Contemporary Western Europe Problems And Responses:

Contemporary Western Europe Glenda Goldstone Rosenthal, Elliot Zupnick, 1984 *Parameters*, 1985

Contemporary Western European Feminism Gisela Kaplan, 2012-10-11 Written confidently and with compassion this is the story of a long revolution that has set out to change predominant attitudes and transform value hierarchies and human lifestyles By outlining the postwar histories of individual countries Kaplan contextualises women's movements and documents a significant chapter of European social history She poses questions about the interrelationship between the new movements and the parliamentary democracies in which they occurred while analysing the contradictions of living in modern capitalist countries Contemporary Western European Feminism also tackles important contradictions such as those between the welfare state and the free market economy industrialisation and religious value systems social engineering and the production of wealth and dissent and patrimonial systems of democracy **Governmental Response to Environmental**

Challenges in Global Perspective Joseph G. Jabbra, O. P. Dwivedi, 1998 In our drive to improve human standards of living we have paradoxically paid scant attention to the need for clean air and water the impact of acid rain on agriculture lakes and rivers the effect of pollutants on the ozone layer the safe disposal of hazardous wastes and the relationship between population growth and the environment It seems that every time governments are faced with an apparent choice between economic development and the protection of the environment priority is always given to the former Short term plans dictated by canons of political survival and expediency always seem to take precedence over long term strategies with politicians and decision makers deftly relegating environmental concerns to the realm of rhetoric This book is an effort to better understand the problems faced by our global ecosystems It is also the result of the authors deep commitment to urge both citizens and their leaders the world over to work together for a better protection of the environment so that our planet may be saved for the present and for future generations New Challenges for Stateless Nationalist and Regionalist Parties Eve

Hepburn, 2013-10-18 Throughout Europe stateless nationalist and regionalist parties have moved from niche actors in party systems to mainstream political players No longer the outsider in party politics these parties have successfully entered government at the regional and state levels and many have been responsible for pushing the agenda for radical constitutional change in the United Kingdom Spain Italy Belgium Germany and France However the transformation of these parties from peripheral movements to established parties of government does not come without its problems Whilst these parties were once able to focus on the single issue of self determination they have been forced to change their strategies alter their behaviour and compromise on their principles in order to succeed in an era of electoral volatility partisan dealignment and multi level governance This book explores how stateless nationalist and regionalist parties across Western Europe have responded to the twin challenges of multi level politics i.e. operating at the regional state and European levels and a multi dimensional policy space whereby they must articulate policy proposals alongside their territorial demands Written by

leading experts in the field this is a cutting edge collection of theoretical analytical and empirical work on the challenges currently facing nationalist and regionalist parties in Europe This book was previously published as a special issue of Regional and Federal Studies **Terrorism** Susheela Bhan, Institute of Peace Research and Action (Delhi, India), 1989

United States-Western European Relations in 1980 United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Europe and the Middle East, 1980 **The Problem-solving Capacity of the Modern State** Martin Lodge, Kai Wegrich, 2014 Governance Challenges and Innovations examines the capacity of contemporary governments to act upon and address the pressing problems of our time It highlights four basic administrative capacities that matter for governance and considers the way in which states have addressed particular governance challenges **NATO Doctrine, Strategy, and Readiness** Charles W. Harper, 1983 **The Theory of Change and Response in Modern Demographic History** , **The Americanization/Westernization of Austria** G nter Bischof, Anton Pelinka, 2003-01-01 Political economic social and cultural modernization dramatically transformed twentieth century Austria Innovative new methods of production and management such as the assembly line changed Austrian business after World War I much as the Marshall Plan shaped the economy after World War II At the same time jazz Hollywood movies television programming and mass commodities were as popular in Austria as elsewhere in Western Europe Even political campaigns followed American trends All this occurred despite the fact that in West Germany American nostrums and models had been rejected modified or translated into milder versions Ultimately Austria was Western Europeanized when it joined the European Union in 1995 How Western are the Austrians This volume analyzes trends toward Americanization and Westernization in Austria throughout the twentieth century Reinhold Wagnleitner s lead essay studies the foreign politics of American pop culture Anna Schober and Monika Bernold analyze the influence of Hollywood movies and television on postwar Austrian society Reinhard Sieder follows changing discourses on family life while Ingrid Bauer looks at American influences on Austrian women Maria Regina Kecht Kurt Drexel and Christina Hainzl follow the American impact on Austrian literature opera and art Banker Anton Fink examines American banking and finance practices Andr Pfrtner and Matthias Fuchs study the Americanization of Austrian business and tourism Helmut Lackner describes how well heeled Austrian travelers to the United States brought back innovative American production methods and other ideas gleaned from world expositions before World War I American influences on Austrian politics and political science are dissected by Gnter Bischof Martin Kofler Fritz Plasser and Anton Pelinka The Americanization of Vienna is the subject of journalist Armin Thurnher s essay Comparisons with West Germany are presented by Michael Hochgeschwender These essays prove that Americanization Westernization and globalization need to be carefully defined before generalizations can be made Gnter Bischof is professor of history and the director of Center Austria at the University of New Orleans Anton Pelinka is professor of political science at the University of Innsbruck and the director of the Institute of Conflict Research in Vienna Constitutions and Religion
