

Contemporary Poetry

II

By Leonard Derek Rambarose

*This babble shall no longer befuddle me
When its true meaning I shall set free
Contrived of pen and erudite old men,
Quills of Nymphs and Fates' omen.
I shall into every deceptive line delve
Each metaphor master, simile shelve;
When I conquer the profile of the futile
Self gratification shall anoint me well.
Then I shall revel in my arcane domain
And none shall trample an intellect inane
None can charm joy with joy, agony with pain
Like heaven's pearly dew drops cannot refrain
For I have long laid siege to the ramparts of poetry
And finally mastered the art of understanding poetry.*

Harris, 1994-06-23 Most observers believe that gospel music has been sung in African American churches since their organization in the late 1800s Yet nothing could be further from the truth as Michael W Harris's history of gospel blues reveals Tracing the rise of gospel blues as seen through the career of its founding figure Thomas Andrew Dorsey Harris tells

the story of the most prominent person in the advent of gospel blues Also known as Georgia Tom Dorsey had considerable success in the 1920s as a pianist composer and arranger for prominent blues singers including Ma Rainey In the 1930s he became involved in Chicago's African American old line Protestant churches where his background in the blues greatly influenced his composing and singing Following much controversy during the 1930s and the eventual overwhelming response that Dorsey's new form of music received the gospel blues became a major force in African American churches and religion His more than 400 gospel songs and recent Grammy Award indicate that he is still today the most prolific composer publisher in the movement Delving into the life of the central figure of gospel blues Harris illuminates not only the evolution of this popular musical form but also the thought and social forces that forged the culture in which this music was shaped

Discovering Modernism Louis Menand, 2007-02-19 When *Discovering Modernism* was first published it shed new and welcome light on the birth of Modernism This reissue of Menand's classic intellectual history of T S Eliot and the singular role he played in the rise of literary modernism features an updated Afterword by the author as well as a detailed critical appraisal of the progression of Eliot's career as a poet and critic The new Afterword was adapted from Menand's critically lauded essay on Eliot in *The Cambridge History of Literary Criticism* Volume Seven *Modernism and the New Criticism* Menand shows how Eliot's early views on literary value and authenticity and his later repudiation of those views reflect the profound changes regarding the understanding of literature and its significance that occurred in the early part of the twentieth century It will prove an eye opening study for readers with an interest in the writings of T S Eliot and other luminaries of the Modernist era

Plants in Contemporary Poetry John Ryan, 2017-08-15 Positioned within current ecocritical scholarship this volume is the first book length study of the representations of plants in contemporary American English and Australian poetry Through readings of botanically minded writers including Les Murray Louise Glück and Alice Oswald it addresses the relationship between language and the subjectivity agency sentience consciousness and intelligence of vegetal life Scientific philosophical and literary frameworks enable the author to develop an interdisciplinary approach to examining the role of plants in poetry Drawing from recent plant science and contributing to the exciting new field of critical plant studies the author develops a methodology he calls botanical criticism that aims to redress the lack of emphasis on plant life in studies of poetry As a subset of ecocriticism botanical criticism investigates how poets engage with plants literally and figuratively materially and symbolically in their works Key themes covered in this volume include plants as invasives and weeds in human settings as sources of physical and spiritual nourishment as signifiers of region home and identity as objects of aesthetics and objectivism and crucially as beings with their own perspectives voices and modes of dialogue Ryan demonstrates that poetic imagination is as essential as scientific rationality to elucidating and appreciating the mysteries of plant being This book will appeal to a multidisciplinary readership in the fields of ecocriticism ecopoetry environmental humanities and ecocultural studies and will be of interest to researchers in the emerging area of critical plant
