**Religion in Livy** David Levene, 2018-07-17 This book examines the use that Livy made of religious topics and shows how this fits in with other aspects of his narrative The author shows how Livy's views of religion depend less on personal belief than on the refinement of his narrative technique He looks at the history decade by decade and demonstrates that there are radical differences between different sections in some Livy uses large scale religious themes but in others he deliberately avoids them By a systematic analysis of Livy's narrative patterns and comparison with other ancient versions it is proved that this is not simply due to subject matter but reflects a development in Livy's handling of his material This profound difference between decades throws doubt on much of the standard picture of Livy it also points to a need to revise notions of Augustan religious ideology

*The New Examination System - GCSE* Walter Roy, 2019-07-17 Reform of the public examination system for sixteen year olds presented a considerable challenge to secondary schools The new General Certification of Secondary Education introduced in 1988 was more than a continuation of the G C E O level and C S E examinations at the time The introduction of national criteria by the Department of Education the part played by the Secondary Schools Examination Council the emergence of new examining bodies were new dimensions faced by schools accustomed to exercising considerable autonomy in designing a curriculum How far would the new examination reflect what was actually taught in our classrooms What were its new features Which pupils would be entered and with what prospect of success Above all how would schools meet a tight time schedule which required study of new syllabuses to be ready by 1986 for the first examinations held in 1988 Originally published in 1986 this book was intended to answer some of these questions and provide an up to date picture of the present state of the examination world with indications of future developments in the vital years ahead It aimed to assist those immediately and urgently concerned with implementing this far reaching educational reform Today it can be considered in its historical context
