Contemporary Moral Problems:

Contemporary Moral Problems James E. White, 1985 **Ethics and Society** Richard T. De George, 1966

Contemporary Moral Issues Lawrence M. Hinman, 2016-07-01 Contemporary Moral Issues is an anthology that provides a selection of readings on contemporary social issues revolving around three general themes: Matters of Life and Death, Matters of Equality and Diversity, and Expanding the Circle, which includes duties beyond borders, living together with animals, and environmental ethics. The text contains a number of distinctive high profile readings and powerful narratives including Jonathan Foer's *Eating Animals*, Eva Feder Kittay's *On the Ethics of Selective Abortion for Disability*, and Susan M. Wolf's *Confronting Assisted Suicide and Euthanasia: My Father's Death*. Each set of readings is accompanied by an extensive introduction, a bibliographical essay, pre-reading questions, and discussion questions. *Contemporary Moral Problems* James E. White, 2003 An excerpted chapter of White's *CONTEMPORARY MORAL PROBLEMS* Seventh Edition, this brief anthology provides readers with a ready means of exploring the ethics of war and terrorism. Supported with problem cases and illuminating introductory essay and study questions, this text will engage students in one of the most crucial moral debates of our time. Readings representing divergent viewpoints will challenge them to develop their own critical positions. This text is available either as a standalone reader or can be bundled with any other Wadsworth title. **Contemporary Moral Problems Non-Infotrac Version** White, 2002-03-01 *Contemporary Moral Issues* Joe Jenkins, 2002 The 4th edition of Contemporary Moral Issues includes up to date examples of religion in context, encourages students to engage in discussion and learn what's involved in giving a reasoned argument, covers problems such as poverty and racism as well as newer issues including medical ethics and biotechnology. Doing Without Free Will Ursula Goldenbaum, Christopher Kluz, 2015 Doing without Free Will Spinoza and Contemporary Moral Problems introduces Spinoza into the contemporary discussion on free will and on moral problems surrounding this discussion. Traditional Western moral philosophy for the most part has been built on the assumption of free will as a special human capacity to freely choose actions without being determined in that choice. This idea draws increasing critique, fueled recently especially by the ever new findings of neuroscience. But how can we develop a moral philosophy without free will? Spinoza faced a similar challenge when writing his *Ethics* during the rise of modern science and its deterministic model of nature, and for this reason has much to offer the current discussion. Not only does he provide a foundation for understanding moral responsibility without free will, he also provides an explanation and solution to the classical problem of *akrasia*, precisely because he argues the will is not free. He worked out an entirely new system of moral philosophy that can help resolve the meta-ethical dilemma between absolutism and relativism, showing how moral values evolve naturally within society. Despite denying the traditional God-like power of free will, Spinoza developed a robust concept of freedom, one that is distinctly human and viable today. His modernity comes to light when we look at his answers to the much-discussed questions: whether it is possible or even desirable to develop objective instead of reactive

attitudes toward our fellow human beings His answers perhaps surprisingly resemble positions held by some contemporary philosophers *Contemporary Moral Problems* White,2010 Excerpted chapters from the ninth edition of White

CONTEMPORARY MORAL PROBLEMS made available to provide readers with a brief anthology for the study of the ethics of war terrorism torture and assassination Supported with problem cases an illuminating introductory essay and study questions this text will engage students in one of the most crucial moral debates of our time Readings representing divergent viewpoints will challenge them to develop their own critical positions Christian Ethics and Contemporary Moral Problems

Michael C. Banner,1999-09-28 This book addresses such key ethical issues as euthanasia the environment biotechnology abortion the family sexual ethics and the distribution of health care resources Michael Banner argues that the task of Christian ethics is to understand the world and humankind in the light of the credal affirmations of the Christian faith and to explicate this understanding in its significance for human action through a critical engagement with the concerns claims and problems of other ethics He illustrates both the distinctiveness of Christian convictions in relation to the above issues and also the critical dialogue with practices based on other convictions which this sense of distinctiveness motivates but does not prevent The book s importance lies in its attempt to show the crucial difference which Christian belief makes to an understanding of these issues whilst at the same time demonstrating some of the weaknesses and confusions of certain popular approaches to them **Ethics and Society** University of Kansas,1968 **Problem Cases to Accompany Contemporary Moral Problems** James E. White,1991 Moral Reasoning Victor Grassian,1992 Today's Moral Issues Daniel A. Bonevac,2001 Suitable for contemporary moral problems courses this work provides theoretical readings related to the contemporary issues readings that follow students connect theory and practice thereby making the theory relevant It also lends a historical perspective with its inclusion of selections by philosophers such as Aristotle Kant and Locke
