nature of sex itself Influenced more by *The Descent of Man* than by *The Origin of Species* Bender s novelists built upon Darwin s anthropological and zoological materials to anatomize their character s courtship behavior returning consistently to concerns with physical beauty natural dominance and the power to select a mate Bringing the resources of the history of science and intellectual history to this the first full length study of the impact of Darwin s theories in American literature Bender revises accepted views of social Darwinism American literary realism and modernism in American literature forever changing our perceptions of courtship and sexual interaction in American fiction from 1871 to 1926 and beyond *Faith Without Belief* Derek S.
