Crack In The Cosmic Egg New Constructs Of Mind And Reality:

The Crack in the Cosmic Egg Joseph Chilton Pearce, 2002-08-01 The classic work that shaped the thought of a generation with its powerful insights into the true nature of mind and reality Defines culture as a cosmic egg structured by the mind's drive for logical ordering of its universe Provides techniques allowing individuals to break through the vicious circle of logic based systems to attain expanded ways of creative living and learning The sum total of our notions of what the world is and what we perceive its full potential to be form a shell of rational thought in which we reside This logical universe creates a vicious circle of reasoning that robs our minds of power and prevents us from reaching our true potential To step beyond that circle requires a centering and focus that today's society assaults on every level Through the insights of Teilhard Tillich Jung Jesus Carlos Castaneda and others Joseph Chilton Pearce provides a mode of thinking through which imagination can escape the mundane shell of current construct reality and leap into a new phase of human evolution This enormously popular New Age classic is finally available again to challenge the assumptions of a new generation of readers and help them develop their potential through new creative modes of thinking With a masterful synthesis of recent discoveries in physics biology and psychology Pearce reveals the extraordinary relationship of mind and reality and nature's blueprint for a self transcending humanity

Decentralized Economic Social Organization Reed Camacho Kinney, 2012-04-02 Representational government is not authentic democracy The American Constitution cannot defend us from socioeconomic domination by centralized power Independence means that people organize among themselves in order to meet all of their existential needs which include more than preserving corporal survival It means actualizing a better civil and civic organization and adding to that a civic economic organization explained in my other writings in order to afford every child the support needed to grow as individuated people The genius my father contributed is the means of making consensus based decision making processes a structured

organization in conjunction with mutual banking and its production based economy which as an organization must expand or perish That inbuilt expansive component is what distinguishes DESO from all other attempts to create a better lifestyle By forcing decentralization to expand as a structural component consequent of consensus based organization and its mutual banking and its production based economy it will compete with mass centrist society for members because living in real sovereign community provides a better quality of life a better culture I am encouraged that there are people really interested in making this project move into its actualization and that eventuality is nearing My blog <http://decentralizationblog.wordpress.com>
