Hollywood's African American Films Ryan Jay Friedman,2011-07-27 In 1929 and 1930 during the Hollywood studios conversion to synchronized sound film production white controlled trade magazines and African American newspapers celebrated a vogue for Negro films Hollywood s African American Films argues that the movie business turned to black musical performance to both resolve technological and aesthetic problems introduced by the medium of talking pictures and at the same time to appeal to the white Broadway audience that patronized their most lucrative first run theaters Capitalizing on highbrow associations with white slumming in African American cabarets and on the cultural linkage between popular black musical styles and natural acoustics studios produced a series of

African American cast and white cast films featuring African American sequences Ryan Jay Friedman asserts that these transitional films reflect contradictions within prevailing racial ideologies arising most clearly in the movies treatment of African American characters decisions to migrate Regardless of how the films represent these choices they all prompt elaborate visual and narrative structures of containment that tend to highlight rather than suppress historical tensions surrounding African American social mobility Jim Crow codes and white exploitation of black labor The Bicentennial of the United States of America American Revolution Bicentennial Administration,1977 *Race and Utopian Desire in American Literature and Society* Patricia Ventura,Edward K. Chan,2019-10-12 Bringing together a variety of scholarly voices this book argues for the necessity of understanding the important role literature plays in crystallizing the ideologies of the oppressed while exploring the necessarily racialized character of utopian thought in American culture and society Utopia in everyday usage designates an idealized fantasy place but within the interdisciplinary field of utopian studies the term often describes the worldviews of non dominant groups when they challenge the ruling order In a time when white supremacy is reasserting itself in the US and around the world there is a growing need to understand the vital relationship between race and utopia as a resource for resistance Utopian literature opens up that relationship by envisioning and negotiating the prospect of a better future while acknowledging the brutal past The collection fills a critical gap in both literary studies which has largely ignored the issue of race and utopia and utopian studies which has said too little about race **Portraits of Conflict** Bobby Leon Roberts,Carl H. scholars from a wide variety of disciplines the book contextualizes the increase of both white ethnonationalism and social and economic inequality that mark the US in the 2020s **America's Forgotten Constitutions** Robert L. Tsai, 2014-04-29

American Self Images Arthur H Miller, Bruce E Gronbeck, 2019-06-26 This volume explores a central political paradox why American scholars journalists and citizens periodically question the viability of their presidential electoral system and yet believe that presidential elections are our best hope for tomorrow The book argues that the key to understanding this paradox lies in the concept of self image exploring relationships between campaign activities and political culture After presenting an introduction to the history of presidential campaigning and a theory of political image the book arranges essays in three parts images centered on candidates mass media and the public A final essay assesses explanations of the contrasts between the 1988 and 1992 elections and suggests tomorrow's research agenda **Writing America** Katherine Wood (editor of Writing America.), Virginia Cohen, 1999 **USPTO Image File Wrapper Petition Decisions 0056 ,**
