Contemporary Europe:

Language, Culture and Communication in Contemporary Europe Charlotte Hoffmann, 1996 This book offers a multidisciplinary approach to the consideration of aspects of Europe's linguistic and cultural heritage. The ten contributions explore the relationship between language, culture and modern communication either taking Europe as a whole or looking at specific countries. The authors' backgrounds and expertise span a number of disciplines from linguistics, sociolinguistics and translation studies to information technology and cultural studies. Contemporary Europe Richard Sakwa, Anne Stevens, 2012-03-28 This fully revised third edition provides a wide-ranging introduction to political, economic and social life across the whole continent. Ideal for students new to the subject, this popular text stimulates fresh thinking on issues and debates

Contemporary Europe William Outhwaite, 2016-10-04 Europe is one of the most dynamic and interesting areas of the world, pioneering in the European Union a new form of governance for half a billion people represented in the world's first directly elected transnational parliament. This book situates the European Union in a broader European, global, historical and geographical context, providing a readable presentation of the most important facts and drawing on the theoretical approaches which have transformed the study of contemporary Europe over the past two decades. The European Union is still on the road to what has been called an unknown destination and this book presents its economic, political, legal and social trajectory from the middle of the last century to the present. Contemporary Europe covers some of these issues in an interdisciplinary framework aiming to situate the development of the European Union in a broader context of pan-European and global processes. Europe has been cut down to size but it does not have to become a global backwater and the study of contemporary Europe's institutional reality does not have to be boring. The book counters this misperception, conveying the essential facts and theories of contemporary European reality in a clear and approachable analysis. It will serve as a readable introduction both to the academic field of European studies and to contemporary Europe itself

The Social and Political Doctrines of Contemporary Europe, *Citizens and borderwork in contemporary Europe* Chris Rumford, 2013-10-31 The extent to which ordinary people can construct, shift and dismantle borders is seriously neglected in the existing literature. The book explores the ability of citizens to participate in the making of borders and the empowerment that can result from this bordering and debordering activity. Borderwork is the name given to the ways in which ordinary people can make and unmake borders. Borderwork is no longer only the business of nation states; it is also the business of citizens and indeed non-citizens. This study of borderwork extends the recent interest in forms of bordering which do not necessarily occur at the state's external borders. However, the changing nature of borders cannot be reduced to a shift from the edges to the interior of a polity. To date, little research has been conducted on the role of ordinary people in envisioning, constructing, maintaining, shifting and erasing borders, creating borders which facilitate mobility for some while creating barriers to mobility for others.

appropriating the political resources which bordering offers contesting the legitimacy of or undermining the borders imposed by others This book makes an original contribution to the literature and stands to set the agenda for a new dimension of border studies This book was published as a special issue of Space and Polity

Memory and Representation in Contemporary Europe Siobhan Kattago, 2016-04-22 Why do certain places and not others symbolically capture the past and freeze time Likewise why does the process of memory as a fluid and changing activity seem to prevent its own solidification Memory and Representation in Contemporary Europe reflects not only on the persistence of the past as a theme linked to modernity media and time but also discusses the politics of memory within a changing Europe Drawing on the theoretical work of Hannah Arendt Isaiah Berlin and Zygmunt Bauman Siobhan Kattago uses examples from both Germany and Estonia in order to address the multiple layers of Europe's totalitarian past Through reflecting on the legacy of totalitarianism and the revolutions of 1989 it becomes clear that the issue is less of whether one should remember but rather how to internalize the various lessons of the past for the future of Europe Memory and Representation in Contemporary Europe thus offers the reader occasions upon which to take stock of different but overlapping contours of past and present in contemporary Europe

Nation and Identity in Contemporary Europe Brian Jenkins, Spyros A. Sofos, 2003-09-02 The resilience of nationalism in contemporary Europe may seem paradoxical at a time when the nation state is widely seen as being in decline The contributors of this book see the resurgence of nationalism as symptomatic of the quest for identity and meaning in the complex modern world Challenged from above by the supranational imperatives of globalism and from below by the complex pluralism of modern societies the nation state in the absence of alternatives to market consumerism remains a focus for social identity Nation and Identity in Contemporary Europe takes a fully interdisciplinary and comparative approach to the national question Individual chapters consider the specifics of national identity in France Germany Britain Italy Iberia Russia the former Yugoslavia and Poland while looking also at external forces such as economic globalisation European supranationalism and the end of the Cold War Setting current issues and conflicts in their broad historical context the book reaffirms that nations are not natural phenomena but constructed forms of social identity whose future will be determined in the social arena

Underprivileged Voters and Electoral Exclusion in Contemporary Europe Dario Tuorto, 2022-05-23 This volume investigates the reasons behind voter turnout inequalities in contemporary Europe It looks at the socioeconomic factors that can inhibit electoral participation at the individual level and how these factors interact with the institutional constraints regulating access to the electoral arena and considering the changes affecting the class system and occupational opportunities The volume also reflects on the long term effects of the 2008 Great Recession on the stability of democracy and the individual lives of voters who are often deprived of institutional representation and left with the choice between anti system protest and disengagement from politics

Cultural Autonomy in Contemporary Europe David J. Smith, Karl Cordell, 2013-10-18 In this volume some of the world's leading scholars involved in researching the fields of ethno politics

nationalism and ideas of nation and state have come together to produce a work that is both original and accessible The volume explores the rich but sadly neglected tradition of thought on non territorial cultural autonomy as exemplified by the work of Karl Renner and Otto Bauer and the European Nationalities Congress of the 1920s Through a combination of theoretical analysis and case study approaches the authors challenge conventional thinking on how best to reconcile competing claims over territory and cultural expression Drawing upon a range of examples from countries such as Russia Romania and Hungary and by comparing the situation of territorially based ethnic minorities with those principally the Roma who lack identification with a given state or states the authors of this volume seek to supply answers and question received truths

Healthy Europe: confidence and uncertainty for young people in contemporary Europe Council of Europe, 2016-03-01 What is it like to be young in a Europe faced with conflict and austerity Volume 3 of the series Perspectives on youth focuses on healthy Europe not just in the narrow sense but in the broader sense of what it is like to be young in a Europe faced with conflict and austerity and what it feels like to be young as transitions become ever more challenging The assumption when planning this issue was that health in this broader sense remains a controversial area within youth policy where the points of departure of policy makers on the one hand and young people themselves on the other are often dramatically different in fact young people tend to interpret the dominating discourse as limiting patronising maybe even offensive The question of health brings the old tensions between protection and participation as well as agency and structure to the forefront Not all questions are addressed in detail but many are touched upon It is intentionally an eclectic mix of contributions to provide a diversity of argumentation and to promote reflection and debate As has been the intention of Perspectives on youth throughout we have sought to solicit and elicit the views of academics policy makers and practitioners presenting theoretical empirical and hypothetical assertions and analysis Perspectives on youth is published by the partnership between the European Union and the Council of Europe in the field of youth in co operation with and with support from four countries Belgium Finland France and Germany Its purpose is to keep the dialogue on key problems of child and youth policies on a solid foundation in terms of content expertise and politics The series aims to act as a forum for information discussion reflection and dialogue on European developments and trends in the field of youth policy youth research and youth work while promoting a policy and youth work practice that is based on knowledge and participatory principles The editorial team of this volume is composed of 12 members representing the supporting countries the Pool of European Youth Researchers PEYR the co ordinator of the youth policy reviews of the Council of Europe the EU Council of Europe youth partnership and the co ordinator of the editorial team

[Mapping the Extreme Right in Contemporary Europe](#) Andrea Mammone, Emmanuel Godin, Brian Jenkins, 2012-05-16 In recent years the revival of the far right and anti Semitic racist and fascist organizations has posed a significant threat throughout Europe Mapping the Extreme Right in Contemporary Europe provides a broad geographical overview of the dominant strands within the contemporary radical right

in both Western and Eastern Europe After providing some local and regional perspectives the book has a series of national case studies of particular countries and regions including Austria Belgium Bosnia Herzegovina Croatia Eastern Europe France Germany Greece Italy Malta Portugal Romania Scandinavia Serbia Spain Switzerland Turkey Ukraine and the United Kingdom A series of thematic chapters examine transnational phenomena such as the use of the Internet the racist music scene cultural transfers and interaction between different groups Drawing together a wide range of contributors this is essential reading for all those with an interest in contemporary extremism fascism and comparative party politics Church and State in Contemporary Europe Zsolt Enyedi, John T.S. Madeley, 2004-08-02 This volume represents an attempt in integrating a wide range of theoretically relevant issues into the identification and analysis of church state patterns Each chapter focuses on the analysis of a particular theme and its role in shaping and or being shaped by church state relations

Dynamics of Memory and Identity in Contemporary Europe Eric Langenbacher, Bill Niven, Ruth Wittlinger, 2013-03-01 The collapse of the Iron Curtain the renationalization of eastern Europe and the simultaneous eastward expansion of the European Union have all impacted the way the past is remembered in today's eastern Europe At the same time in recent years the Europeanization of Holocaust memory and a growing sense of the need to stage a more self critical memory has significantly changed the way in which western Europe commemorates and memorializes the past The increasing dissatisfaction among scholars with the blanket undifferentiated use of the term collective memory is evolving in new directions This volume brings the tension into focus while addressing the state of memory theory itself Missionary Politics in Contemporary Europe José Pedro Zúquete, 2007-11-19 While Western Europe is widely considered to be the most secularized region of the world Jos Pedro Z quete asserts that in certain cases intense religion has manifested itself outside the church through political channels The sacralization of politics is commonly studied in terms of movements and regimes of the past Offering an innovative political analysis Zuquette focuses on contemporary movements developing the term missionary politics The author focuses on Umberto Bossi's Northern League in Italy and Jean Marie Le Pen's National Front in France assessing the literature rhetoric imagery and patterns of charismatic control of these movements Drawing upon interviews extensive fieldwork and abundant primary sources Z quete identifies the ways in which these political movements provide members with a sense that the nation is sacred and that its people have been divinely chosen Multiplicity of Nationalism in Contemporary Europe Ireneusz Paweł Karolewski, Andrzej Marcin Suszycki, 2010-01-01 Nationalism remains one of the key political societal and socio psychological phenomena in contemporary Europe The international scholars assembled in this edited collection suggest that the use of three perspectives supranationalism boundary making nationalism and regional nationalism may be promising as an explanatory framework for the analysis of nationalism in Europe The volume distances itself from older dichotomies such as civic and ethnic nationalism and questions the one sided normativity of nationalism in particular regarding the concept of liberal nationalism It argues that a promising approach to contemporary

nationalism should reflect the multiplicity of nationalism Citizenship in Contemporary Europe Michael Lister, 2008-05-12 This book seeks to analyse the impact of globalisation European integration mass migration changing patterns of political participation and welfare state provision upon citizenship in Europe Uniting theory with empirical examples the central theme of the book is that how we view such changes is dependent upon how we view citizenship theoretically The authors analyse the three main theoretical approaches to citizenship 1 classical positions liberal communitarian and republican primarily concerned with questions of rights and responsibilities 2 multiculturalist and feminist theories concerned with the question of difference and 3 postnational or cosmopolitan theories which emphasise how citizen rights and behaviours are increasingly located beyond the nation state Using these theoretical perspectives the second section of the book assesses four key social economic and political developments which pose challenges for citizenship in Europe migration political participation the w

The Roma and Their Struggle for Identity in Contemporary Europe Huub van Baar, Angéla Kóczé, 2020-02-03 Thirty years after the collapse of Communism and at a time of increasing anti migrant and anti Roma sentiment this book analyses how Roma identity is expressed in contemporary Europe From backgrounds ranging from political theory postcolonial cultural and gender studies to art history feminist critique and anthropology the contributors reflect on the extent to which a politics of identity regarding historically disadvantaged racialized minorities such as the Roma can still be legitimately articulated

Migration and the Crisis of Democracy in Contemporary Europe Christoph M. Michael, 2021-01-12 This innovative and thought provoking

study puts forth a compelling analysis of the constitutive nexus at the heart of the European refugee conundrum. It maps and historically contextualises some of the distinctive challenges that pervasive ethnic and cultural pluralism present to real politics as on the level of political theorizing. By systematically integrating hitherto insufficiently linked research perspectives in a novel way it lays open a number of paradoxical constellations and regressive tendencies in contemporary European democracy. It thereby redirects attention to the ways in which liberal thought and liberal democratic institutions shape, interact with and may even provide justification for illiberal and exclusionary practices. This book thus makes an important contribution to the analysis of post-migrant realities in Europe and the ways in which they are defined by imperial legacies, punitive migration regimes, the culturalization of mainstream politics and the discursive construction of a European Other.
