M. Lew, 1987-11-10

The establishment of a School of International Arbitration was a sufficiently important occurrence to have brought to London for its inaugural conference most of the world's leading experts on international arbitration. The three-day Symposium on March 25-27, 1985, sought to identify and consider the issues and alternative solutions. It was not the aim of the Symposium to develop, propose, or agree solutions to these problems but rather to discuss the issues and alternative solutions. The success of the School will be measured in the future by its contribution through research and teaching to the development of solutions to the difficulties and uncertainties which reduce the effectiveness of international arbitration agreements and awards and the conduct of international arbitral proceedings. This book reproduces the papers presented at the Symposium, amended and varied by several contributors. It is not considered appropriate here to comment on or analyze paper by paper the ideas presented or discussions which ensued. However, it would be appropriate to make reference to specific developments in the short period since the Symposium directly relevant to the papers reproduced and the discussions which ensued. The pertinence of the subject matter selected becomes clear from these subsequent developments.

Contemporary Issues in American Policing Richard K. Moule Jr., Bryanna Fox, 2021-03-30

American law enforcement and the public's perception of police is a topic of growing interest among academics, practitioners, and policymakers. From the 2014 events in Ferguson, MO, and the alleged Ferguson Effect to the debate over the impact of body-worn cameras (BWCs), police militarization, use of force, and other practices that may alter the public's view of police legitimacy and procedural justice, there is an increasing need for research addressing these contemporary issues in American policing. This book presents the latest research on these topics as well as related topics noted in the Presidential Task Force on 21st Century Policing, such as police use of technology, transparency, oversight, and building trust with the community. The studies contained in this book examine these issues by leveraging empirical data on policing, public perceptions, crime, and diverse

research methods to present high quality analysis of these timely and relevant topics in today s world The chapters in this book were originally published as a special issue of the Journal of Crime and Justice
