Dorff, the Sol and Anne Dorff Distinguished Professor of Philosophy and Rector of American Jewish University in Los Angeles, is one of today's leading Jewish ethicists. Writing extensively on the intersection of law, morality, science, religion, and medicine, Dorff offers an authoritative and non-Orthodox interpretation of Jewish law. As a leader in the Rabbinical Assembly's Committee on Jewish Law and Standards, he has shaped the religious practices of Conservative Jews. In serving on national advisory committees and task forces, he has helped to articulate a distinctive Jewish voice on contested bioethical and biomedical issues. An analytic philosopher by training, Dorff has endorsed pluralism, arguing that Jewishness best flourishes in the context of American pluralism, and he has worked closely with non-Jews to advance religious pluralism in America.

Conservative Judaism Elliot N. Dorff, 1977 *Faith, Morals, and Money* Edward D. Zinbarg, 2005-01-01 Most books on business ethics approach the subject philosophically. That approach, Zinbarg tells us, is that it neglects the most important source of most people's understanding of right and wrong: their religious tradition. While philosophy can shed the light of reason on the ethical dilemmas of economic life, it's less than convincing about why we ought to behave well, lacking the compelling urgency of religious faith. Following a wonderfully lucid and succinct summary of the ethical systems relative to Judaism, Christianity, Islam, Hinduism, Buddhism, and Confucianism, the author presents a variety of case studies in lively dialogue form from the whole gamut of economic life, including misrepresentation by sellers, truth in advertising, the ethics of part-time employment, child labor, and environmental ethics. The solutions may vary from tradition to tradition, but overall, one is struck by the similarities. This is a book grounded in the real ethical challenges of modern business practice with a kind of world religious perspective so necessary in an era of globalization.

Vegetative State G. Gigli, Nathan D. Zasler, 2004 The miracles of modern medicine have created scenarios in which patients remain dependent on life sustaining treatments for years Possibly one of the most dramatic examples of such a clinical scenario is the vegetative state VS a clinical condition that occurs when an individual enters a neurological state marked by periods of wakefulness and arousal but without associated demonstrable awareness consciousness There is extensive debate as to whether assisted nutrition and hydration ANH should be withdrawn from patients in VS permanent or otherwise This book will provide cutting edge information to many scientists and clinicians interested in this clinical topic It could also be a source of anthropological philosophical and ethical reflection The many dilemmas raised by the medical religious ethical and societal response to persons in VS go well beyond the clinical condition itself and have profound implications for the fundamental values in our global society It is for this reason that the authors thought it was important to also provide a vehicle not only for scientific and bioethical reflections but also for the religious views and tenants of Judeo Christian thought on the controversial topic of VS and inherent in that conversation the controversy of withdrawal and withholding of care
