Contemporary Financial Management R. Charles Moyer, James R. McGuigan, William J. Kretlow, 2008-02-18

Financial Management Jim McMenemy, 2002-09-11 Finance is a notoriously difficult core subject for business undergraduates which many find difficult to understand. The area has been dominated by large and complex introductory texts often from the US which many lecturers find too detailed and unwieldy. This carefully developed and researched text will fill this gap by providing a succinct modular UK focused introduction to the subject of financial management. Quality controlled by an academic review panel, the content and approach has been rigorously developed to answer the needs of non-finance students. The user-friendly features and design will be of great appeal to the many undergraduates who find finance a difficult subject. Examples, models, formulas and exercises are lucidly and clearly presented, supported by strong pedagogical features: learning objectives, worked examples, key learning points, further reading, practical assignments, references, case studies and teacher's guide. This ensures that Financial Management will prove the most accessible text for business and finance students.

Fundamentals of Financial Management Eugene F. Brigham, Joel F. Houston, 1998 When the book was first published more than 20 years ago, our intent was to write an introductory finance text that students could understand. Today the book has become the leading undergraduate finance text. The book is intended for use in the introductory finance course. The key chapters can be covered in a one-term course or supplemented with cases and some
