**The Poem and the Garden in Early Modern England** Deborah Solomon, 2022-12-30 This book draws attention to the pervasive artistic rivalry between Elizabethan poetry and gardens in order to illustrate the benefits of a trans media approach to the literary culture of the period In its blending of textual studies with discussions of specific historical patches of earth The Poem and the Garden demonstrates how the fashions that drove poetic invention were as likely to be influenced by a popular print convention or a particular garden experience as they were by the formal genres of the classical poets By moving beyond a strictly verbal approach in its analysis of creative imitation this volume offers new ways of appreciating the kinds of comparative and competitive methods that shaped early modern poetics Noting shared patterns both conceptual and material in these two areas not only helps explain the persistence of botanical metaphors in sixteenth century books of poetry but also offers a new perspective on the types of contrastive illusions that distinguish the Elizabethan aesthetic With its interdisciplinary approach The Poem and the Garden is of interest to all students and scholars who study early modern poetics book history and garden studies

**Tradition, Modernity,**

**and Postmodernity in Arabic Literature** Kamal Abdel-Malek, Wael Hallaq, 2000-07-18 The collection of essays contained in this volume is written by a group of prominent scholars of Arabic literature. They explore various manifestations of traditional as well as modern and postmodern themes and techniques in Arabic literature. This is the first time the tripartite concepts of tradition, modernity, and postmodernity in Arabic literary works are explored and analyzed in one volume. It illustrates very clearly the fact that Arabic literature has kept abreast not only of the primarily modern literary movements in the West that is amply illustrated by many studies to date but also of the postmodern condition. Scholars in the fields of Arabic literature, Islamic Studies, Comparative Literature, postmodern studies, among others, will find this collection of essays of great interest.

The Chinese May Fourth Generation and the Irish Literary Revival: Writers and Fighters Simone O'Malley-Sutton, 2023-10-06 This book examines how the early twentieth-century Irish Renaissance, Irish Literary Revival, inspired the Chinese Renaissance, the May Fourth generation of writers, to make agentic choices and translingual exchanges. It sheds a new light on May Fourth and on the Irish Renaissance by establishing that the Irish Literary Revival, 1900-1922, provided an alternative decolonizing model of resistance for the Chinese Renaissance to that provided by the western imperial center. The book also argues that Chinese May Fourth intellectuals translated Irish Revivalist plays by W. B. Yeats, Lady Gregory, Seán O'Casey, and Synge, and that Chinese peasants performed these plays throughout China during the 1920s and 1930s as a form of anti-imperial resistance. Yet this literary exchange was not simply going one way, since Yeats, Lady Gregory, Synge, and O'Casey were also influenced by Chinese developments in literature and politics. Therefore, this was a reciprocal encounter based on the circulation of anti-colonial ideals and mutual transformation.

Exorcising our Demons: Magic, Witchcraft and Visual Culture in Early Modern Europe Charles Zika, 2021-10-11 This collection of sixteen essays deals with the role of magic, religion, and witchcraft in European culture, 1450-1650, and the critical role of the visual in that culture. It covers the relationship of humanism and magic, the intersection of religious ritual, orthodoxy, and power, the discursive links between the visual language of witchcraft and contemporary anxieties about sexuality and savagery. The introductory chapter urges us to exorcise our tendency to reduce historical experiences of the demonic to forms of unreason created in a distant past. Only then can we understand the role of the demonic in our historical definition of the self and the other. Richly illustrated with 112 images, the book will interest historians and art historians.
