Islam, Science, and the Challenge of History Ahmad Dallal, 2010-05-18 In this wide ranging and masterly work Ahmad Dallal examines the significance of scientific knowledge and situates the culture of science in relation to other cultural forces in Muslim societies He traces the ways the realms of scientific knowledge and religious authority were delineated historically For example the emergence of new mathematical methods revealed that many mosques built in the early period of Islamic expansion were misaligned relative to the Ka ba in Mecca this misalignment was critical because Muslims must face Mecca during their five daily prayers The realization of a discrepancy between tradition and science often led to demolition and rebuilding and most important to questioning whether scientific knowledge should take precedence over religious authority in a matter where their realms clearly overlapped Page 2 of cover

**The Ulama in Contemporary Islam** Muhammad Qasim Zaman, 2010-12-16 From the cleric led Iranian revolution to the rise of the Taliban in Afghanistan many people have been surprised by what they see as the modern reemergence of an antimodern phenomenon This book helps account for the increasingly visible public role of traditionally educated Muslim religious scholars the ulama across contemporary Muslim societies Muhammad Qasim Zaman describes the transformations the centuries old culture and tradition of the ulama have undergone in the modern era

transformations that underlie the new religious and political activism of these scholars In doing so it provides a new foundation for the comparative study of Islam politics and religious change in the contemporary world While focusing primarily on Pakistan Zaman takes a broad approach that considers the Taliban and the ulama of Iran Egypt Saudi Arabia India and the southern Philippines He shows how their religious and political discourses have evolved in often unexpected but mutually reinforcing ways to redefine and enlarge the roles the ulama play in society Their discourses are informed by a longstanding religious tradition of which they see themselves as the custodians But these discourses are equally shaped by and contribute in significant ways to contemporary debates in the Muslim public sphere This book offers the first sustained comparative perspective on the ulama and their increasingly crucial religious and political activism It shows how issues of religious authority are debated in contemporary Islam how Islamic law and tradition are continuously negotiated in a rapidly changing world and how the ulama both react to and shape larger Islamic social trends Introducing previously unexamined facets of religious and political thought in modern Islam it clarifies the complex processes of religious change unfolding in the contemporary Muslim world and goes a long way toward explaining their vast social and political ramifications
