Stiefel,2025-10-01 *Monuments of Diverse Heritage in Early America* Placemaking and Preservation by Black Indigenous and Jewish Peoples explores a more inclusive history of preserving public historic sites At a time when some Americans have embraced white nationalism in response to unfolding demographic changes and others celebrate individual identities over all else an inclusive tolerant and unifying historical vision is sorely needed While past preservation efforts sometimes resulted in exclusionary forms of historical inspiration that need not be the case in the future Bringing greater attention to the diverse heritage of the United States will not only help dismantle the lingering remnants of exclusionary and elitist narratives but also celebrate a pluralistic and diverse past and present An inclusive empowering history can provide social cohesion while allowing room for individual groups to have authority over their pasts and representation in public side by side with one another **Native North American Art** Janet Catherine Berlo,Ruth Bliss Phillips,2015 This lively introductory survey of indigenous North American arts from ancient times to the present explores both the shared themes and imagery found across the continent and the distinctive traditions of each region Focusing on the richness of artwork created in the US and Canada *Native North American Art* Second Edition discusses 3 000 years of architecture wood and rock carvings basketry dance masks clothing and more The expanded text discusses twentieth and twenty first century arts in all media including works by James Luna Kent Monkman Nadia Myre Jaune Quick to See Smith Will Wilson and many more Authors Berlo and Phillips incorporate new research and scholarship examining such issues as art and ethics gender representation and the colonial encounter By bringing into one conversation the seemingly separate realms of the sacred and the secular the political and the domestic and the ceremonial and the commercial *Native North American Art* shows how visual arts not only maintain the integrity of spiritual and social systems within Native North American societies but have long been part of a cross cultural experience as well

The Dissolution of Place Shelton Waldrep,2016-03-16 Postmodern architecture with its return to ornamentality historical quotation and low culture kitsch has long been seen as a critical and popular anodyne to the worst aspects of modernist architecture glass boxes built in urban locales as so many interchangeable generic anti architectural cubes and slabs This book extends this debate beyond the modernist postmodernist rivalry to situate postmodernism as an already superseded concept that has been upended by deconstructionist and virtual architecture as well as the continued turn toward the use of theming in much new public and corporate space It investigates architecture on the margins of postmodernism those places where both architecture and postmodernism begin to break down and to reveal new forms and new relationships The book examines in detail not only a wide range of architectural phenomena such as theme parks casinos

specific modernist and postmodernist buildings but also interrogates architecture in relation to identity specifically Native American and gay male identities as they are reflected in new notions of the built environment In dealing specifically with the intersection between postmodern architecture and virtual and filmic definitions of space as well as with theming and gender and racial identities this book provides ground breaking insights not only into postmodern architecture but into spatial thinking in general
