Americanization Syndrome Robert A. Carlson, 2022-11-16 The Americanization Syndrome 1987 examines the historical role of education in the process of Americanization It argues that beginning with seventeenth century puritan leaders such as John Winthrop and Cotton Maher the pattern of American education has been not the promotion of a blend of different cultures but the indoctrination of norms of belief of religion politics and economics and an explicit discouragement of cultural variety It traces the political role of education at key junctures of American history after Independence in the reconstruction of the South after the Civil War in the establishment of settlement houses and the use of scientific management techniques by employers The author focuses on the period 1900 1925 when new waves of immigrants from southern and eastern Europe led to a new drive for orthodoxy *The Southern literary messenger* ,1859 *The Yale Literary Magazine* ,1859

assumptions that artworks created by African American artists necessarily reflect African American themes and The Death of Cleopatra in relation to broader problems of reading art as a reflection of identity History of Leadville and Lake County, Colorado Don L. Griswold, 1996
