Contemporary Hong Kong Art Biennial 1996:

Contemporary Hong Kong art biennial 1996, 1996 *I Like Hong Kong* Frank Vigneron, 2010-06-15 Contemporary Chinese art is nowadays a subject area widely taught and researched in academic and nonacademic publications but it has not yet been studied by localizing the research in specific cultural areas within the Chinese world Selecting Hong Kong for a first such study was an obvious choice since Hong Kong culture has had for already quite a long time very specific features which have put it apart from the generally accepted definition of Chinese national culture Although it is not a survey of Hong Kong art as such a study would demand many more books the works of about eighty artists working in Hong Kong and sometimes outside have been analyzed and contextualized in these pages **China's Avant-Garde, 1978-2018** Daria Berg, Giorgio Strafella, 2022-11-11 This book examines how China's new generation of avant garde writers and artists are pushing the boundaries of vernacular culture creatively appropriating artistic and literary languages from global cultures to reflect on reform era China's transformation and the Maoist heritage It explores the vortex of cultural change from the launch of Deng Xiaoping's reforms in 1978 to Xi Jinping establishing his leadership for life in 2018 The book argues that China's new avant garde adopt transcultural forms of expression while challenging the official discourse of Xi Jinping's regime which promotes cultural nationalism and demands that cultural production in China embodies the essence of the Chinese nation The topics range from body art women's poetry and boys love literature to Tibetan fiction and ceramic art The book shows how the avant garde use the new digital media to bypass government censorship transcending China's virtual frontiers while breaking new ground for an emerging public sphere Overall the book provides a rich picture of the nature of China's avant garde art and literature and the challenges it poses for the Chinese government The introduction and chapter 10 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license **Hong Kong Culture** Kam Louie, 2010-06-01 Does Hong Kong culture still matter This informative and interdisciplinary volume proves unmistakably so It stands as an essential Hong Kong reader a rich resource not only for those specialized in Hong Kong culture and history but also for students teachers and researchers interested in cosmopolitanism postcolonial conditions as well as cultural globalization Laikwan Pang The Chinese University of Hong Kong A very timely ambitious and fascinating book The essays are based on solid research and full of theoretical or analytical insights illustrating the complexity of social and cultural life in Hong Kong In addition to offering excellent essays on Hong Kong cinema the book also surveys alternative performance art and documentary which are undoubtedly the least researched aspects of Hong Kong's cultural scene Law Wing Sang Lingnan University Hong Kong as a world city draws on a rich variety of foundational texts in film fiction architecture and other forms of visual culture The city has been a cultural fault line for centuries a translation space where Chinese-ness is interpreted for Westerners and Western-ness is translated for Chinese Though constantly refreshed by its Chinese roots and global

influences this hub of Cantonese culture has flourished along cosmopolitan lines to build a modern outward looking character Successfully managing this perpetual instability helps make Hong Kong a postmodern stepping stone city and helps make its citizens such prosperous and durable survivors in the modern world This volume of essays engages many fields of cultural achievement Several pieces discuss the tensions of English closely associated with a colonial past yet undeniably the key to Hong Kong s future Hong Kong provides a vital point of contact where cultures truly meet and a cosmopolitan traveler can feel at home and leave a sturdy mark Contributors include John Carroll Carolyn Cartier David Clarke Elaine Ho Douglas Kerr Michael Ingham C J W L Wee Chu Yiu Wai Gina Marchetti Esther M K Cheung Pheng Cheah Chris Berry and Giorgio

Contemporary China Jörg Huber, Zhao Chuan, 2014-03-15 Globalization euphoria and enthusiasm for the West are on the decline in contemporary China Critical voices make themselves heard in artistic and cultural circles turning towards their personal everyday lives to take stock Their questions revolve around concrete experiences in the radical upheaval of lifeworlds the continued significance of traditions after many of them have been thoroughly uprooted and the paradoxes produced by the predominance of neo liberalism The 17 positions assembled in this volume provide a vivid illustration of such a new thoughtfulness in a wide variety of aspects ranging from aesthetics and art to theatre and photography

Contemporary Art in the Conflicts of Globalization Jonathan Harris, 2025-11-26 Contemporary Art in the Conflicts of Globalization presents an authoritative introductory guide to the emergence development and meanings of contemporary art around the world from the era of twentieth century western colonialism to the crises and conflicts of globalization over the last three decades Examining contemporary art s connections to and breaks from modern art in the last century the study offers an innovative account of its artists formation during the era of decolonization after 1945 and the Cold War Through a series of complementary analytic perspectives the book considers the cultural politics of the global art world its patterns of inclusion and exclusion and charts contemporary art s relations to feminist anti racist and climate change activisms among others as these have both mutated and interconnected since the 1990s More than 50 illustrations are included and are the basis for the book s empirical and theoretically informed study The book is designed for both students and general readers and will be of great value for all who see contemporary art and global cultures as a contested ground of creativity and social significance within which transformative progressive change may be achieved for the whole world and all its peoples

Context Eva Kit Wah Man,2015-08-17 This book discusses how China's transformations in the last century have shaped its arts and its philosophical aesthetics For instance how have political economic and cultural changes shaped its aesthetic developments Further how have its long standing beliefs and traditions clashed with modernizing desires and forces and how have these changes materialized in artistic manifestations In addition to answering these questions this book also brings Chinese philosophical concepts on aesthetics into dialogue with those of the West making an important contribution to the fields of art comparative aesthetics and philosophy

Modern Chinese Artists Michael Sullivan,2006-04-03 An important reference source for scholars and students of modern Chinese art collectors museums and libraries dealers and auction houses It includes biographical entries for approximately 800 Chinese artists who grew up or were trained in China and who are likely to be represented in collections exhibitions and auctions within and outside China

Inside/out Asia Society. Galleries,San Francisco Museum of Modern Art,1998-01-01 The late twentieth century has been marked by momentous political economic and social change throughout the Chinese world Deeply rooted cultural assumptions and ancient visual traditions have been challenged by rapid modernization and conflicting global ethnic and local identities Inside Out New Chinese Art was the first major international exhibition to explore the impact of these challenges on artists in the People's Republic of China Hong Kong Taiwan and those of the 1980s Diaspora The multifaceted exhibition and accompanying catalog encompass an extensive range of artistic forms including installation video and performance art as well as more traditional media such as oils and ink The art is grouped according to themes some specific to regions and others that reflect widespread and overlapping trends With the inclusion of ambiguous territories like Hong Kong and Taiwan the exhibition opens up a perspective of modern Chinese art from the outside as well as a looking out from the inside The catalog features essays by eminent Chinese art scholars and curators along with leading curators and historians of Western art Together they promote Chinese art's rightful place in the contemporary global cultural arena and at the same time acknowledge the influence of its rich heritage The diversity and freshness of the exhibition reflects the explosion of creativity among Chinese artists during the past decade The ironic social commentary of Li Shan's The Rouge Series no 24 the apartment art of artists reacting against the traditional patronage of large museums and corporations and Wang Jin's sly humor in portraying consumer fetishes in today's China are a few examples of the spirited artistry awaiting the viewers of Inside Out

World Film Locations: Hong Kong Linda Chiu-Han Lai,Kimburley Wing-yee Choi,2014-05-14 The rapid development of Hong Kong has occasioned the demolition of buildings and landscapes of historic significance but film acts as a repository for memories of lost places vanished vistas and material objects Location shoots in Hong Kong have preserved many disappearing landmarks of the city and the resulting films function as valuable and irreplaceable archives of the city's evolution Far more than a simple

collection of movie locations this book delivers a rare glimpse into the history of film production practices in Hong Kong The locations described here are often not the most iconic rather they are the anonymous streets and back alleys used by local film studios in the 1960s and 70s They are the garden cafes with outdoor seating near the Chinese University of Hong Kong where moments of conflict in romantic comedies erupt and dissipate They are the old Kai Tak Airport which channels rage and desire and the tenement housing which splits citizens into greedy landlords and the diligent working class and embodies old day communal values Modern Hong Kong horror films draw their power from the material character of home grown convenient stores shopping arcades and lost mansions found under modern high rises As in the films of Wong Kar wai and Johnnie To readers will drift and dash through the streets of Central to the district s periphery almost recklessly automatically or for the sheer pleasure of roaming The first of its kind in English this book is more than a city guide to Hong Kong through the medium of film it is a unique exploration of relationship between location and place and genre innovations in Hong Kong cinema
