The Contemporary Relational Supervisor Robert E. Lee, Thorana S. Nelson, 2013-07-18 The Contemporary Relational Supervisor is an empirically based academically sophisticated and learner friendly book on the cutting edge of couple and family therapy supervision. Appropriate for master's and doctoral level students as well as experienced clinicians who wish to learn about supervision, it emphasizes system and relational thinking and intervention while privileging the diversity of training system members, their realities, experiences, and interpretations of life. The authors are attuned throughout the text to how and where clinical training and services are provided and to whom and provide detailed literature reviews for readers. These factors assist their discussion of the socio-historic development of the AAMFT supervision designation and the fundamentals, contexts, philosophy, relationships, and pragmatics of CFT supervision. They also discuss major models and approaches, evaluation, ethical and legal issues, and therapist development. Perhaps most important is their presentation of methods that help tailor and extend supervision practices to meet the clinical, institutional, and economic realities that CF therapists navigate. Readers are engaged by the discussions and exercises at the end of each chapter which help them to feel more grounded in a topic, to have their own voices heard, and to be granted insight through experiencing multiple realities. This valuable reference prepares the next wave of cutting edge CFT supervisors: those who are knowledgeable, skilled, and realistically confident.

Social Welfare Programs and Social Work Education at a Crossroads Antonio López Peláez, Annaline Keet, Chung Moon Sung, 2024-07-17 This book explores a key phenomenon that has been accelerated by the COVID 19 crisis: namely, the crossroads at which social welfare professionals find themselves. This is a crossroads where, on the one hand, there is an accelerated digitalization process and a reorganization of social programs, while on the other hand, we are confronted by the basic challenge of designing social policies and their methods of evaluation that is the generation of robust data that will allow better evaluation of social projects and programs. Rigorously analyzing the crossroads at which social welfare programs find themselves and the new demands for the education of professionals involved in social welfare programs, several key issues can be discerned: the theoretical debate surrounding the changes brought about by the COVID 19 pandemic and the process of redefining globalization in which we are immersed; the challenges to be met by welfare programs and the good practices that are being implemented; the key issue of how to generate more robust data in the field of social services and social protection; how to increase the competencies of professionals through education in schools of social work. Providing 15 newly written chapters drawn from both the global north and the global south, it offers a set of recommendations to address the challenges of inequality and social inclusion in the coming years. It will be of interest to all academics, students, and practitioners working in the fields of social work, social welfare, and social development.
